## Today Finishes Tryouts for Play

"Light Up the Sky" by Moss Hart is one of the better plays ever written about Broadway," according to Dr. Joseph Baldwin, play director.

Tryouts for the play will be held today for the last time from 3-5 p.m. and 7-9:30 p.m. at Howell Theater.

Although the play was first produced in 1948, Dr. Baldwin explained that there is a recent interest in Moss Hart due to his best seller, "Act One".

"Light Up the Sky" concerns a playwright who has written his first play. This naive young truck driver thinks that everybody is kind and good, but he soon learns to deal with real people. The cast (in the story) think that

the play is a failure and turn on the young director.

The cast loses faith in the play because the play goes on at the time of a Shriner's convention and is consequently laughed off the stage.

Dr. Baldwin said that the story is really a very accurate picture, but it's just been spiced up for comedy. He said these events could actually happen and Moss Hart has just cut out the dull happenings.

Dr. Baldwin remarked that this was the first time that he knew of when two playwrights worked together on a play about a playwright. Dr. Baldwin is a playwright and so is Clifford Ashly, technical director of the production.

## Reform...

always easier to stand still than to move ahead. Most campus groups neglect the reasons for perennial programs and overlook the necessity for continuous reevaluation and revision.

The Innocents should make provision for a variable number of members. Any house which forces participation in activities should change its rules. All activities should revise, revoke, or revitalize them. These three points are practical suggestions which would improve activities on campus.
