

Spring's Daze Brings Burst Of Pins, Rings

Spring is sprung, the grass is riz, I wonder where the guys' minds is? Apparently not on the more serious intellectual aspects of college life as will evidence the great number of pinnings and engagements Monday night.

PINNINGS

Nelli Kratochirl, junior in Teachers from Madison, to Dick Garton, senior in engineering from Omaha.

Jane Hyde, Delta Zeta sophomore at Nebraska Wesleyan from North Platte, to Dennis Siefford, Acacia junior in Business Administration from Beatrice.

Linda Osborne, sophomore at Nebraska Wesleyan from Lincoln, to Phil Kelly, Acacia senior in Arts and Science from Lincoln.

Susie Hyland, Delta Delta Delta junior in Home Economics from Lincoln, to Dave Anderson, sophomore in Engineering at Foothill Junior College, Calif., from Cupertino, Calif.

Karen Werner, Delta Delta Delta senior in Teachers from Creston, Iowa, to Ron Morse, FarmHouse senior in Arts and Science from Gothenburg.

Mary Huffman, Alpha Phi junior at the University of Colorado from Denver, to Pete Theisen, Sigma Phi Epsilon senior in Business Administration from Bassett.

Evelyn Ludeke, Zeta Tau Alpha junior in Music from Pawnee City, to Larry Caldwell, Lincoln.

Marjorie Miller, Alpha Xi Delta junior in Home Economics from Mullen, to Joe Hultquist, Alpha Gamma Rho senior in Agriculture from Minden.

Claire Rae Roehrkasse, Sigma Kappa senior in Music from Grand Island, to Mike Eason, Phi Gamma Delta senior in Agricultural Economics from North Bend.

Jeanne Merryman, Fedde Hall freshman in Home Economics from Republican City, to Roger Sindt, FarmHouse junior in Agriculture from Naponee.

Carol Johnson, Delta Delta Delta junior in Arts and Sciences from Alliance, to Roger Quadhamer, Beta Sigma Psi senior in Teachers from Hildreth.

senior in Speech Therapy from McCook, to Fred Wurtz, Phi Kappa Psi senior in Arts and Science from Scottsbluff.

Ginny Pansing, Kappa Kappa Gamma junior in Teachers from Lincoln, to Al Plummer, Phi Delta Theta at Northwestern University from Bayard.

Pat Kinney, Alpha Omicron Pi junior in Arts and Science from Lincoln, to Rox Robison, Delta Tau Delta senior in Arts and Sciences from Omaha.

Mary Corrigan, junior in Arts and Science from Omaha, to Joe Lawritson, Sigma Phi Epsilon junior in Business Administration from Lincoln.

Marilyn Blum, Kappa Kappa Gamma

ENGAGEMENTS

Jan Volpe, Alpha Omicron Pi senior in Teachers from Lincoln, to Steve George, Alpha Tau Omega senior in Arts and Science from Lincoln.

Becky Schneider, Chi Omega senior in Music from Cortland, to Ken Dubas, Sigma Phi Epsilon alum from Lincoln.

Bev Ferris, Chi Omega senior in Arts and Science from Central City, to Tom Thurber, FarmHouse senior in Agriculture from Lexington.

Diane Toos, Zeta Tau Alpha senior in Business Administration from San Diego, Calif., to Charles Turner, Tampa, Fla.

Judy Johnson, Alpha Chi Omega junior in Arts and Science, from Kimball, to Charles Mays, University graduate from Lincoln.

Sandy Shaffer, freshman in Teachers from Des Moines, Iowa, to Ron Beers, Pi Kappa Phi junior in Business Administration from Grand Island.

Joan Kesting, Alpha Xi Delta senior in Home Ec from Humboldt, to Jimm Glathau, graduate in Econ from Humboldt.

Mary Downard, Towne Club junior in Teachers from Lincoln, to Jerry Witherby, from Lincoln.

LITTLE MAN ON CAMPUS

"HELLO, LOUISE?? WOULD YOU MIND PULLIN' YER SHADES?— I GOT AN 8-O-CLOCK CLASS TOMORROW."

High Schools Provide Field Work For 27

Twenty-seven seniors in home economics education at the University, are receiving "on the spot" training in 14 vocational homemaking departments in high schools throughout the state.

They are helping teach high school and junior high home-making classes in foods and nutrition, family living, child care and home furnishing.

After student teaching for seven weeks, the girls will return to the University to complete their senior year in home economics education and graduate as high school vocational homemaking teachers.

The list of the students includes:

- Juanita Johnson, Jean Olsen, Connie Vavra, Karen Edsall, Mrs. Karen Hamer, Mrs. Nona Zink, Carolyn Cheney, Kay Hoff.
- Delores Stars, Vi Sisel, Glenis Behrens, Jane Price, Mrs. Darlene Minkrik Parr, Beverly Gray, Sandra Weber, Kay Johnson.
- Joan Mudgett, Mrs. Sally VanZandt, Mrs. Sherry Christofferson, Mrs. Zoe Fuchert, Sidn Hazen, Mrs. Jane Howe, Mrs. Suzanne Baxter, John Wolters, Rosalyn Miller, Carol DeGroot and Karen VanZandt.

Applications Are Due For Graduate Degrees

All students who expect to receive bachelors or advanced degrees or teaching certificates at the close of this semester should make their application for them by March 1, according to Miss Shirley Thomsen, assistant registrar.

