

Rodenhiser Gives Farmers Credit

By BOB RAY
Ag News Editor

The University has helped the nation's farmers, as well as Nebraska's farmers, with ideas for year-to-year farming improvements worth \$13 billion dollars a year, according to Dr. H. A. Rodenhiser in a speech here.

Dr. Rodenhiser, acting deputy administrator of the USA's agricultural research service, spoke before several hundred farmers, teachers, ag researchers, and their wives at the USDA centennial dinner in the Nebraska Center last week.

"A man must spend time working to feed and clothe his family," said Rodenhiser.

"Until that is done, he has no time for any other pursuit."

"It is to the everlasting credit of the nation's farmers that they have released almost 90% of the country's labor force for these other pursuits," he said.

Urban Development

The American farmer has made possible our urban development in space, medicine, chemistry, electronics, and other fields, said Rodenhiser, because the farmer has taken the city dweller's food problem and solved it for him.

But in solving the problem of where the urbanite's next meal is coming from, the farmer has created at least three problems of his own, said the ag research expert.

"Farmers have problems in keeping their costs down, in disease and weather control, and in marketing their products," Rodenhiser said.

In the field of costs, Rodenhiser cited work being done in California on water-proofing the soil so as to provide erosion-free run-off into irrigation and urban-use reservoirs.

Disease Control

On disease control he mentioned the problems of chemical residues on fruit. "Consumers won't buy untreated fruit, because it is usually smaller," said Rodenhiser. "On the other hand," he added, "there is a danger of treated fruit being poisonous."

The problem may be solved, said Rodenhiser, by researchers working with biological controls such as species-specific predators for pests and diseases for the disease, which would keep the fruit nontoxic to warm-blooded animals.

Concerning weather control Rodenhiser said, "How exciting it is to speculate that man may someday control the entire life cycle of plants by adjusting the amount of light reaching the photochrome!—the substance regulating plant growth from seed through flowering."

In relation to markets, he said that Nebraska's researchers, who already have made possible the introduction of hybrid wheat, are also taking great strides in finding new industrial uses for ag products, and developing tastes for food uses in new parts of the world.

SEATON

Seaton Points To Mediocrity

Fred Seaton, Republican candidate for Governor, admitted to the University Young Republicans Thursday night that any attempt to better the University of Nebraska would cost money, but he added, "It will cost far more to worship at the shrine of mediocrity. Nobody gets rich that way."

Seaton promised the group a dynamic personal campaign on his part to attract new industry to Nebraska. He pointed out that due to his service at the national level of government, he can call many of the top businessmen in the country by their first names.

He charged Governor Frank Morrison, without mentioning him by name, of shunning the support of the Kennedy administration, pointing to specific instances of Secretary of Agriculture Freeman's canceled visit to Nebraska and the fact that Morrison was not at the airport to greet Vice-President Johnson Thursday.

Seaton will return to the campus on October 29 for an appearance on the same platform with Morrison in what has been described as a "great debate."

Theatre Tryouts Beginning Today

All University try-outs for the play "The Visit" by Friedrich Duerrenmatt have been announced by Dr. Wm. R. Morgan, director of the University theater.

"These workshops are open to anyone on campus, not just dramatics majors," said Morgan.

The try-outs will be today, Tuesday and Wednesday from 7-10 p.m. in 201 Temple Building.

According to Morgan, the play was a startling European and New York success. The University Theatre will perform this play for the public Dec. 12, 13 and 14.

Ashidas Describe Zen Buddhism

Mr. and Mrs. Sacho Ashida spoke Thursday on "Zen Buddhism" at the first "Dinner with the Prof" series sponsored by the Union forums committee.

Ashida, Judo Club instructor, told the group of the lessons involved in becoming a good Zen Buddhist.

He said that one sits on a pillow in an empty room and contemplates nothing. After a few months he added that it was possible to "think nothing."

The Judo expert said that it was also important to "know yourself and the nature of society." You relate yourself to society and need not have to have a given criteria for being a good human being because you establish this criteria for yourself.

