

Alumni Association Keeps 85,000 Grads Up-to-Date

One of the most important functions of the University Alumni Association is to keep the approximately 85,000 alumni on record informed as to needs of the University, and the administration's plans for future development.

Said Arnold Magnuson, secretary-treasurer of the association, "We are also most anxious that alumni still residing in the state are well informed of financial needs of the University, and in turn, make their wishes known to the state legislature when the biennial report is due."

Aimed at strengthening loyalty and friendship among the University's graduates and former students, encouraging a greater interest in the University, and interpreting the University to the citizens of Nebraska, the association has varied activities to accomplish these purposes.

In addition to publishing the "Nebraska Alumnus" magazine 10 times a year, the association maintains up-to-date biographical files on former NU students of a year or more.

Student Writers Produce Nebr. Alumnus Magazine

For the sixth year in a row, an issue of the University of Nebraska Alumnus magazine will be an all student edition.

Students from the School of Journalism prepared all the articles except standing features.

Dr. William E. Hall, J-School director, said he believes this to be "the only cooperative effort between an alumni association magazine and journalism students in the country."

Five articles were written by students in Prof. Alan Marshall's magazine class.

Senior Sarah Alden had easy access to information for her article, "Vignette of an Alumnus." The "alumnus" was her grandfather, Claude Alden, '08.

The other four articles are: "Rising Costs in Education" by Joan Brown, junior; "Varsity Cheese" by Joyce Curd, senior; "Monumentality in Bronze," by Steve Lough,

Treasury Award

Dr. Frank E. Sorenson, director of summer sessions, received an award from the U.S. Treasury Department, in appreciation of his service to the nation through the U.S. Savings Bonds Program.

File 13...

(Continued from p. 2) with you for your own good.

Those of us who have lived in or visited a foreign nation, or who can remember our experience in a strange city, know the frustration of being alone, confused and without a friend to lean on.

If we fall to support People-to-People in the name of international brotherhood and peace, we are admitting our indifference, selfishness, ignorance and prejudice.

People-to-People promises us a "new era at the University, in the United States, in the world." All she asks of us is our sincerity, our patience and a hand of genuine friendship.

International students, our guests at the University, have indicated their willingness to go three-fourths of the way.

For us to ignore People-to-People—to snub our international brothers—is to make us responsible for international frustration, mistrust, strife, armed conflict and even nuclear war.

A People-to-People membership booth in the Student Union closes today.

Study in Guadalajara, Mexico

The Guadalajara Summer School, a fully accredited University of Arizona program, conducted in cooperation with professors from Stanford University, University of California, and Guadalajara, will offer July 2 to August 10, art, folklore, geography, history, language and literature courses. Tuition, board and room is \$245. Write Prof. Juan B. Rael, P.O. Box 7227, Stanford, Calif.

the approximately 85,000 and Spring Round-Up reunions. Alumni now on record.

Alumni are classified alphabetically, by year of graduation, and by geographical listing.

Persons seeking information about alumni may check in the association office located on the second floor of the Student Union. Degrees granted, membership record, affiliation, occupation, addresses and address changes, and mate are some alum statistics available.

A new spring project of the association is an Alumni College, June 7-8, on the NU campus.

According to Magnuson, it will afford an educational experience for alumni by presenting a series of lectures by University faculty members and outstanding speakers.

Lectures slated include "investing and estate planning," "participation in politics," "foreign affairs," "science in the '60s," and lectures on fine arts including music, literature, architecture, and contemporary painting.

Each year, a major activity of the association is the organization of Homecoming

senior; "The Editor and His Challenge" by Bess Day, sophomore.

The sixth story, "Hugo Srb," was written by a junior, Judie Waser, in Prof. Neale Cople's advanced reporting class last year. It was reprinted from the J-School's depth report on the Nebraska Unicameral.

Mortar Board Revamps Foreign Student Program

The University Mortar Board has revamped its foreign student program in order that the foreign students this year may choose the spring vacation agenda they prefer.

According to chairmen Ann Moyer and Gretchen Shellberg, the Mortar Boards will offer two programs to the students: a tour throughout the state or a "home" program in which the international student would spend the vacation week in the home of a fellow University student.

