

HUNGRY GOAT—Pioneers Park animals, such as this young goat, hurry to the fence for a handout of bread from park visitors.

## First Known Pair in Captivity— Pioneers Park Zoo House Rare Trumpeter Swans

The first known pair of rare Trumpeter swans in captivity and the first to be reported in Nebraska since 1890 are among the many animals and fowl that may be seen at the Pioneers Park Zoo, according to James H. Ager, superintendent of the Lincoln City parks.

The Trumpeter swans were given to the zoo in 1957 by the U.S. Fish and Wildlife Service, Ager said. The wildlife service obtained the swans after they were crippled by Nebraska hunters.

Other animals at Pioneers Park include native American buffalos. Buffaloes have inhabited the Lincoln zoo since 1915, Ager said. Along with other large animals, they were moved from the Antelope zoo to the 75-acre Pioneers Park zoo in 1932.

Two rock kangaroos can also be seen at the park. These kangaroos are smaller than the normal kangaroo, Ager explained. One rock kangaroo was obtained in 1958 through trade with the Omaha zoo, and the other was purchased from the Oklahoma City Zoo as an anonymous gift to the park.

### Students Will Tour Telephone Company

A tour of the Lincoln Telephone Company this Thursday will be the final tour of the 1962 summer session.

Highlights of the tour include the data processing center with the latest IBM equipment, the traffic department where long distance and information calls are handled, and the main office switch room.

Interested students and faculty members should sign up for the tour today in the Union Program office. The tour group will walk from the R St. entrance of the Union at 2 p.m. Thursday and will return about 4 p.m.

Other tours sponsored by the Nebraska Union this summer have been to the State Hospital, State Penitentiary and Hallem Plant.

TOO HOT TO YAK—The mountains of Tibet probably beat Nebraska's heat for this yak, the newest addition to the Pioneers Park Zoo.

homa City Zoo as an anonymous gift to the park.

**Angora Goats**  
The Lincoln Humane Society gave two angora goats to the zoo in 1955, Ager said. The goats were found roaming at Lincoln Air Force Base. The goats are a domesticated variety found in Asia Minor. They are believed to have been brought to the base by one of the bomber crews, Ager said.

In 1957 two water buffalo from India and Malay were added to the zoo, Ager said. The Wichita Mountains Wildlife Refuge donated a pair of Texas longhorn steers that same year.

**Argentine Guanacos**  
Three guanacos from Argentina are also housed at Pioneer Park. The guanaco is related to the llama family but is a larger and more graceful animal, Ager said. Guanacos are used as pack animals in South America.

Many species of deer can be seen at the zoo, including the native Nebraskan mule and white tail deer. Other species are the white and spotted fallow, and the Japanese Sika deer.

The park zoo's latest inhabitant is a Yak. The animal has a head similar to a cow and the body of a horse, Ager said.

A duck pond on the main road just inside the park gate is the residing place for mallard, pintail, redhead and wood ducks, as well as some swans and Canadian and white fronted geese, Ager added.

## Summer Bookshelf

The following list of books has been prepared for reading relaxation by the Love Library staff:

**Artificial Earth Satellites**, volumes 1 and 2, edited by L. V. Kurnosova. Originally published in Russian by the Academy of Sciences of the USSR in 1958, this is a collection of reports on the first three Soviet Earth satellite investigations for the International Geophysical Year. The book is partly technical, but also includes information of interest to the lay reader, such as the training of dogs for satellite rides, as well as scientific information gleaned from observations made.

**The Arithmetic of Computers**, Norman A. Crowder. A Tutortext, planned like a teaching machine, this book enables the reader to advance at his own speed as he covers everything from elementary algebra to octal and binary arithmetic to "conversations" with an imaginary computer. This book is recommended for all who would like to learn something about how computers operate, and especially for those who can't comprehend the existence of a fascinating, absorbing book on mathematics, or for whom math is primarily an unsurmountable mystery.

**Tales of the Don**, Mikhail Sholokhov. This latest volume in Sholokhov's Don cycle is a collection of sixteen stories reflecting the violence and drama of the Russian revolution and civil war. The scene is the Don country of which Sholokhov writes so unforgettably.