All NU Food Handlers To Attend Institute Session on Sanitation

By acquainting all personnel handling food with the fundamentals of good food sanitation, the Food Handlers Institute hopes to prevent illness and disease said E. W. Simpson, public health engineer.

Afternoon sessions will be held tomorrow Wednesday and Thursday at 2:30 p.m. for the convenience of housemothers, cooks and full time employees, but it is open to all persons if it is more convenient.

The sessions will be held at the Student Union auditorium tomorrow and Wednesday and at the Nebraska Center on Thursday.

Simpson said that evening session at 7:15 p.m. Wednesday and Thursday which will

be primarily for bus-boys and other part-time personnel is also open to all persons.

He explained that all cooks, bus-boys, waiters, waitresses, dishwashers, housemothers and others involved in the handling or preparation of food who did not attend the

institute in 1960 or 1961 must attend one of the sessions.

This includes all of the above whether employed by the University, a fraternity, sorority or cooperative.

Simpson said that all full-time employees who are not students must attend the Institute and get a chest x-ray which costs 75 cents.

All food handlers permits must be renewed yearly and one of the requisites for getting a valid permit is to attend one of the institutes.

Full time University students need attend only the institute to qualify for the permit to qualify for the current year. Simpson added that they must have the permit in order to work at all University places and organized living units.

1,500 Fans Rally

Despite a threatening weather, an estimated 1500 spirited Husker fans joined in the Rally Friday.

Wes Grady, Corn Cob president announced the ten Homecoming Queen finalists and quarterback, Dennis Claridge gave a short talk reminding fans that Kansas State has a better team than most people realize.

Prof. Jorgensen Delivers Speech At PBK Dinner

Dr. Theodore Jorgensen Jr., University physics professor, said that there are unlimited uses for nuclear power which must be developed, a main one being the production of energy.

In an address to the University Phi Beta Kappa chapter he pointed out the dangers of nuclear weapons. He explained the tremendous pressure created, the high temperatures and the fallout possibilities.

Fallout consists of two phases said the professor, that of early fallout which contains fission fragments and which decreases in danger with time, and the delayed fallout which consists of rare gases that decay into the substances which will continue to fall for months and years.

Jorgensen then compared the amount of money spent on destructive purposes to the amount spent on studies toward peace.

NEBRASKAN WANT ADS

POLICY
Classified ads must be entered two days in advance and must be paid for in advance at the Daily Nebraskan Office, Rm. 51, Nebraska Union. Corrections will be made if errors are brought to our attention within 48 hours.

PERSONAL
If there are any Chi Phi's on the University Campus or in the Lincoln vicinity please call the Inter-Fraternity Council Office, HE 2-7631.

FOR SALE
Use the Rag's Want Ads—they're inexpensive and effective. . . .
'57 M.G.A. sharp, wire wheels. \$300 '00' St. after 6:00 p.m.

WANTED
1957 Plymouth \$353. Call Decker at 477-6929, 6:30-7:30 p.m. weekdays.

HELP WANTED
Real part-time job. Car necessary. Call 434-0264 evenings.

ATTENTION BUSBOYS
Free-lance busboy will substitute for anyone, anytime, anywhere. Two years experience. Tom Klines, Ph. 477-4223.

LOST AND FOUND
Black shoulder purse. Finder please call Bonnie Hoffman, 432-1207.

DANCE BANDS
For the finest in dancing, N. U.'s own nationally known collegiate band, JIM FERRIERI ORCHESTRA—features the "Varsity 5"—chosen in 1960 at Notre Dame as one of the top 30 in the nation! Phone 435-2021.

SPECTACULAR OPPORTUNITIES
Air transportation anywhere via airplane of your choice. Youth fares (half-price) on round trips to all points served by Frontier Airlines. For information or reservations contact Ed Connerly, 477-9511, 1548 S St.

WHY WAIT FOR HIGHER WAGES?
Join my growing organization now. I teach you swimming, fishing, trap dancing, and weight lifting all at once. Plenty of laughs, plus hospital benefits.