A questionnaire concerning the two programs will be sent to all foreign students.

Mortar Boards in former years have offered a five-day tour of the state of Nebraska

and Spring Round-Up reunions.

On June 9 class reunions are planned to honor 10 and 25 year class alumni. At that time, Distinguished Service Awards will be presented to outstanding alumni.

Alumni clubs receive assistance on charter day activities from the association. Current president Victor L. Toft of Omaha, and Magnuson will go into the state this spring with Chancellor Clifford Hardin to meet with various groups on charter day plans.

In connection with its aim of encouraging outstanding high school students and athletes to attend the University, the association determines which are winners or alternates for Regents' scholarships. The association also notifies University alumni in their towns as added encouragement.

Spring plans for the association include sponsorship of a European tour for association members. The group will travel by chartered airplane to Europe where they will tour six countries. So far, 86 paid applications have been received.

Assistant Secretary Coordinating the work of the association is pert, grey-haired Miss Verneda Whitney, assistant secretary, who has worked with the association since 1936.

Closely associated to the association is the University Foundation, headed by Perry W. Branch.

The Foundation is a private corporation accepting gifts and bequests from friends and alumni of the University and administering them as directed by the donors.

Among its activities in supporting the school are: teaching incentives, purchase of laboratory equipment, and student loans.

during spring vacation which was open to both American and foreign students.

If the majority of the foreign students answering the questionnaire indicate an interest in the tour rather than the alternative "home" program, plans will be made to extend the tour to include at least one of the weekends of the vacation week. Also the tour might include a visit to the Black Hills area of South Dakota.

Questionnaires should be returned by March 1 to the Mortar Board mailbox in the Student Union. If there is any question concerning the questionnaire, students should contact Ann Moyer at HE 2-3287 or Gretchen Shellberg at HE 2-9642.

Genoa Lumber Company Purchases NU Property

The Sack Lumber Co. of the St. Rose of Lima Church for \$600.

This land was sold by the University at the request of the city of Genoa for residential sites. The 1961 Legislature approved the sale of a portion of the University Seed Farm.

Romance Into Orbit

Orbit is achieved week after week after much planning and consulting, which results in safe landings for pinnings and engagements.

Pinnings

Gail Oliver, Sigma Kappa, a senior in Music at K.U. from Cheyenne, Wyoming to Harrison Warren, Delta Sigma Phi, a junior in pre-Pharmacy from Gering.

Joyce Bauman, Fedde Hall, a sophomore in Home Economics from Hastings to Neil Grothen, FarmHouse, a senior in Agriculture from Clarks.

Diann Young, Alpha Omicron Pi, a senior in Teachers College from Imperial to Dave McClatchey, FarmHouse, a junior in Ag College from Pallasdale.

Susan Grussing a junior at St. Elizabeth School of Nursing from Beatrice to Dick Williams, Pi Kappa Phi, a sophomore in business administration from Omaha.

Connie McAdams, Alpha Xi Delta, a freshman majoring in speech therapy from Cozad to Tom Price, Sigma Chi, a graduate student in Business Administration from Omaha.

Linda Williams a freshman majoring in Music from Scotia to Jerry Woods, Pi Kappa Phi, junior in Arts and Sciences from Modesto, Calif.

Mary Knolle, Pi Beta Phi, a senior in Teachers from Sioux City, Iowa to Gordon Meldrum, Beta Theta Pi, a

junior in Music from Buffalo, Wyoming.

Engagements

Laurie Howe, Fedde Hall, sophomore in Home Economics from Mitchell to Monte William, Ag Men, junior in Agriculture from Clarks.

Betty Callahan, Love Memorial Hall, a freshman in Home Economics from Gibbon to Jerry Gehre, Tau Kappa Epsilon alumna at Wesleyan, from Gibbon.

Trudy Kehret a sophomore majoring in English from Portland, Oregon to Kent Murray, a graduate student in political science from Arcadia.

Kathi Paulman, Zeta Tau Alpha, a senior in medical technology from Sutherland to Jed Szama, Sigma Chi alum, from Washington, D.C.

Betty Callahan, Love Memorial Hall, a freshman in home economics from Gibbon to Jerry Gehre, Tau Kappa Epsilon, Wesleyan alum from Gibbon.

