

NEVER-ON SUNDAY

SUNK TOWER BARES TUNNELS

Pi Eyes' Beer Hangout Uncovered in Caverns

Further probing by Hardley's Boys into the sinking Moaning Tower incident revealed a second tunnel system connecting all major fraternities with sororities and girl's zoos.

Descending into the tunnel opening with a squad of armed Air Farce Rebel Rousing Tree Climber (AFRRTC) cadets, they reported a gaping, smoke-filled cavity below 16th Street, estimated to extend from the Phi Delta Pride house on R St. to Sigma Alpha Moses on U St.

"Several students (later identified as the two Pi Eyes suspended last fall) were managing a self-service beer-pizza cafeteria under the franchise of the Diamond Bull and Grog," said one of the AFRRTC cadets.

Upon entering the cavern, AFRRTC cadets immediately

surrendered their pogo sticks and mouse ears to James "Pit" Ticketseller for an mission pass and sub-rosa identification card, according to Sgt. Parking Ticket, campus cop.

Twisting Coeds

The sergeant himself was pushed by a mass of twisting coeds and maternity men to a large throne whereupon sat King of Joy, Van Eric Eastover III

In an exclusive interview, Eastover reported that he had assumed this University position as King of Joy at the direction of Chancellor Spif Hardley as a part of the administrative reorganization last spring.

"We (the students) maintain the underground facilities at no cost to the taxpayers of the state," said the King, "and all receipts above operating costs are turned over to the University Professor's Relief Fund to aid those instructors cut short by Sen. Richas Marble's budget committee."

"The labyrinth was constructed in 1954 after University officials and police had been unable to stop a mass party raid on girl's dorm," he added.

"The twist, pizza and beer provide a constructive outlet for the energy of the college

male, normally satisfied in panty-raids or pledge torture during Hell-weeks," according to John "Psycho", counselor in psychology.

Dean Melon Spider described the festivities as "unjustly restricted to University undergraduates" since administrative and faculty members can attend only after Wednesday Faculty Senate meetings.

Alcoholic Women Stewies

President Patricia Spike-it said this proposal was a slap at the rights of the non-drinking girl. "An AWS ruling strictly prohibits taps in the girls dorms and sorority houses until a special classification is incorporated into the AWS point system (which would take into account the stimulus and relief which in-would enjoy)," she said.

Apparently Capt. Lean Gangsters, head of the campus police (dubbed the "Untouchables" after the cavern incident) knew of the cavern for several years, but has been bribed by the sub-secret Theta No-good Embolmers to keep quiet.

The amount of the bribe has not been disclosed, but it is believed to be in the form of slugs to feed the new Money Mad Parking Meters which are being installed all over campus.

'ALL THE WAY TO ROCHA'

With the proper school spirit, the Moaning Tower appears to be heading "All the way to Rocha." The well-known University symbol was discovered last night to have fallen into what later was discovered one of the main tunnels of a whole system undermining the campus.

Catacombs Utilized To Siphon Exams; Ringleader Caught

Officer Kenny Parkingticket of the campus cops discovered the Moaning Tower sinking slowly into a steam tunnel last night.

Investigation by Hardley's Hall administrators found that a tunnel built by student gangsters of cheating syndicate fame had collapsed.

The collapse of the tunnels was caused by the accidental explosion of seven cases of Haig & Haig which were being stacked by Frank Costello, Dean of Men.

Campus detectives discovered fourteen feet of pneumatic tubes connecting all buildings on campus leading

from beneath the Tower. The tunnels were apparently used to collect finals and hour exams which were left in wastebaskets, on desks, in desks, in filing cabinets and in safes of the building on campus.

A 10,000 horsepower fan powered by tapping into the University steam lines sucked air through the pneumatic tube when the fan was turned on, drawing papers, wastebaskets, filing cabinets, desks and safes into the fan room beneath the Tower.

According to Officer Parkingticket, the cases of Haig and Haig were labeled Chan-

cellor Spif Hardley, Hardley's Hall, Univ . . .

All hour exams and finals have been temporarily stored in RRTC Warehouse (formerly the Helgin Bldg) until Costello and his boys can either jack up the Moaning Tower or move to new headquarters.

Chancellor Hardley has given no statement until his Haig and Haig is returned.

