

'College Students Will Discover PTP Worthy Challenge'

... Dr. H. Lloyd Weaver Says

By TOM KOTOUC

The American student is going to find that he must work hard at People-to-People and international friendship, said Dr. H. Lloyd Weaver, foreign student advisor for the University.

"But those willing to really work will benefit tremendously from feeling personal satisfaction in gaining an understanding of personalities that have developed under entirely different cultures," he said.

The American student is going to find that he must work hard at People-to-People and international friendship, said Dr. H. Lloyd Weaver, foreign student advisor for the University.

"But those willing to really work will benefit tremendously from feeling personal satisfaction in gaining an understanding of personalities that have developed under entirely different cultures," he said.

The international student wants the American student in dorms, fraternities and sororities to just come out and be a human being, said Dr. Weaver.

International student re-

PTP Gives More Than Knowledge

People-to-People offers University students an unusual opportunity to actively participate in a program designed to promote international understanding, said Chancellor Clifford Hardin.

"More than this, it provides a ready-made situation in which American students can learn something of the cultures, economies and people of other nations in a way not obtainable from books," he added.

"I hope our students avail themselves of this unique opportunity."

Advanced Degrees

All students who expect to receive bachelors degrees, advanced degrees, or teaching certificates at the close of this semester, should apply for them by March 1. Application may be made at the Registrar's office, 208 Administration Building, between the hours of 8:30 a.m. and 4:30 p.m., Monday through Friday, or 8:30 a.m. to 12:00 noon on Saturday.

TONIGHT AT 8:30 P.M.

THE MOST JOYOUS ENTERTAINMENT OF ALL THE YEAR . . . AND FOR THE WHOLE FAMILY, TOO!

YES, THIS IS 1962 EXCLUSIVE "ICE CAPADE" APPEARANCE FOR THE CORNHUSKER STATE!!

sponse to People-to-People is almost unanimously "yes."

Willingness

Most have indicated a willingness to "help in the program," as have many American students.

One African student said, "I don't want to be imposed on somebody out of 'pity' for foreign students. But I would like to have someone who is really interested in international students and who is ready to judge me on my own merits and see if I will suit him or her. For my own part, I will do the same, he added.

"People-to-People is an everyday Peace Corps," said one international student, "and does not cost as much."

I don't like to be the recipient always, said an African student. I prefer "give and take" relationships and feel that such a relation will have more chances of success with students and members of the staff.

Big Challenge

"People-to-People is the greatest challenge facing us as university students today—the challenge of sincere and spontaneous friendship and understanding," said Dick Krause, co-chairman of the Nebraska International Association (NIA).

However, the international student will not want to be the friend of an American student who feels he is helping some underprivileged segment of the population or who feels he is doing someone a favor, said Krause.

Also, I'd hate to see a person participate in People-to-People or NIA just to satisfy the activity requirement for his fraternity or sorority, Krause emphasized.

Isolationistic

Krause, who visited the University of Kansas recently, the home of People-to-People, said he did not feel the same isolationistic attitude between American and international students that he did at Nebraska. "It's just a friendlier attitude," Krause said.

Now, a final look at what People-to-People could mean to students at the University.

Overall, People-to-People helps the international student in his early orientation and provides an opportunity to assimilate himself directly with Americans in their daily life, said founder Bill Dawson.

It also offers the American student the opportunity to meet and talk with foreign students on an intimate basis, he added.

Brothers, Sisters

Through the brother-sister program, American and international brothers and sisters become strong friends and learn of each other's aspirations, opinions and cultures.

At a KU picnic sponsored by the brother-sister organization of People-to-People, some 350 students gathered around a huge bonfire after the picnic to discuss mutual problems and pleasures. One overseas student, who had visited countries on every continent

except Australia, said: "I have never received such a warm welcome anywhere as in the middle of this great United States."

Forum discussions on such controversial topics as "American Diplomacy, Success or Failure", "The Elchman Trial" and "What is the Megaton" stimulated intense and sincere exchanges of opinion and a great understanding of ambition and ideologies to all students.

Last summer, Dawson and Barnes barnstormed the state of Kansas for three days to find some 64 jobs for international students who might be forced to return to their countries unless they were able to find employment.

Job Placement

Now the job placement program of People-to-People maintains a file of available part-time and summer jobs which have been sought out and developed over Kansas.

The hospitality program takes international students into American homes and farms and industries. The American Student Abroad program finds the international brother hosting his American visitor when he travels abroad.

In the past, experiences of international students at the University have been varied. Canadian and European students generally have had no problems at the University, since "they are usually taken as Americans" from their similarity of tradition, race and culture.

