

KE SAYS GOP CAN WIN IN '64

A lot of politicians think JFK will be a shoo-in in '64. Not so, says Eisenhower. But he admits there's plenty of room for improvement in his party. In this week's Post, Ike analyzes the soft spots in the GOP organization. Comments on the prospects of Nixon, Rockefeller and George Romney. And tells why there's no room for right-wing extremists within the GOP.

Council Hopefuls List Ideas

Editor's note: This is the third in a series of articles to assist students in voting by providing them with information about their Student Council candidates. At the same time candidates are given an opportunity to express their views. Today's article treats candidates for representatives from the Colleges of Business Administration.

Business Administration

Gunlicks

Bill Gunlicks, sophomore, feels that the Student Council should "regulate all phases of student government; perform as the main student governing body; and act as a liaison between the faculty and students, student views and pass legislation, on issues, whether local or national, pertaining to the campus."

Gunlicks' platform stresses an increase in the budget because the Council needs to give financial assistance to help new organizations such as CCUN and the People to People program. He also feels that a part-time secretary would greatly increase the efficiency of the office.

and would allow more time for council members to devote to the issues before the council. Other issues are the reduction of the number of Student Council associates; the revision of the committee structure; and the renewal of the Husker Round Table where Council members meet with the administration.

Gunlicks is a present member of Student Council, Business Manager of the Daily Nebraskan, a member of Kosmet Klub, the varsity golf team, and Phi Kappa Psi fraternity.

Hamilton

Harry Hamilton, sophomore, feels that the Student Council should provide active, progressive government for the student body. Although the Student Council must devote the majority of its attention to campus problems, it should also be concerned with public issues. He suggests that the 9,000 University students act as an effective pressure group to let the state legislature, for example, know how we stand on University problems.

His goals as a Council member are: expansion of the associate program, making NSA a topic of interest and investigation despite Council action this year, improvement of the representation system with serious consideration given to the development of a party system on campus.

Hamilton is a member of the IFC Rush Committee, chairman of the Student Union forums committee, a member of the People-to-People brother-sister program, activities chairman and Lincoln rush chairman of Theta Xi fraternity, and an AUF worker.

Johnson

Dennis Johnson, sophomore, feels that the Student Council should create an interest in student affairs, provide a closer relationship between students and the faculty and

help coordinate student affairs.

"Since I would be representing the Business Administration College my efforts would be concentrated in that area. The 'Careers Day' for Business Administration students could also be improved by better attendance, variety and quality of speakers. Issues should be presented, voted upon and determined by the student body more often than they have in past. "The NSA convocation should have resulted in a better turnout if there had been better communication from the Student Council to the student body."

Schapmann

Gerald Schapmann, sophomore, feels that the Student Council should act as a coordinator of the self-governing student body and their activities and as a link between the student and faculty.

Schapmann's goals will be mainly for the benefit of the

Business Administration College. He feels that the Student Council should back the Business Administration's Careers Day more strongly. There should be a stronger affiliation between Biz Ad students and Lincoln businessmen.

Schapmann is a member of Newman Club.

Weill

Richard Weill, sophomore, feels that the Student Council must become a fundamental part of campus life. It is the voice of student opinion. It must speak for the student to the faculty and administration. It must be a sounding board of new ideas, a practical experiment in government.

Weill's platform includes: (1) reorganization of committee structure. (2) Representation should be equalized by an evaluation of organization representation. (3) continuing interest in issues outside the campus on the national and state levels, including a concrete effort to work with administration to persuade the State Legislature to allocate more funds to the University. (4) more contacts with other schools the same size.

Weill is a member of the Intercollegiate Debate squad, People-to-People, Corn Cobs, IFC finance committee and Sigma Alpha Mu fraternity. He is also a member of Phi Eta Sigma and Delta Sigma Rho, both honoraries.

Varsity

ITALY...IT'S THE PLACE WHERE THEY'VE MADE AN ART OF EVERYTHING ESPECIALLY LOVE!!

In Spite of Spring Trips, Love Travels to Campus

In spite of the numerous preparations being made for trips to various spots during vacation, the number of pinings and engagements has increased notably.

Pinings

Bonnie Baily, Gamma Phi Beta junior in Teachers College from Omaha to Bill Murphy, Sigma Chi junior in Business Administration from North Platte.

Nancy Poldge of Burning to Don Pittam, Delta Sigma Pi junior in Business Administration from Kimball.

Karen Leach, Fedde Hall junior in home economics from Ord to Steve Harsh, Alpha Gamma Rho junior in Agriculture from Bartley.

Engagements

Sharon Witt, Gamma Phi Beta junior in Arts and Sciences from Lincoln to Tad Dunham, junior in Business Administration from Lincoln. Sigrid Henderson, Zeta Tau Alpha senior in home economics from Lincoln to Tom Bergam of Lincoln.

Delores Sharples of Lincoln to Larry Gergens, Delta Sigma Pi junior in Business Administration from Humboldt. Joyce Thoman, Fedde Hall sophomore in home economics from Mead to John Svoboda, junior in Agriculture from Mead.

Judi Jancik, freshman in Teachers from Omaha to Dan Stauffer, Alpha Tau Omega sophomore in Engineering from Hastings.

No AWS Court

There will be no AWS Court Friday due to AWS National convention. Court will be scheduled for another day the week following vacation because of Spring Day. The earlier time will be announced in the Daily Nebraskan.

RAM Elections

Max Nall

for
Treasurer

Visit us daily 9:30 to 5:30, Thursdays 10 a.m. to 9 p.m.

Mr. John DePutron, Manager of Miller's Camera Shop presents the J66 to Jerald Goldstrom, Selleck Quadrangle.

our scientists and engineers are in every Ford-built car

In truth, the men at Ford who are engaged in research and engineering have left their marks in the outstanding quality you'll find in every Ford-built car.

Today, the pioneering work of Ford Motor Company scientists and engineers has already given us newer and better rustproofing methods for longer-lasting automobile bodies... better sound insulation... paints that stay newer looking, longer... smoother riding, more comfortable automobiles... better insulation materials for all-weather

driving comfort... many service-saving features that make Ford-built cars last longer, need less care and retain their value better.

From their continuing research will come future Ford-built cars, for example, with automatic control systems for safer, faster driving... new kinds of power plants and energy sources... stronger steels and plastics... new aerodynamic design for greater vehicle control. That's why Ford Motor Company is gaining a position of leadership through scientific research and engineering.