University spokesman said after all had returned to a pseudo-normal that the Faculty Sensureit was expected to hold an informal inquisition on the case next week. In the mean time Costello has been suspended from duty and placed in the Hardley Hall padded cell, room 308.

Miss Smartling

Slide Jocks Give Award

Miss Sham Smartling was given the cube root award by the Slide Rule Jockeys it was announced Sunday at their annual Founder's Day banquet at Tastee Inn.

Miss Smartling, a member of Delightfully Grubby sorority, measures approximately 49.322648-21-35 expanded and approximately 36-27.322648-35 relaxed. When asked what the key to her success in this area is, she attributed it to Playtex.

Council Chairs

NSA Vote Again

Stupid Council in rapid-fire, hot blooded fashion today cooled the National Student Abolition (NSA) resolution by chairing it until April 31.

The motion calling for NSA to be put before the students to vote on was chaired when Council President Dumbo Rage used its 312 pages for cushioning on his chair.

When certain members of the minority segment of the Council, that is the Anti-mopism group, tried to object to the Dumbo's meathod in handling the controversial motion, Dumbo told them in a not too executive manner to "zip their mouths" before he compromised them.

"It's a tough watermelon pickles," he raged. "If you want to fool around with issues that have student interest, don't expect this body of mops to make any decision on them."

Pops Give Grant Aid To Groups

The AUF, that is, the All-mony for Unwed Fathers, announced recently that it is branching out and giving its most hard-worked-for-funds to a few new organizations.

The new ones receiving the most funds are: Advancement of the Juvenile Delinquency of Children in Homes, Dope Pushing committee on campus, the AUM, that is, All-mony for Unwed Mothers, purchasing of Pi Eye pledge pins, new books for the library, new chimes for the Moaning Tower, clods for the newly-initiated Cornclods, yellow paint for some said organization, turkey roosts, island for an island party, bars on the zoo windows, panties for the next panty raid, and a new Issak Walton Park for Crete.

Zoo Mom Gets Yellowed Shoes

"Those rats have painted my shoes!" shouted the Zoo's housemother Smelly Broadstrap last week as several Pi-Eyes were busy with their famous yellow paint and notorious stencils.

Said Miss Broadstrap, "I was making my usual nightly rounds when I saw a group of those girl-crazy drunkards right on the front porch doing that awful deed! (painting that is!)"

Spif Hardley, chancellor of the University, who caught the trio of Pi-Eyes had only one thing to say to the raging house mother. "Where does the wind blow? Up a freshman's—, I'm one too!"

Sen. Silverwater Tells Goals

"Ladies and gentlemen of the University—no applause please—I am here to tell you why I would make the best President of our degenerate land."

"First, I, Barry Silverwater of Arizona, stand forth the common man because he can't stand for himself. What the common man needs is a leader who will make gigantic improvements in the country and in the world.

"My first act as President, if elected and of course I will be, is to promote myself to the rank of a five-star general in the U.S. Air Farce," Silverwater said.

"As a loyal Apache Indian, I am also obligated to wipe out all the white man's forts, but of course new ones will be built in place of them. What decent human would think of living in less than a Hilton hotel? What will the Russians think of our standard of living?"

Chief Silverwater continued talking in his native tongue, whatever that is, (baby talk??) and then decided to take some action on the international scene.

"There will be many more summit meetings," he said. "We get so much done at every top level conference. Why Mr. K and I not only talk about disarmament, but we actually get it done. After a few social gatherings we are completely disarmed.

"One of my biggest fields in international relations will be in Central and Latin America. The United States actually has many friends to our south—especially 90 miles off our coast. The bearded wonder and I see eye to eye—we're the same height you

understand. And all this nonsense about his being Communist backed, it's just a front.

"Now that you know my views just give me your votes and I'll give you any-

thing you want—even tractor." Silverwater concluded. "Now get some initiative. Go out and inherit a department store!"

Barry is sponsored by the Young Dammitis.

NU Panty Raid Includes Men, 300 Eager Women

A panty raid involving 400 turned-on boys and 399 eager girls took place last night at the Girl's Zoo, according to Lean Gangster, campus police chief.

The raid was caused by several red pairs of pants being hung out the window and waved. "Come and get it" and "Hi there big boy" were observed written on the pants.

At this point, a Lincoln police cruiser equipped with dog was called. This did no good, however, as the officers joined in the raid and the dog "Kep" was over getting "acquainted" with the Phi Kappa Percyville's pledge trainer, Dutchess.