Campus Calendar

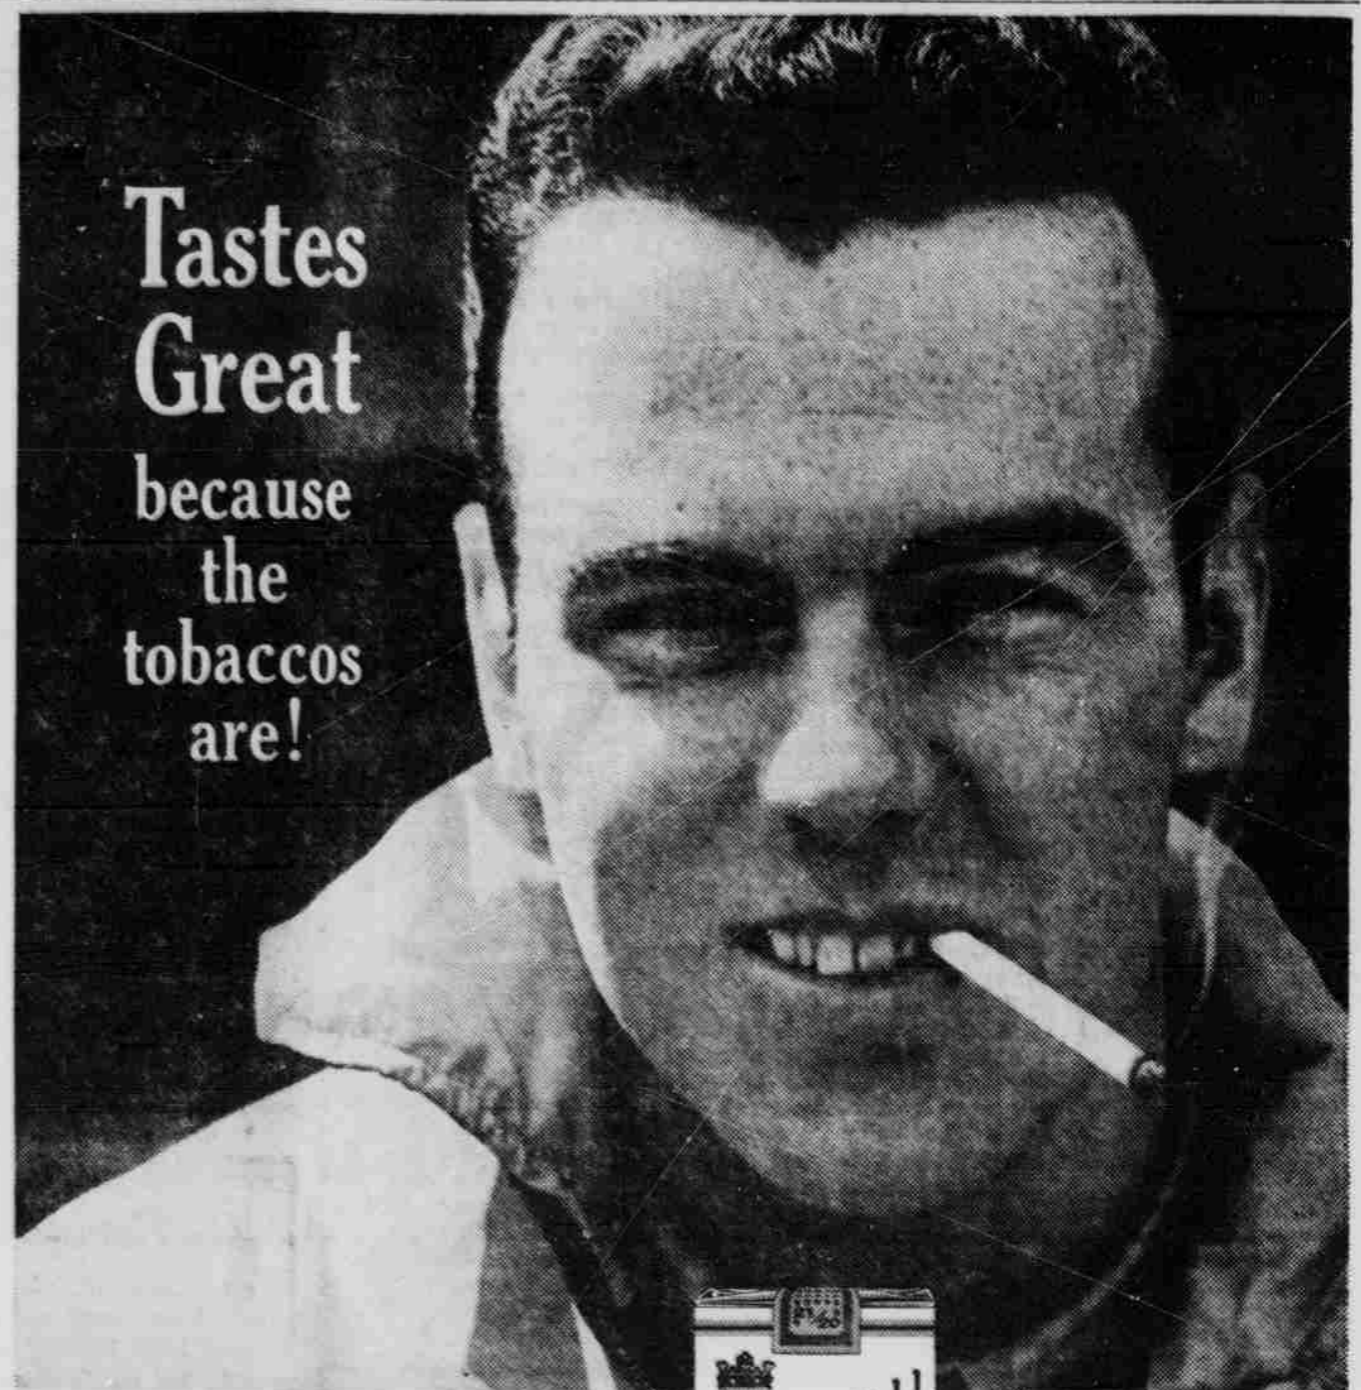

- TODAY**
IWA workers mass meeting, 5 p.m., Lutheran Student House.
UNICORN meeting 7 p.m., 334 Student Union.
AWS workers meeting, 4 p.m., Student Union.
- TOMORROW**
ACE meeting, 4 p.m., 200 Teachers College.
SIGMA XI meeting, 7:30 p.m., Bessey Hall.
AQUAQUETTES practice, 7 p.m. in Coliseum.

Deltas Are Hosts For 25 Orphans

Twenty-five orphans from the Omaha School for Boys were the guests of a University fraternity last week-end. Delta Tau Delta sponsored the trip from Omaha for the boys and then escorted them to the Nebraska-Kansas State football game.

The boys, ranging in age from nine to 13, returned to the Delta Tau Delta house after the game for supper.

Tastes Great because the tobaccos are!

21 Great Tobaccos make 20 Wonderful Smokes!
CHESTERFIELD KING tastes great, smokes mild. You get 21 vintage tobaccos grown mild, aged mild and blended mild, and made to taste even milder through its longer length.

CHESTERFIELD KING

Tobaccos too mild to filter, pleasure too good to miss!

ORDINARY CIGARETTES
CHESTERFIELD KING
Longer length means milder taste
The smoke of a Chesterfield King mellows and softens as it flows through longer length... becomes smooth and gentle to your taste.

Yell Contest

Sponsored by Corn Cobs
\$100—1st Prize
\$50—2nd Prize

Donated by Lincoln Promotion Council
Winner Announced in Daily Nebraskan October 26

YELL CONTEST
Yell
Your Name (Last) (First) (Middle)
Address Phone
Deadline Thursday, October 25
Yell will be chosen on the basis of originality and appropriateness