Mary Jean Bovey, Delta Delta Delta, a freshman in Teachers College from Lincoln to Fran Blumenstock from Lincoln.

Jenny Gillespie, Delta Delta Delta, a junior in Teachers College from Gothenburg to Dave Armstrong, Farmhouse alumna, from Neligh, a graduate student at the University of Wisconsin.

Sara Rhodes, Chi Omega, a senior in Home Economics from Beatrice to Byron Dilow, Phi Kappa Psi alum, a freshman at the University of Nebraska School of Medicine from Beatrice.

NU Teacher Is Awarded Army Grant

A \$36,000 grant from the U.S. Army research office has been awarded to Dr. Turgut Sarpkaya, professor of engineering mechanics at the University and a native of Turkey.

The grant will be used to investigate the mechanism of turbulence generation in pulsating viscous flows. Under the direction of Dr. Sarpkaya, the research will be conducted at the hydrodynamics laboratory of the engineering mechanics department.

The research grant will provide financial assistance for graduate and postgraduate students doing research and will help to expand laboratory facilities.

Art Lecture Held In Union at 10, 11

Ray Sieber, associate professor of art at the State University of Iowa, will speak tomorrow at 10:00 and 11:00 a.m.

The first talk will be given in the Student Union auditorium; the second will include a coffee hour and will be presented in the Pan American room.

Backstage with Fred MacMurray

"I'm not a dedicated actor," confesses Fred MacMurray. In this week's Post, he tells about the "accidents" that made him a star. How he nearly passed up his role in "My Three Sons"—now a hit on ABC Television. And how he gets along with his TV kids.

Plan to Allow University Expansion Gets Approval

The State Highway Department is going ahead with engineering for a Lincoln street plan which will permit the University to expand between R and Q Sts.

The plan, known as Scheme 3, provides for a de-emphasis of traffic on R St. and for Q St. to carry the main load of traffic feeding into the interstate.

Scheme 3, which was outlined in the Dec. 20 issue of the Daily Nebraskan when it was aired before a Chamber of Commerce committee

meeting and given tentative approval, has now been approved by the City-County Planning Commission, the City Council, the State Highway Department and the Bureau of Public Roads, reports State Engineer John Hossack.

IBM WILL INTERVIEW FEBRUARY 27-28

Candidates for Bachelor's or Master's Degrees are invited to discuss opportunities in:

Engineering and Sales

This is a unique opportunity to find out about the many career opportunities at IBM. The IBM representative can discuss with you typical jobs, various training programs, chances for advanced education, financial rewards, and company benefits—all important factors that affect your future.

SOME FACTS ABOUT IBM

An Unusual Growth Story: IBM has had one of the exceptional growth rates in industry. It has been a planned growth, based on ideas and products having an almost infinite application in our modern economy.

Diverse and Important Products: IBM develops, manufactures and markets a wide range of products in the data processing field. IBM computers and allied products play a vital role in the operations of business, industry, science, and government.

Across-the-Country Operations: Laboratory and manufacturing facilities are located in

Endicott, Kingston, Owego, Poughkeepsie, Vestal, Yorktown, N. Y.; Burlington, Vermont; Lexington, Ky.; San Jose, Calif.; Bethesda, Md.; and Rochester, Minn. Headquarters is located in New York City with sales and service offices in 180 major cities throughout the United States.

The Accent is on the Individual: No matter what type of work a person does at IBM, he is given all the responsibility he is able to handle, and all the support he needs to do his job. Advancement is by merit.

The areas in which IBM is engaged have an unlimited future. This is your opportunity to find out what that future has to offer you. All qualified applicants will be considered for employment without regard to race, creed, color or national origin.

Your placement officer can help you to learn more about IBM. He can give you literature describing the many career fields at IBM. He will arrange an appointment for you with the IBM representative. If you cannot attend an interview, write or call the manager of the nearest IBM office:

A. G. Potter, Branch Manager
IBM Corporation, Dept. 882
601 S. 12th Street
Lincoln 8, Nebraska
Phone: HE 5-3266

IBM You naturally have a better chance to grow with a growth company.