The applications can be made at the Registrar's Office, 208 Administration Building, between 8 a.m. and 4:30 p.m., Monday through Friday, or between 8:30 a.m. and noon on Saturday.

NEBRASKAN WANT ADS

SITUATION WANTED
Teacher-Beastnik interested in rearing your children. Will read poetry to make them sleep and play bingo drums while they eat. Prefer destructive children who aren't afraid of dirt and need freedom of speech. Available from midnight until 4:00 a.m.

WANTED
Roommate to share quite spacious 4-room apartment with 2 other students. \$25 a month each. Call 435-3642.

FOR SALE
Silverstone electric guitar and amplifier with vibrator. Like new. Call 466-1138.

ROOMS FOR RENT
1418 L. Suite without kitchen. Private bath. Also rooms. Men. Downtown. 1528 Q. Sleeping room available. Male students. \$4.50 per week.

Show Competition Open To Students

The third annual Broadcast Music, Inc. (BMI) Varsity Show Competition, is now open. A prize of \$1,000 is being offered to the composer and lyricist of the best college musical comedy or revue.

BMI will also award an additional prize of \$500 to the

Ag Researchers Sift Soil Particles For Rootworms

Mix fine pepper with fine sand. Now try to count the grains of pepper in the mixture.

This will give you an idea of what University College of Agriculture researchers have been up against in working on the million-dollar corn rootworm problem, according to Donald Lawson, instructor in entomology at the University.

The scientists wash the soil and screen it through two extremely fine screens. This gets rid of most of the confusing array of soil particles. The remainder of the sample is then spread on a black cloth and the eggs counted through a microscope.

When the method is perfected, the scientists hope to be able to predict local infestations accurately. They also hope to get information on egg and larval responses to temperature, moisture and tillage methods in one of the state's most important crops.

Ag Union Slates Knitting Lessons

The Ag Union is sponsoring a series of six knitting lessons for all interested students.

The classes are being held each Tuesday from 4 to 5:30 p.m. Those interested may sign up in the Ag Activities office at the Ag Union.

A representative from a local department store will conduct the classes.

All interested students may sign up for the Ag Union Talent Show tryouts Feb. 27. Applications are available in the Ag Union Program office.

Study Shows Youths Sought In Agriculture

Although the number of farms in Nebraska is declining, there is an increase in the need for workers with a farm background, according to a study by J. T. Horner, assistant professor of vocational education at the University.

Unfortunately, the survey also shows that relatively few farm youths are aware of the variety of opportunities open to them, Horner writes in the winter issue of the Nebraska

Experiment Station Quarterly.

The survey covered 800 employers in farm-related industries in Nebraska. Nearly three-fifths of the 800 anticipated a need for more employees by 1965.

Nine out of ten of the employers want employees with a "general knowledge" background in agriculture. Three-fourths want employees with a background in livestock production. Another large group wants farm machinery skills.

Horner found that the jobs above the lower pay levels generally required some training beyond high school, training for which the employers generally have made no provision.

A fourth of the employers indicated their sales workers should have some college training. At the lower skill levels, a third specified agricultural education in high school.

Agricultural education in college was more desired in employees at the supervisory and management levels. Horner concluded that there is a great need for some type of post-high school training for Nebraska farm youths.

Safflower Crop To Undergo Study

University scientists will look for the causes of \$1,250,000 in losses in last summer's safflower crop of western Nebraska farmers.

Dr. Laren Robison, of the Box Butte Experiment station, has received a grant from the State Department of Agriculture to develop a breeding program for more disease resistant safflower plants which yield more oil than present varieties.

Campus Calendar

TODAY
TAKE FIVE, Music, Student Union, 3:30 p.m.

COFFEE HOUR, Ag Union, 4 p.m.

RODEO CLUB meeting, Ag Union Lounge, 4 p.m.

RECORD LENDING LIBRARY, Student Union, 4 p.m.

DELTA SIGMA PI dinner for students interested in a professional business fraternity, 6:30 p.m.

4-H CLUB meeting, Ag Union Lounge, 7 p.m.

SKY SHOW, "Life in the Universe", Morrill Hall, 8 p.m.

TOMORROW
RECORD Lending Library, Student Union, 4 p.m.

NIA BOOK PROJECT meeting, 345 Student Union, 3 p.m.

880 CLUB, KNUS radio, Temple Bldg., 7 p.m.

NU DAMES, Student Union auditorium, 7:30 p.m.

CELANESE

Where Chemistry Means Business
... There's More Room to Grow

In the past few years Celanese' wide-ranging operations in chemicals and plastics, as well as in chemical fibers, have broadened into new areas, and this forward-looking, diversified company foresees an even greater range of products, markets and interests tomorrow from today's scientific research and development, engineering and production skills.

You needn't be "stuffed" at Celanese. There's plenty of room for you to grow—not only room and opportunity, but encouragement to grow. For only through the growth of its individual employees will this vigorous company be able to meet its great, diverse tasks of tomorrow.

Wherever your technical interests lie—in chemicals, plastics or fibers—there are opportunities for Chemists, Physicists and Engineers of all kinds—in research and development, in manufacturing, in technical service, in marketing.

CELANESE INTERVIEWING ON CAMPUS SOON

For dates and arrangements, see your Placement Director.