All of the fire escapes were folded down, and red carpets

were extended down them. The 400 boys proceeded up the fire escape after the 399 girls. The girls, however, having reconsidered their position, became panicky. They immediately got all of the fire extinguishers and turned them on the members of the MP's (mother's precious) who had been called out in a last ditch attempt to quench the raid.

The next event was the exit made by the 400th boy. "Boy am I leaked," said the descendent.

Roger Discontent, president of Ram-it Council, stated, "I think that it is a barbarous, unprovoked attack on every young woman's morality, and besides, my girl is in there.

Renewal Campaign Begins at Celstink

NEVER-ON SUNDAY slaves will hold a blueprint burning at the kickoff ceremonies of the Campus Renewal campaign.

The event will be held on the Quadrangle roof, in order that all students may be able to view the action.

Chancellor Spif Hardley will light the match which will start the campaign for the renewal. The blue prints of the new Twin Gables dormitory will be burned first.

All references to new buildings will be deleted from all University records as the campaign progresses.

Brainwashed

All individuals who have new ideas for buildings or other campus construction and remodeling will be brainwashed or banned from the state.

Hardley explained the purpose of the campaign.

"To renew all old structures to their original state and to reconstruct demolished ones."

The plan was the brain-storm of an ultra-liberal minded Nebraska Senator, Snarl Brutis, who suggested the restoration of all ancient buildings in the state and the demolition of any communist inspired construction.

A mob demonstration is planned this afternoon. Participants will be carrying clubs; they hope to gain entrance into the Pharmaceutical Building, new part of the Union, Hardley Hall, Uni High, Engineering Building, Hysterical Society, the two Lutheran student houses, the Methodist and Episcopal chapels, the Zeta Too Awful house, the addition of the Awful Chi Omega house, and other relatively recent structures to break all windows.

Large bulldozers will begin on the heavier work tomorrow, and will continue as long as it takes.

"We don't believe in rapid changes," Hardley added. "We believe in slow progress for improving the situation, not radical attempts to change the scenery of the campus.

Cooperative Effort

"We do not want to force anyone into anything. This will be a cooperative effort," he continued.

"Brainwashing techniques will only be used when absolutely necessary.

"Friendly persuasion is our motto."

Long-range plans show the University restored to its original layout. All 9,000 students will need to be crowded into Nebraska Hall, which the promoters hope will be restored in the immediate future.

Old Blueprints

All 80-100 year old alumni will meet next week to try to pool their resources in order to draw up the lay-outs for some structures, whose blueprints have been lost though the passing years.

"Every building will be as it was," Hardley continued. "We should be thankful for the insight of our senators, legislators and voters. Without their efforts this would not have been possible."

Cornclods Start Kicking Contest

Cornclods will sponsor a clod kicking contest on a new found cowpen west of Lincoln.

Spokesmen for the cloddy organization say: "We hope that everyone will get out and support us by coming out and slopping around. There will be plenty of room for all because all the hogs will be removed; to make room for some more? Oh well, if nobody shows we can always stand around and sling mud at each other," said a few of the newly initiated clods.

"If we run out of clods we can always back to the Union and hold a HUGELY attended pep-rally. Lets all get out and yell! Please??? And remember above all, without support we will dwindle."

Ringleader

Dean of Men Likes 'Dumb' NU Students

"But I only did it to help out those dumb kids who couldn't get by an odder way," said Frank Costello, dean of men, explained today in an exclusive interview in his padded cell, room 308 Hardley's Hall.

Costello was abducted early this morning by the Stupid Council as ringleader of a sub-rosy cheating syndicate, whose enlarged pneumatic tunnels caused the sinking of the Moaning Tower.

"The first thing you got to do is put dem kids in cages—concrete ones with stainless steel sliding doors. Den all I'd have to do is push a button every morning at 8 a.m. and their doors would open and dey could go to class.

"At five p.m. I'd push another button and their cage doors would shut again. Gee, I like to push buttons!"

"For my office, I'd like a big castle, instead of my arm pit in Hardley Hall.

And I'd have a moat with campus cops swimming in it around my castle just for scenery. Yea, and I'd dedicate it to Miss Sham Smartling," said Costello, chewing at his straight jacket and taking another bite of his opium block.