**A Change of Heart**, Michel Butor. A novel of unusual technique, this is the first of Butor's works to appear in the United States.

He is one of the most outstanding of the "new" writers of France, and this novel of a 24-hour railroad journey has won a large popular audience.

**Voices of the Dawn**, translated by Peter Hyun. This collection of Korean poetry is a remarkably fine one, and contains poems from the sixth century to the present. A lengthy introduction by the translator gives the historical background for the collection. Each poem is introduced briefly with a biographical sketch of the poet.

**The Soviet Economy: an Introduction**, Alec Nové. A British specialist offers a non-technical, unbiased and lucid overall view of the Soviet economy for the interested layman. The book contains appended information on Soviet statistics and additional readings.

**Educational Television**, the Next Ten Years, Stanford University Institute for Communications Research. Papers, reports, and testimonies of authorities in communications and educational media are brought together to forecast for educators, television and interested persons the future problems and potentialities of instructional television in the school and community.

# Professors Represent NU Abroad

## Arts and Sciences Leads in Foreign Representation

The College of Arts and Sciences with ten professors abroad on official missions for the summer leads the colleges within the University in foreign representation.

Dr. Duard W. Laging, professor of Art, has been in Europe the past year. He is studying art and its history. He will be returning for September closes.

Dr. Louis Crompton, assistant professor of English, will be back in September from London where he has been doing research during the past semester and into the summer.

### Campus Visitor Solos in Recital

Miss Jean Sloop, visiting instructor of voice and director of the summer chorus at the University of Nebraska, will be the featured soloist in a Faculty Recital tomorrow at 7:30 p.m. in the Nebraska Union ballroom.

Miss Sloop is an instructor of choral voice at Kansas State. She has been a faculty member there since 1959.

She will be accompanied by Prof. Harvey Hinshaw, piano, and Prof. Arnold Schatz, violin.

The Faculty Recital program includes: "Se L'aura Spira" by Frescobaldi; "Zefiretti Lusingheri" from "Idomeneo" by Mozart; "Nachtviolen" by Schubert; "Auf dem Wasser zu Singen" by Schubert; "Frühlingsglaube" by Schubert; "Die Junge Nonne" by Schubert.

"Poeme de l'amour et de l'admiration" by Chausson, including "La fleur des eaux," "Interlude" (piano), "La Mort de l'amour," "Epilogue," "Along the Field," "Eight Housman Songs for Voice and Violin" by Vaughan Williams, including "We'll Go to the Woods No More," "Along the Field," "The Half-Moon Westers Low," "In the Morning," "The Sign that Heaves the Grasses," "Good-bye," "Fancy's Kneel," and "With Rue My Heart is Laden."

## University Theater Presents Plays by NU Professor

Three one-act plays by a University of Nebraska professor will be presented by University students and Lincoln residents next Tuesday and Wednesday, July 31 and Aug. 1.

The plays were written by Dr. Joseph Baldwin, associate professor of the speech and dramatic arts department, and will be directed by students in his class of experimental theater production.

The first play, *Engine 4960*, will be shown on closed-circuit television at 7:30 p.m., room 103 Temple Building. Following a ten-minute intermission between performances, the second play, *An Executive*

### Nickelodian Program Shows Silent Movies

Something new in the summer film program will be an old fashion "Nickelodian" showing from 4-9 p.m. in the Nebraska Union auditorium Monday, July 30.

Famous personalities such as Charlie Chaplin, Laurel and Hardy, and Mack Sennett will be featured on the screen in their old original silent movies. Movies such as "Fun Factory," "Police," and "Double Whoopee" will be shown continuously from 4 p.m.

Admission is one nickel, and customers may stay as long as they wish. Enter the theater through the South Party Room, where popcorn and other refreshments will be sold.

NORTH 27TH ST.

Garner spent the past year in Europe. He has been living in Aberystwyth, Wales, where he has been researching 17th century poetry.

Dr. John Robinson, assistant professor of English, is in London for the summer and Professor Norman H. Cromwell of the Chemistry department is in Russia on business.

Dr. James C. Olson, professor of history, is in Mexico City for the summer.

