## University Asks Budget Increase

### \$8.9 Million Requested; Indicates 31.7% Increase

### —'Intellectual Growth'— Ross, Shugrue Say Self Discipline Role Is Vital to Students

By KAREN GUNLICKS  
Nebraskan Staff Writer

The importance of self discipline on the part of the student was stressed at yesterday's open discussion with G. Robert Ross, dean of Student Affairs and Dr. Mike Shugrue, assistant to the Chancellor.

ferred to the Tribunal, he said.

The sub rosa alumni, who are very influential in initiating and maintaining these organizations, must be dealt with in an educated manner by informing, discussing and teaching, the administrators agreed.

They both stated that the prime role of the University is to establish a climate of intellectual growth and freedom through self discipline, and to aid the student in learning in a direct and supplemental way. The University tries to encourage mature self discipline, said Dr. Shugrue.

They indicated that 30 years ago the sub rosa groups were recognized as student organizations and that the alumni didn't understand their changed position today.

Ross commented that the prime purpose of Student Affairs is not to offer protection to the students from themselves or others.

Shugrue proposed that no number of alumni, rich or poor, could make inroads into the University if the student body doesn't allow them to. "It's the students who can reject the alumni's attempts," he stated.

It is the responsibility of the administration, according to Shugrue, to free the University from disruption, make it a place of learning and know the problems and needs of the students.

The speakers said that the sub rosas were harmful to the University in that they create an atmosphere of violating the integrity, honesty and trust of their members' associates. The fact that they are secret is of great concern to many, said Ross.

The objective of Student Affairs when a student gets into trouble is to give each case as much individual analysis and attention as possible so that the student can learn from the experience, said Ross.

Recognizing that sufficient information about the position of the University on this matter is not available, a statement is being prepared on University policy and will be issued next week, said Shugrue.

#### Quick Education

Concerning sub rosas, Ross indicated that he first learned of them after coming to the University. He had never had any experience at any other university where sub rosas exist. "It has been a quick education for me," he quipped.

He said that it was an established policy, before he came, to deal with students who are found to be associated with or are members of these organizations to eliminate them from the campus for a period of time.

"There is no quick solution to this problem," stated Ross. The avenues that he proposed to explore were to educate alumni or to assume that the groups may have a plausible purpose, and if they don't, to get one. If this assumption were made, then it could also be assumed that they could function as recognized organizations.

Ross said that his office gets the names of sub rosa members generally from reports or complaints of others (i.e. groups of students and the campus police). He said they get additional information, but not necessarily names, from the ones who are interviewed.

Ross said that the Student Affairs office will not release the names of students who have been suspended, but will release only that there has been a student suspended.

Some things that Student Affairs suspects about the group may or may not be true, suggested Ross. "Many things are based on hearsay or conjecture," he added.

Administration views names as confidential, and believes that there is no purpose in releasing the names, said Ross.

If any information comes in on the membership of a student, and proof has not directly been established, the dean questions the student and if the evidence seems sufficient enough to question its veracity, it will go to the Tribunal, explained Ross.

"It is a protection of your rights," said Shugrue. He continued that the matter of questioning is done in private so that if the accused is not guilty, he will not have been harmed.

#### Sought Reports

Ross said that the administration has not sought reports on any member, and that they don't intend to. "As information is gathered, we will act on it," he stated.

In response to a question about what action, if any, would be taken against a student who was a member of a sub rosa but isn't now, Ross said that it would be hard to determine when he had started and ended affiliation. "Fortunately we have not had to deal with it," he said.

In answer to a question on what role the Student Tribunal has and will play in the sub rosa problem, Ross said that the Tribunal was issued a letter Tuesday indicating that each case so far the student had admitted his affiliation and once membership was established there was no reason for the Tribunal to hear and discuss the case. If there are any cases in which membership is questioned they might be re-

Ross said, in another area of the discussion, that the University policy on drinking is established and has not been changed. "We are constantly looking at it, and will continue to use it," he said. The state law and University regulation prohibit minors drinking, he reminded. "Those who can legally do it can make their own choices as to when and how much," he continued.

He said that groups make other problems and University policy is followed in dealing with them.

NATIONAL ACCLAMATION—Joyce Burns, University coed, was cited in the Nov. 11 edition of Sports Illustrated, a national sports magazine, as being "the whirling highlight of the halftime shows at Cornhusker football games." Miss Burns has won over 400 twirling trophies, including one of the top international prizes at the Seattle World's Fair.

