

# Festivities Highlight Annual Greek Week

The annual Greek Week festivities began yesterday with visits to Greek houses by members of other Greek organizations.

Today's activities include dinners at the various houses with alumni guests. Later sorority coeds will be serenaded by fraternity men.

The members of Panhellenic and IFC will attend a banquet in the Union tomorrow honoring fraternity and sorority scholars and other outstanding Greeks. The top three men and women will be honored.

An Old-Timer party will be held at the Sigma Nu house tomorrow night from 7-8:30 p.m. for all pledge classes and new initiates. The informal party will include twisting music and refreshments.

Wednesday afternoon members of sororities and fraternities will hold discussion groups, while members of Panhellenic and IFC will discuss "Panhellenic-IFC Relations." Dean of Faculties, Adam Breckenridge, will discuss "Greek-Administration Relations" in the South Party Room.

Exchange dinners will be held Wednesday at 6 p.m. At 7:30 p.m. a convocation will feature Harold Angelo, Dean of men at the University of Colorado.

Thursday, a housemothers' tea will be held in the Pan American room from 3-5 p.m.

Greek Games will be Friday. Included in this years roustabouts are: chariot race, tug-of-war, women's tricycle riding contest, twelve-legged race for women, pyramid race, and other feats of skill and endurance.

The scene for the contests will be the south end of the football stadium. Competition will begin at 3 p.m. with administration and faculty personnel serving as judging. Trophies will be awarded to houses which do the best in each of the five events.

A street dance will be held from 7:30 to 11:30 p.m. on S St. between 14th and 15th Friday night. The ATO and Sig Chi combos will supply the music.

Saturday kicks off the city-wide drive for funds for Multiple Sclerosis. This is an annual affair in which the entire city is covered. Some 1,200 Greeks will help in the drive.

Each house is given a certain area to cover with the president of each house serving as the "captain" of the workers, and will have a member of the M.S. Society with them to ensure smooth running of the operations.

The climax of Greek Week will be the Greek Week Ball, featuring the music of Woody Herman, "The Old Woodchopper," and his entertaining unit. The ball will be held from 9 p.m. until 1:00 p.m. at Pershing Auditorium.

## College of Law Discusses Voting

At the request of a U.S. senate subcommittee on constitutional rights, the College of Law has discussed the power of Congress to fix voter qualifications.

The Nebraska memorandum concluded that aside from a power to curb abuses, which rests with Congress, "the constitutional and traditional power to fix the qualifications of voters in both federal and state elections, rests exclusively with the states."

The subcommittee is now holding hearings in Washington on bills dealing with voter discrimination in the South and has sought legal opinions from several of the nation's law colleges.

The NU Young Democrats wish to thank Sen. Goldwater, and those responsible for his appearance, for their immeasurable contribution to Liberalism and the Democratic Party on Friday last.

## SCRUB-A-SCRUB

Getting ready for Saturday night's dates, sixty cars rolled through a car wash Saturday. Doing the manual washing and polishing were members of Pi Beta Phi sorority and Phi Kappa Psi fraternity. The wash was held to raise money for charities.

## SOTC Is New Kind Of ROTC

The Sophomore Officer Training Corps (SOTC) represents a new kind of ROTC, said a spokesman for the AFROTC Cadet Wing.

The system, which will give the candidates a head start in their leadership training, will be conducted by three senior cadets: Steve Smith, assistant to the Commandant of Cadets; Terry Peters, Deputy Wing Commander; and LeRoy Svoboda, Deputy for Operations.

SOTC will be unique at Nebraska, since no other school separates into a special group the sophomore applicants for advanced ROTC. These 150 men may be recognized by a small white band on their right shoulder.

The new program, which will modernize the instruction of cadets in conjunction with the new AFROTC program now before Congress, will comprise interviews, counseling and leadership training for the men selected.

SOTC has been incorporated into the comprehensive selection of advanced cadets. The selection is based on a series of steps: the eight-hour AFOQT with pilot and navigator suitability tests, a complete physical, and an interview with an instructor.

Upon successful completion of this program the cadets in the present unit will be given of this program the cadets in Second Lieutenants, the rank of the junior cadets.

DREW PEARSON'S WIFE REPORTS:

## "I was Khrushchev's house guest"

At home, according to Mrs. Pearson, the "cold-blooded" Khrushchev is a warm and likable guy - with a soft spot for kids. In this week's Saturday Evening Post, she gives an intimate picture of the Red boss at play. Describes his gargantuan dinners, swimming-pool romps and off-the-cuff chatter. And tells what was behind his tantrum at the U.N.

The Saturday Evening POST APRIL 7 ISSUE NOW ON SALE

Cool, clean Old Spice After Shave Lotion always gets you off to a fast, smooth start. Feels just as good between shaves as it does after shaving. Rates A-OK with dates, 1.25 and 2.00 plus tax.