Language Professors  
Two professors from the Romance languages department are abroad. Dr. Reino Virtanen is in Paris studying 19th century prose, and Dr. Roberto Esquenazi is studying in Italy, France and at Oxford.

Dr. Donald M. Pace, professor of physiology, is in Moscow attending the 8th International Cancer Congress.

### Teachers Present Play in Spanish

Participants in the Summer Language Institute for high school teachers will present a Spanish play Friday at 7 p.m. in the Nebraska Union ballroom.

The one-act play, *Rosina Es Frágil*, is by Martinez Sierra, one of the well-known playwrights of early 20th Century Spain, according to Miss Olive J. Lee of Rapid City, S. Dak., director.

The public is invited to attend the play, which will be given in Spanish. Scripts will be used due to limitations on the time of Institute participants, Miss Lee said.

Assistant director of the play is Benedict F. Torrez of Kanopolis, Kan. The cast includes Clair M. Martinez, East Vaughn, N.M.; Don Perez, Denver, Colo.; Miss Janette Swanson, Ainsworth; Miss Lela Wolfe, Elko.

John A. Hernandez, Sabetha, Kan.; Alfred O. Valenzuela, Artesia, N.M.; and Miss Mary Ann Martin, Englewood, Colo. Mrs. Hilda M. Birnbach of Puerto Rico is faculty sponsor.

He will return to the states August 14 after visiting some of the laboratories in Munich. Dr. Pace is director of the Institute for Cellular Research.

Dr. Carl E. Georgi, a professor of Microbiology, is attending conferences in Europe. While abroad he and his family participated in the July 21 wedding of his daughter in Denmark.

### Teachers College

Dr. Walter K. Beggs, dean of Teachers College, is in Germany as guest of the German Bonn Government. He is examining teacher education programs, in both elementary and secondary education in the schools of West Germany and is to make a report of his observations to that government.

Dr. Beggs is scheduled to speak at a conference of the International Teacher Education Association in Stockholm, Sweden, before returning home.

Dr. Galen Saylor and his family will reside in Jyväskylä, Finland, during the next school term. They will leave August 3 immediately after summer session. He will be a Fulbright instructor in the Institute of Education there.

Professor Arthur J. Vennix, Nebraska College of Law librarian at the University of Nebraska, has a two years' leave, and went this month to help set up the law library at the University of Ataturk in Turkey.

### Agriculture College

Five professors from the College of Agriculture are abroad in various official capacities. Dr. E. F. Frolik, dean of the College of Agriculture, was in Turkey to attend commencement exercises at the University of Ataturk with which the University of Nebraska works so closely. With him for the event were Dr. F. E. Eldridge, director of resident in-

struction, and J. S. Webster, coordinator of the Turkish program on the University of Nebraska campus.

Urban E. Wendorff, associate professor of Agricultural Engineering and vocational education, is an official delegate to the International Conference on Adult Education at Rendsberg, Germany. He will leave for Germany tomorrow and will devote ten days to visiting residential adult education schools in adjoining countries.

Professor Lester F. Larsen in the tractor testing laboratory, will be visiting tractor testing stations in Germany, Sweden, Holland and France. He will spend time at the National Institute of Agricultural Engineering at Silsoe, England, and observe their tractor testing methods.

Larsen said "Officials from various tractor testing agencies in Europe have been here to see our system at Nebraska, and it is my privilege now to go over and confer with them. Several of the men from our department have been over to visit the European facilities, but this is my first trip for this purpose."

Larsen's family went to England as soon as school was out, as they have a son in the Air Force near Oxford. The Larsens plan to rent a car and see some of Europe.

Dr. Donald T. Waggener, College of Dentistry, is presenting a paper at the 8th International Cancer Congress in Moscow. He is a professor and chairman of the department of pathology. He is also delivering a paper in Holland at the meeting of the American Dental Association of Europe.

### Summer Nebraskan

The Summer Nebraskan is the official publication of the University of Nebraska Summer Sessions and is published under the sponsorship of the School of Journalism. The newspaper is published every Tuesday during the Summer Sessions except on holidays and exam periods.