One international student prided his experience of living in the dorm the first semesters here since he "had never felt alone and separated from others" as some of his friends had who had not lived in the dorm.

After three years at the University, said one student, I have as yet no pleasant and lasting friendships.

Many students have spoken of "unofficial color segregation" at the University.

Dwight D. Eisenhower, founder of adult People-to-People in 1956, said: "If we are going to take advantage of the assumption that all people want peace, then the problem is for people to get together and to leap governments . . . if necessary, to evade governments . . . to work out not by one method,

but thousands of methods by which people can gradually learn a little bit more about each other."

AUF Seminar

All University Fund (AUF) will hold a drive seminar Sunday from 2-5 p.m. in 232 Student Union. The purpose of this meeting will be to present the Spring faculty drive plans.

The AUF faculty drive will be held April 2-14. AUF chairmen should bring their tentative drive plans to this session and all assistants should attend. Refreshments will be served following the meeting.

Two Receive Study Grants

The Woods Foundation has awarded two fellowships for the completion of studies in Nebraska History.

Prof. Orville Zabel of Midland College received one for a study on Nebraskan attitudes towards the state's immigrant population.

The other fellowship was presented to Merrill Mattes of the National Park Service. Mattes will complete a study on the Oregon Trail route.

The fellowships are being administered by the Nebraska State Historical Society.

AWS Interviews Are Today, Saturday

Interviews for Associated Women Students (AWS) Board slate will be held today and tomorrow. Senior interviews will be this afternoon from 2:30 to 4:30 p.m. Sophomore and junior interviews will be held from 9 a.m. to 6 p.m. tomorrow.

Applicants must sign up and turn in applications by noon today outside the AWS office.

Builders Interviews

Builders is holding interviews for sales and publicity chairmen Tuesday from 6 to 7 p.m. in Builders office. Applicants should sign for the interviews in the Builders office before Monday noon.

SALLY VICTOR:
HATMAKER TO

FAMOUS WOMEN

Sally Victor has designed hats for Grace Kelly, Queen Elizabeth, Mamie Eisenhower, Hedda Hopper and many others. In this week's Post, you'll meet Sally and her clients. You'll read about her "feuds" with Lily Daché and Mr. John. Learn why Jackie Kennedy's headgear makes Sally moan. And how Eleanor Roosevelt gave her the idea that doubled her business.

Candidates for Bachelor's or Master's Degrees are invited to discuss opportunities in:

Engineering and Sales

This is a unique opportunity to find out about the many career opportunities at IBM. The IBM representative can discuss with you typical jobs, various training programs, chances for advanced education, financial rewards, and company benefits—all important factors that affect your future.

SOME FACTS ABOUT IBM

An Unusual Growth Story: IBM has had one of the exceptional growth rates in industry. It has been a planned growth, based on ideas and products having an almost infinite application in our modern economy.

Diverse and Important Products: IBM develops, manufactures and markets a wide range of products in the data processing field. IBM computers and allied products play a vital role in the operations of business, industry, science, and government.

Across-the-Country Operations: Laboratory and manufacturing facilities are located in

Endicott, Kingston, Owego, Poughkeepsie, Vestal, Yorktown, N.Y.; Burlington, Vermont; Lexington, Ky.; San Jose, Calif.; Bethesda, Md.; and Rochester, Minn. Headquarters is located in New York City with sales and service offices in 180 major cities throughout the United States.

The Accent is on the Individual: No matter what type of work a person does at IBM, he is given all the responsibility he is able to handle, and all the support he needs to do his job. Advancement is by merit.

The areas in which IBM is engaged have an unlimited future. This is your opportunity to find out what that future has to offer you. All qualified applicants will be considered for employment without regard to race, creed, color or national origin.

Your placement officer can help you to learn more about IBM. He can give you literature describing the many career fields at IBM. He will arrange an appointment for you with the IBM representative. If you cannot attend an interview, write or call the manager of the nearest IBM office:

A. G. Potter, Branch Manager
IBM Corporation, Dept. 882

IBM

You naturally have a better chance to grow with a growth company.

Minds are different, too. You can't ink them and roll them and press them on hard-finished white paper. But you can test them, mold them, nurture them, shape them, stretch them, excite them.

And challenge them. At Cal Tech's Jet Propulsion Laboratory, that's all we do. The products of these minds are spacecraft and instruments that will explore the Moon and planets and communication systems to probe outer space.

It's a big responsibility. And it requires the finest young scientific and engineering minds this country has to offer. Many, many minds that work as one. Minds such as yours, perhaps. Won't you come in and talk to us? If you have a mind to?

JET PROPULSION LABORATORY 4800 OAK GROVE DRIVE, PASADENA, CALIFORNIA
