By Bullet

The tension is mounting in the Nebraska football picture. The Huskers have won only two games so far and could wind up with a 2-7-1 record unless they snap out of it.

The Huskers should be 4-2 right now, with losses one to Syracuse and Missouri. The ma-

terial is there but in the last three weeks Nebraska hasn't shown it. There seems to be internal problems among the team as well as poor coach-player relationships. Something is missing somewhere when a team continues to lose.

This could have been the year that Nebraska beat Kansas. The Jayhawks sputtered at the first of the season but started clicking after the Colorado game. Last week Kansas trounced Oklahoma

State, a team which beat Nebraska. The Wohlfarth Huskers are due for heir annual big surprise and homecoming would be the perfect occasion but it's my guess that the Huskers would rather be after pheasants then Jayhawks this week end. Let's call it KANSAS 27 NE-BRASKA 7 and hope we're wrong. Big Eight Games

COLORADO 21, MISSOURI 19 - The Buffs, behind Gale Weidner's throwing arm, should be able to pene-trate the rugged Mizzou defense in this crucial Big Eight

Fairfield Wins Horseshoe Title

Fairfield House copped the 1961 fall intramural horseshoe trophy. Andrew Estner, throwing on the championship eam, took individual honors. The victors edged the Cornhusker Co-op 80-73 in the final standings. Farm House, Kapoa Sigma, and Phi Gamma Delta followed in that order.

Six flight winners picked up certificates. They were Estner; DeWayne Glenn, Phi Gamma Delta; David Mc-Clatchy, Farm House; Dave Wetherall, Theta Xi; Virgil McClatchey, Farm House; and Ron Amack, Alpha Tau

Bright futures in data transmission at W. E.

New engineers with initiative who can meet Western Electric's high standards are offered many exciting career opportunities with our company in data processing development work as it relates to communications.

For example, Western's engineers-working closely with Bell Telephone Laboratorics-have solved development and manufacturing problems connected with the Bell System's new DATA-PHONE Data set (made by Western Electric). DATA-PHONE service lets business machines, such as computers, "speak" to each other in a language of numbers and symbols over existing telephone communication networks. This represents a tremendous boon to business; and consequently, it is estimated that some day there may be more machine talk than people talk using telephone lines.

Of course, data communications is only one of many rewarding career areas that await you at Western Electric. Here are just a few of the others: electronic switching . . . solid state electronic devices . . . microwave radio relay...computer-programmed production lines .. solar cells . . . optical masers . . . futuristic telephones.

We need high-caliber, forward-thinking engineers now to help us transform these plans into realities or to work with us in scores of other key communications areas. Your future, the future of Western Electric, and the future of America's communications-could well depend on your first career connection.

Challenging opportunities exist now at Western Electric for electrical, mechanical, industrial, and chemical engineers, as well as physical science, liberal arts, and business majors. All qualified applicants will receive careful consideration for employment without regard to race, creed, color or national origin. For more information about Western Electric, write College Relafons, Western Bectric Company, Room 6106, 222 Broadway, New York 38, New York. And be sure to arrange for a Western Electric interview when our college representatives visit your compus.

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Lauraldale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Omaho, Neb.; Kanzas City, Mo.; Columbus, Ohlo; Oklahoms City, Okla. Engineering Research Center, Princeton, R. J. Teletype Corporation, Skokie, III., and Little Rock, Ark. Also Western Electric distrion centers in 23 cities and installation headquarters in 16 cities. General headquarters: 185 Broadway, Sew York 7, M. Y.
