

PERSHING RIFLES WIN PHALANX DRILL

PERSHING RIFLES WIN—In the annual Phalanx drill competition, the University Pershing Rifles won the exhibition drill over the Creighton University drill squad and the Navy ROTC White Hats. In the regulation squad drill competition, the Navy ROTC squad won. Four Army battle groups also participated in that drill. Pershing Rifles won a traveling trophy and a permanent trophy. The Navy squad received a trophy and individual medals. Col. Dan Kingman, of the Military and Navy Science department, said that the coordination and precision of the Pershing Rifles cadets displayed was "as close to perfect as I have ever seen." Cadence Countess put on an exhibition, but were not in competition.

Stanton Here For Dedication Of Art Gallery

Dr. Frank Stanton, president of Columbia Broadcasting System (CBS), will be the principle speaker for the dedication of the Sheldon Art Gallery May 16, according to Norman Geske, Director of the University Art Galleries. The dedication will be by invitation only and include members of administration, deans, invited guests and friends of Mrs. Sheldon. The gallery will be open to students on Friday, May 17, when members of Builders will act as guides and explain the rooms to viewers. Builders' members will also be guides on the day of the formal dedication. They will be in charge of publicity, ushering, and will act as hosts throughout the ceremonies.

'Lugging' Ability Find Disproves Old Myth

University researchers have helped disprove an engine myth. According to Ag Engineers J. J. Sulek and D. E. Lane of the University's tractor testing station, the long-stated axiom that a diesel engine always has better "lugging" ability than a gasoline engine is false. "Lugging ability" is an engine's power to do work at very low engine speeds. Among other findings, the tractor testers discovered that: —It is impossible to predict fuel consumption of an engine without the aid of test results. Reliable fuel consumption data should be available for any engine that is considered for a job where fuel costs are of economic importance. —Piston speed or the average distance (in feet) traveled by a piston (in a minute) is a more consistent measure of engine speed than the measure commonly used — revolutions per minute. —Displacement per minute will more accurately predict the power output of an engine than will displacement alone. Sulek is associate professor of agricultural engineering and Lane is Extension agricultural engineer at the College of Agriculture.

Defense Leaders Discuss Survival After Radiation

The possibilities of Nebraska getting back on its industrial feet and how the state will do this are some of the topics to be discussed by state and national civil defense leaders at the state's first Conference on Industrial Survival next Wednesday. R. L. Wheland, coordinator of industrial defense for the Jones and Laughlin Steel Corporation, will be one of the national authorities on industrial survival at the Governor's Conference which will be held at the Nebraska Center.

cover as rapidly as possible, all sources of assistance and what part industrial firms will play in a national, all-out effort. Maj. Gen. Lyle Welch, Nebraska Civil Defense director, will speak on the "Opening and History of Civil Defense." "National Shelter Program" will be discussed by Ren F. Read of Denver, director of Region 6, U.S. Office of Defense. A radiation authority from the U.S. Office of Civil Defense, Charles Shafer, will speak on "Radiation Fallout." "The Importance of Being Prepared" will be discussed by Rogers Cannell, manager of the Stanford Research Institute, Menlo Park, Calif. A panel discussing "Means of Minimizing Losses" will be discussed by Graham Jones, assistant superintendent of Ash Grove Lime and Cement Co., Louisville; Gordon Roberts, president of Roberts Dairy, Omaha; Robert Whitfield, security coordinator for Quaker Oats, Chicago; and Wheland.

A long time student of the possible after effects of a nuclear attack on industry, Wheland has often made it clear that he believes survival is not possible without advance planning.

The primary purposes of the conference will be to acquaint industrial, security and municipal officers on the effects and dangers of the explosions and the subsequent fallout, what can be done now to minimize losses, how to re-

Union To Sponsor Annual Bike Trip To Pioneer Park

The Student Union trips and tours committee is sponsoring the second annual Bicycle Trip to Pioneer Park on Saturday, April 27.

The trip will begin at the north entrance of the Union at 11 a.m. where students will prepare to pedal to Pioneer.

The Union will provide tandem and single bicycles free of charge for students who participate in the trip. Students who own or can obtain bicycles are requested to use them on the trip in order to provide more students the opportunity to participate.

Softball, frisbee and other activities are planned upon arrival at the Park. The cost of the trip is \$1.15 which includes the price of a box lunch and insurance. All interested students should sign up in the Union Program Office.

Cash To Be Given To Essay Winners

Winners of the Latin American Essay Contest will be announced at a public presentation at 7:30 p.m. on April 24 in 234 Student Union.

First prize for the best essay on "What Should Be Done to Strengthen Democracy in Latin America" is \$75 presented by the Lincoln chapter of American G.I. Forum.

Second place winner will be awarded \$25 presented by Dr. Roberto Esquenazi-Mayo, associate professor of Romance languages.

To Essay Winners

The award presentation will include musical selections, instrumental and vocal by the Music Department.

Yearbook Applications Must Be In Today

Applications for paid staff positions on the 1964 Cornhusker are due today at noon in 306 Burnett Hall. Interviews will be held April 23, starting at 4 p.m.

All questions should be directed to the senior staff of the 1963 Cornhusker in 51-A, Student Union basement.

LITTLE MAN ON CAMPUS

"I WISH YOU'D QUIT REFERRING TO MY SOLO AS MY FINAL!"

BETTER THAN EVER

That's the way to describe Connecticut Mutual policies. Always a leader in offering extremely liberal coverage, CML now offers 11 new valuable benefits which apply to existing policies as well as new ones. You can be sure that your CML policies will never become obsolete — regardless of how long they remain in force. Let us tell you more about CML's well known practice of making new benefits retroactive to present policyholders wherever possible.

SUNRISE IN HOLLYWOOD

This is the city where pretense is a profession . . . where emotion is an art. This is Hollywood's famous Bowl at sunrise on Easter morning.

Thousands raising their hearts and prayers to the Lord of Reality . . . of Truth!

Don't be deluded by the artificiality which sometimes claims the center of life's stage. There is a hunger in the souls of men which our air of well-being cannot hide. There is frustration, futility, despair—and man's calculated unconcern cannot disguise it.

To our churches—to worship, hymn and prayer—we turn when we tire of dreaming and pretending. Can we claim any glory greater than that we are the children of God? Can we own any allegiance bolder than that we are the disciples of Jesus Christ . . . Risen, Victorious?

Easter is the climax of life's drama . . . on which the curtain never falls!

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