Old Spice AFTER SHAVE LOTION

## FORUM . . .

(Continued from P. 2) to have been published in the Record by John Bell Williams, Democrat from Mississippi, and in numerous other publications such as the Individualist, the Young Republicans would have found no reason for including them in their report.

These quotes were only a small portion of a 13-page report, and the entire report was read and discussed before the Young Republicans passed the resolution opposing NSA.

To arbitrarily state the YR's "seem" to approve this linking; to accuse the YR's of being either "ignorant" or conducting a "smear campaign"; is not logical, is not based on the evidence presented, nor is it emblematic of common decency.

YR Research Committee, Elaine Gibbs Given Showalter Steve Stasny Rich Cowles

## Alumni College Course Includes Science, Music

A new innovation in adult education, an "Alumni College," will be inaugurated this year by the University Alumni Association.

The first Cornhusker Alumni College which will be a two-day educational series is scheduled for June 7-8.

### Gage Gives Speech

Student Council President Steve Gage will discuss the Student Council Monday at a meeting of UNICORNS, the independents living off-campus.

The speech is the first of a series of talks planned by UNICORNS to inform independents living off-campus of campus affairs, according to President Bruce Hoiberg.

The meeting will be held in 345 Union at 7 p.m. Monday.

## Ag Students' Traits Differ

Sophomores at the University Ag Campus differ sharply in personality traits from students at Berkeley and San Francisco State Colleges in California.

By comparison, the University students are less original, less complex, less liberal, less inclined to be intellectual, less socially mature and more authoritarian, according to Dr. Johnathon Warren of the University Counseling Service.

"Social maturity is a measure of the student's tolerance and dependence on routine," said Warren. "Our students also adhere more strongly to orthodox religious beliefs or tend to be less agnostically inclined."

"Students are also less aesthetically inclined (in visual form and relationship tests) and are a more uniform group within themselves."

The aim of the "Alumni College," according to George Bastian, chairman of the planning committee, is to afford University alumni and others interested, an opportunity to be brought up-to-date in several subject-matter areas.

These areas will include music, art, politics, cancer research, investments, architecture, international relations, science, and English grammar.

Fine arts sections of the college will be presented by chairman Linus Burr Smith, professor in the department of architecture; Gail Butt, associate professor of art; and Dr. Thomas Fritz department of music.

Persons interested in obtaining full information or in registering for one or more of the two-day courses, Bastian said, should contact the Alumni Association office.

The sessions will be held at the Nebraska Center for Continuing Education. The registration cost of \$17.50 includes four meals.

## Wildlife Film Seen Today In Library

An Audubon wildlife film, "Tip o' the Mitten" will be shown by its producer, Dr. Olin Sewall Pettingill Jr., in Love Memorial Library auditorium at 4 and 8 p.m. today.

Dr. Pettingill, eminent photographer and naturalist, produced this documentary of nature scientists and their projects

## Campus Calendar

ARENA THEATER production tryouts will be held Tuesday, Wednesday and Thursday, 3 p.m. to 5 p.m. and 7 p.m. to 9 p.m. All University students are invited to try out in 303 Temple Building.

NIA BOOK PROJECT committee will hold a general meeting at 4 p.m. Tuesday in the Episcopal Chapel.

AMERICAN INSTITUTE of Electrical Engineers and Institute of Radio Engineers will meet in 217 Ferguson Hall at 7 p.m. Tuesday.

CONTEMPORARY MUSIC committee will present music by student composers, reviewed with critical comment by Robert Beadell. The public is invited to hear music by Robert Nelson, Dewey Wiens, Allen Epstein, Joyce Johnson, and Walter Ross, last year's Vreeland Award winner. Faculty and students of the Music Department will perform in the Student Union Stereo Room at 8 p.m. on March 5.

TASSEL application blanks for interviews of interested women are on the door of 335 Student Union. Tassels, the sponsors of the Colorado migration next fall, will hold interviews from 9 a.m. to 5 p.m. on April 7.

ASSOCIATION of Medical Technologists will tour the Lyman Hall Bacteriology laboratories at 7:30 p.m. on April 29.

ASSOCIATION of Childhood Educators will meet Tuesday, April 3, at 4:45 p.m. Their program will be "Creativity in the Classroom."

many a knight was spent in rusty armor

In days of yore, men feared not only their mortal enemies, but the elements too. It was the medieval armorer's task to protect his chief against foemen, but weather-protection was a more difficult matter. Thus many a knight was spent in rusty armor.

Engineers and scientists at Ford Motor Company, engaged in both pure and applied research, are coping even today with the problem of body protection (car bodies, that is). Through greater understanding of the chemistry of surfaces, they have developed new paint primers and undercoatings, new rustproofing methods, and special sealers that guard entire car bodies against nature's corrosive forces—all of which add armor-like protection to Ford-built cars.

From other scientific inquiries will undoubtedly come new materials with protective properties vastly superior to those of today. This is another example of Ford's leadership through scientific research and engineering.
