

NSF Gives Its Awards Next March

Foundation Offers Grad Fellowships

Approximately 3,000 graduate fellowships and 165 post-doctoral fellowships will be awarded by the National Science Foundation (NSF) next March.

The fellowships will be awarded to college seniors, graduate and post-doctoral students and others with equivalent training or experience in the fields of mathematical, physical, medical, biological and engineering sciences; also in anthropology, psychology, geography, economics, sociology and the history and philosophy of science.

All applicants must be citizens of the United States and will be judged solely on ability. Candidates for the graduate awards will be required to take the Graduate Record Examinations designed to test scientific aptitude which will be given Jan. 19, 1963.

Stipends for graduate Fellows are \$1,800 for first level, \$200 for intermediate level, and \$2,200 for terminal level. Annual stipend for post-doctoral Fellows is \$5,000. Limited allowances will be given for tuition, laboratory fees, and travel.

The national Academy of Sciences-National Research Council will advise NSF in the selection of candidates. Committees of outstanding scientists will evaluate all applications. Final selections will be announced Mar. 15, 1963.

Students may write to Fellowship Office, National Academy of Sciences-National Research Council, 2101 Constitution Avenue, N. W., Washington 25, D. C. for further information and application materials. Deadline for applications is Dec. 17 for post-doctoral fellowships and Jan. 4 for graduate fellowships.

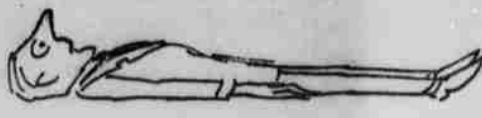

THE FIRST CANDIDATE TOLD ME THE MOST IMPORTANT ISSUE WAS PUTTING A STOP TO WESTERN RETREAT IN THE COLD WAR. THE SECOND CANDIDATE TOLD ME THE MOST IMPORTANT ISSUE WAS TIGHTENING OUR STANCE AGAINST RUSSIA.

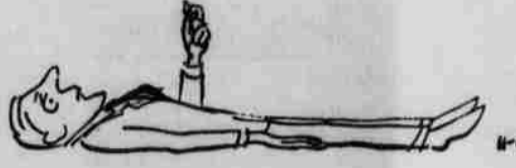

BOTH CANDIDATES TOLD ME THAT A TWO PARTY SYSTEM WAS THE KEYSTONE OF A DEMOCRACY AND NO MATTER WHICH ONE OF THEM I AGREED WITH IT WAS MY DUTY TO VOTE.

THE FIRST CANDIDATE TOLD ME WE HAD TO CONTINUE NUCLEAR TESTING UNTIL WE REACHED A POOL PROOF AGREEMENT. THE SECOND CANDIDATE TOLD ME WE HAD TO INCREASE OUR ARMS BUDGET AS LONG AS NEGOTIATIONS REMAINED FRUITLESS.

SO I TOSSED A COIN.

THE FIRST CANDIDATE TOLD ME THAT IT WAS TIME WE STOPPED RESPECTING INTERNATIONAL AGREEMENTS THAT BLINKED AT COMMUNIST SUBVERSION. THE SECOND CANDIDATE TOLD ME THAT WE HAD TO MANAGE OUR OWN RESPONSIBILITIES ON THE U.N.

IT'S MY DUTY TO PROTECT DEMOCRACY.

NSF Gives NU 3-Year Grant

The University is receiving a three year grant of \$24,900 from the National Science Foundation for research in the study of parasites of fish.

Professor Harold W. Manton and Research Associate Mary H. Pritchard, both of the department of zoology and physiology, will use the grant to study trematodes of fish, particularly in the areas of South Africa and Australia.

The project will involve basic research in classifying the parasites and learning their general geographic distribution.

Students Help Zoo

Members of the Delta Sigma Pi pledge class will conduct a work project Saturday at the Children's Zoo. They will assist Zoo officials in laying a miniature railroad system that will be in operation this spring.

Panhell Discusses Sneaks

Panhellenic set up a committee Monday night to study the present rules of pledge sneaks and bring them up to date.

At Panhellenic Week workshops the possibility of out-of-town sneaks was discussed. At the Panhellenic meeting, Helen Snyder, Dean of Women said that sororities should consider the time element, expense, and the problem of all pledge classes going to other universities.

It was decided at the workshops that sorority-fraternity "steals" should be retained with a one, or two a year limit. This subject has also

been referred to a committee which will discuss the situation with the Interfraternity Council (IFC).

At 7 p.m. tonight Panhellenic delegates will meet with members of the Independent Women's Association (IWA) board to discuss the problems existing between Greek and Independent relationships.

Engineers Meet Monday in Union

Students in the College of Engineering are invited to meet with their three Student Council representatives at 5 p.m. Monday in the Council office in the Student Union.

Bob Seidell, Jim Hanson and Dale Redman will discuss problems or issues the students would like to see brought up before Student Council. Redman said that if sufficient interest is shown there will be regularly scheduled meetings.

Course Applications Reach Record Total

During July, August and September, enrollment for high school correspondence courses from the University totalled 4,821, as compared to 4,002 during the same period last year.

The sale of syllabi pamphlets explaining courses, increased from 7,055 during this period in 1961 to an estimated 7,400 this year.

Campus Calendar

TODAY
AMERICAN CHEMICAL SOCIETY meeting, Avery Laboratory. Dr. Warren Brandt will speak on "Charge Transfer Transitions."

EAGLE SHIRTMAKERS PROUDLY ANNOUNCES A DACRON/COTTON OXFORD THAT WILL NOT PILL!

OH, given time a short-necked man with a heavy beard could pill any oxford cloth, they're that soft. But until just recently even Little Lord Fauntleroy could have pilled a DACRON/cotton oxford cloth shirt with one curl tied behind him. Which is why we didn't put out any of them. ★ Sure you know what pilled means; it's when the fabric gets roughed up into little pills. ★ Well, Du Pont has a brand new type DACRON that resists pilling. It came out about a year ago, but we waited until Greenwood Mills, the weavers who make our cotton oxfords produced a DACRON/cotton oxford they were proud of; a really luxuriant lofted oxford. And that brings us up to now. We are making Eagle Shirts of this new material in both a Tabsnap® collar and a button-down collar. At about \$8.50.

★ Tabsnaps, you may recall, are Eagle tab collars that need no collar buttons. Our button-down collars also have a property highly prized by the toney cognoscenti**: a sort of sloppy bulge. We used to call this "flare" until we noticed everybody else was too. Besides, it really isn't a flare, it's a sloppy bulge, but it's ours and we like it. ★ So if you want a drip-dry oxford shirt that won't pill perhaps you'd better drop a note to Miss Afferbach (she says forget the footnote) and ask her where in your town you can find Eagle Shirts. This is because many fine stores prefer to put their own labels in our shirts; very flattering, but tough on Eagle eyed shoppers. Write her care of Eagle Shirtmakers, Quakertown, Pa.

*Du Pont's trademark for its polyester fiber. **That wouldn't be a bad name for an Italian fashion consultant. Say, do you suppose we could get Miss Afferbach to change her name to Toni Cognoscenti and

exciting diamond solitaires...

great diamond values from Zale's!

no money down • monthly terms

Zale's... world's largest diamond jewelers... presents this new, exquisite line of diamond solitaires... unsurpassed in color, clarity, and cut. Award-winning, exclusive Zale designs... at Zale everyday low prices!