### —Myers Will Go to 'Stocks'— AUFul Night Features Queen, Mr. Ugly, Twist

The Activities Queen, the "Ugliest" Man on Campus, fun-time carnival booths and twisting to the Sig Ep combo spell out the ingredients of the All University Fund's "AUFul" Night. "AUFul" Night begins at 7:30 p.m. tomorrow night in the Student Union.

something really worthwhile," said Myers.

Funds collected during the evening will go to the six charities selected in an all-campus poll. The charities are: University of Nebraska Speech and Hearing Clinic, American Cancer Society, LARC School, Nebraska Heart Association, World University Service, and the Multiple Sclerosis Society.

At mid-evening the five finalists for Activities Queen will be presented and the 1962 Queen revealed. The finalists are: Joan Skinner, Jo-

Tickets are on sale today in the Student Union. Price of admission is 50 cents, and admission at the door is the same.

#### AUF Solicitors

Solicitors for All University Fund (AUF) drive will visit Lincoln students' homes this Sunday to collect money for the charities chosen by University students.

Selleck will have a "Shave the Balloon Contest," and "a booth where you pay money to pound on an old car with a sledge hammer," according to a Selleck official.

#### Protection

Ann Strateman, Susan Walburn, Lynette Loescher, and Bonnie Knudsen.

"Mr. AUFul-Ugly" will be chosen at the special event planned to give more impetus to the student drive for funds which lasts through Nov. 19.

During the evening, Mr. AUFul Ugly candidates will campaign for the title. Each organized house is allowed a specified number of candidates to vie for the title.

#### Dogpatch Nominees Announced

There will be 13 candidates for "Mr. AUFul Ugly." Disaster will strike AUF president Roger Myers when a total of \$500 has been raised—Myers will be escorted to the "stocks" by policemen.

Students who attend the Sadie Hawkins Day Dance Nov. 16 will vote for one of the following nominees for Miss Sadie Hawkins and L'il Abner:

Carolyn Perkins, Piper Hall; Del Rae Beermann, Chi Omega; Joan Skinner, Alpha Chi Omega; Christy Olson, Alpha Omicron Pi; and Jean Groteleschen, Burr East.

#### Colonel Yeager To Attend Meet

Col. Charles E. Yeager, the first man to fly faster than sound, will head a team of four Air Force specialists as part of the annual Lincoln Area Aerospace Science Clinic next week.

Yeager will attend an Arnold Air Society meeting at the Tuesday night, where he will receive the first honorary membership into the University chapter of Angel Flight.

Dave Geisler, FarnHouse; Jack Zable, Alpha Gamma Rho; Don Benson, Ag Men Club; Jerry Lindvall, Alpha Gamma Sigma; Lee Grove, Burr West.

According to Jay Graf, president of Ag Union, the nominees will meet at 5 p.m. in the Ag Union Dell today to have their pictures taken.

A free movie, "L'il Abner" will be shown in the Ag Union lounge at 7 p.m. Nov. 14 and 15.

The Sadie Hawkins Day Dance will be held in the Ag Union Auditorium from 8:30 to 11:30 p.m. Nov. 16. Tickets cost \$1.50 a couple, Graf said.

By GARY LACEY  
Nebraskan Staff Writer

A new University budget requesting an additional \$8,895,987 is now in the hands of State Tax Commissioner Forrest Johnson.

The proposed budget for the 1963-65 biennium asks \$36,991,987 from the state general fund, compared with the \$28,096,000 appropriated by the 1961 legislature. The request represents a 31.7 per cent increase.

Of the \$8.9 million increase, \$5.6 million is requested for maintaining the present programs and \$3.3 million is

asked for growth and development projects.

The proposal, explained by Chancellor Clifford Hardin, reflects:

- increased needs for higher salaries to meet regional competition.
- strengthening of programs at the College of Medicine and University Hospital in Omaha.
- growth and development to meet the increased demands by the public in teaching, research, and public service areas.
- increased maintenance costs of the facilities, such as

expenses for heating and supplies.

#### Hospital Trouble

Dr. Roy Holly, dean of the Graduate School said that the University Hospital is in "serious trouble."

Holly said that the hospital has about 145 beds while the average in other schools is 400. He said he was worried about the hospital's accreditation as well as the accreditation of the College of Medicine.

Of the total budget increase, 69.2 per cent will go to the following four areas: College of Agriculture, \$2,250,365; College of Arts and Sciences, \$1,394,919; College of Medicine in Omaha, \$2,177,065; and the Division of Buildings and Grounds, \$947,542.

The College of Arts and Sciences is the principal teaching arm of the University, with the responsibility of instructing 61 per cent of the total credit hours among the five undergraduate colleges, said Hardin.

In discussing higher salaries, Hardin said that the overall salary hikes, on a merit basis only, would average 12.3 per cent the first year of the biennium and an additional 3.3 per cent the second year.

He said the proposed faculty salaries would place the University at about the midpoint among comparable institutions.

Along with national enrollments, it is anticipated that the University's enrollments may double in the next ten years, Hardin said.

During the present biennium, the University recorded a 733 student increase in the first semester of '61 and an additional 954 student increase in the fall of '62.

It is imperative, he continued, that Nebraska make every effort in the face of these increasing numbers to hold its present staff and employ new staff members in the next two years.

Adding to the problem of attracting qualified faculty is the fact that in some states many new colleges and universities are being constructed, he said. California is spending \$100,000,000 annually for the construction of new institutions of higher learning.

#### Must Act Now

"To staff these schools, these states will look to existing schools across the country for their faculty members. If we want to assure our Nebraska children a high quality education in the future, we must take steps now to attract and hold competent educators," Dr. Hardin said.

He stressed the extreme care and thorough study that the members of the Board of Regents exercised in the preparation of the budget.

As a result of their reviewing of the recommended programs, Hardin said, the Board decided to postpone growth and development programs totaling more than \$5 million.

The total budget will come to \$47,083,905 for the coming biennium, with \$36,991,987 coming from the state general fund. The additional \$10,091,918 comes from tuition, University hospital income, federal funds and many smaller funds.

Not in conjunction with the budget, Dr. Hardin said that the Regents planned to discuss an increase in the 1.1 University building levy. They may introduce a bill in the legislature calling for an increase in the levy, he said.

#### 'Nightmare in Red' Premieres Tuesday

A free documentary film, "Nightmare in Red" will be shown 11:50 a.m. and 4:50 p.m. Tuesday in the Ag Union Lounge.

This film is the first authentic reconstruction of the drama of Communism inside Russia. It covers the old Czarist order, the revolutions of 1905 and 1917, the Provisional Government, the early days of the Communist Era, the Purge Trials, World War II, and the uncertain present.

### 13 Officials To Attend Convention

Land Grant Meet To Begin Monday

Thirteen University officials will attend the 76th annual meeting of the Association of State Universities and Land-Grant Colleges in Washington, D.C., which begins Monday.

Attending are Chancellor Clifford Hardin, Roy Holly, Dean of the Graduate School; E. F. Frolik, Dean of the College of Agriculture; Dr. Franklin E. Eldridge, director of resident instruction.

Edward Janike, director of agricultural extension service; Mrs. Hazel Fox, acting director of home economics; George Young, professor of veterinary science; Dr. Knute Broady, director of University extension division and the Nebraska Center for Continuing Education.

Walter K. Beggs, Dean of Teachers College; Walter E. Miltzer, Dean of College of Arts and Sciences; Merck Hobson, Dean of the College of Engineering and Architecture; Charles S. Miller, Dean of College of Business Administration; and George Round, chairman of department of information.

Dean Miltzer is chairman of the Division of Arts and Sciences at the Conference. He and Dean Beggs will appear together on a panel with other educators and will discuss the relationship between the Colleges of Arts and Sciences and Teachers.

Dr. Broady will preside over a meeting concerning the "Aims Policies, and Structure of the General Extension Division." Speaking on "Improved Graduate Programs for the Training of College Teachers" at a panel discussion will be Dean Holly.

The convention will run from Monday Nov. 11 through Nov. 14.

### Taxpayers... Don't Worry 'Bout Money

How much would it cost the average homeowner if the University's total request for \$8.9 million increase in state general monies is granted for the 1963-65 biennium?

Any Nebraskan who owns a home appraised at \$10,000 with an assessed valuation of \$3,500 would pay \$4.41 more the first year and an additional 79 cents the second year.

Or it means for an entire year about two cartons of cigarettes, or 9 lines of bowling, or slightly more than the cost of a ticket to a single Nebraska football game.

And this is the most it could cost, since the calculation is based on the state's 1961 total assessed valuation of \$3.3 billion for each mill levied. In the past four years, the valuation has increased around \$70 million each successive year, according to tax commissioner's tables.

### Advance Tickets On Sale Today For Military Ball

Advance tickets for the "Golden Anniversary" Military Ball are on sale today through Monday for junior and senior cadets and midshipmen in Navy ROTC.

Regular tickets will go on sale Tuesday. They will be sold from 8 a.m. to 5 p.m. each day in the Military and Naval Science building for \$2.50 per couple.

The Military Ball will be held Dec. 1 in the University Coliseum where it originated and was held for over forty years. Navy ROTC, under the direction of Professor of Naval Science, Captain William G. Weber, will sponsor the 1962 ball.
