

JORGENSEN

MIELENZ

Mielenz, Jorgensen Get 'Distinguished' Awards

Dr. Mary Mielenz, professor of secondary education, and Dr. Theodore Jorgensen, professor of physics, were revealed yesterday as the 1963 recipients of the University Foundation's awards for distinguished teaching.

The awards include a \$1,000 stipend and a medallion, presented at the University's Honor Convocation by Burnham Yates, Lincoln banker and Foundation vice-president.

Made annually since 1953, the distinguished teaching awards are based on nominations submitted by the various colleges of the University.

The first woman to receive the honor, Dr. Mielenz was cited for "her sincere personal interest in students and constant devotion to the profession of teaching, especially in her own field, instruction in English."

A native of Columbus, Dr. Mielenz began her professional career as a high school teacher at Stromsburg in 1922, the same year she received her Bachelor's degree from the University. She received her M.A. from the University of Chicago and taught a year at Wayne State Teachers College before joining the University in 1938. She received her Ph.D. at Nebraska in 1940 and was elevated to the rank of full professor in 1957.

Dr. Jorgensen was cited for his "patience with those students whose minds fail to match the incisiveness of his own. He insists upon effort but not upon the impossible. He is a man of integrity, honor and ability."

Dairy Students Tour Three States' Plants

Nine University dairy students took part in the annual student dairy tour April 16-18 through Minnesota, Wisconsin and Iowa. The students visited outstanding dairy farms and dairy processing plants in the three states, according to Drs. L. K. Crowe and Foster Owen, members of the NU Department of Dairy Husbandry, who accompanied the students.

He first became a teacher at the University 39 years ago while he was still an undergraduate. He received his B.A. in 1928 and his M.A. in 1930, both from Nebraska, and his Ph.D. in 1935 from Harvard University.

Jorgensen's research in the atomic field is widely respected. The Atomic Energy Commission has supported his research with more than \$100,000 in grants since 1948. Jorgensen was named full professor in 1946.

Hillyer Wins Top Honors In Tourney

A University junior, Linda Hillyer, won the highest individual rating of all students from 22 colleges, including seven of the Big Ten Schools, attending the Delta Sigma Rho district speech tournament at the University of Michigan this past week end.

She was also among the six students who won the award of "Special Distinction."

Another University student, Kathie Madsen Bayless, rated among the top 16 students in the tournament. She received an award of "Distinction."

In the eight-round tournament, individuals competed against each other rather than against schools. Analyzing the topic, "What Should be the Role of The Federal Government in Higher Education," the students gave a speech of analysis in the first round; participated in a round-table discussion the second round; a speech of advocacy in the third; and then were teamed with students from other colleges for five rounds of debate.

They Said It Couldn't Be Done-Coed Traps Man Over Easter

They said it couldn't be done! And it couldn't at Nebraska, so Miss Janie Tenhulzen traveled to Drake University and snared a Sig Ep pin. Congratulations from the staff of the Daily Nebraskan are extended to Janie.

PINNINGS
Jane Tenhulzen, Kappa Alpha Theta junior in Arts and Sciences from Denison, Ia. to Ronald Olson, Sigma Phi Epsilon in Pre-Law at Drake University from Manilla, Ia.
Mildred Boyers, Chi Omega sophomore at Kearney State Teachers College from Mullen to Mick Hard-Miss Tenhulzen, Alpha Gamma Rho junior in Agriculture from Mullen.
Betty Walker, junior in Arts and Sciences from Lincoln to Michael Hewlett, Theta Xi senior in Engineering and Architecture.

Kathy Deubelbeiss, Sigma Kappa alum from Table Rock, to Marsh Jurgens, Alpha Gamma Rho senior in Agriculture from Minden.

ENGAGEMENTS
Dave Wohlfarth, Delta Tau Delta senior in Journalism

NU Doctors To Attend Discussion

Dr. Samuel Fuenning and Dr. Kenneth Rose of Student Health will be participating in the program of the American College Health Association in Kansas City, Mo., and at the University of Kansas.

Dr. Fuenning, director of Student Health at the University, will introduce several of the speakers at the conference.

Dr. Rose has prepared a scientific exhibit on "Radio-telemetering Electrocardiographic Responses in Athletics." There will also be several other exhibits.

An audience discussion on the ethical relationships of college health programs will be conducted by Dr. Fuenning.

Approximately 500 persons of the conference will attend the sessions. Sectional conferences on administration, athletic medicine, clinical medicine, environmental health and safety, health education, mental health, and nursing services will be held.

Nebraskan Applauds

Newly elected officers of the University Varsity Dairy Club: Lee Volker, president; Ron Wilton, vice-president; Dennis DeFrain, secretary-treasurer; Rolan Sell, program chairman; Kenny Kast, Ag executive board representative and Dr. L. K. Crowe, club advisor.

Society, national pharmaceutical honor society: Lance Mikkelsen, William Johnson, Ward Copple and Susan Christensen.

New officers of Alpha Tau Alpha, national vocational education honorary: Larry Hammond, president; Keith Gilster, vice-president; Myron Carlson, treasurer; George Hermone, news reporter; Francis Lavicky, sergeant-at-arms; Donavon Benson, Ag Exec Board representative.

The University has been given \$1,000 to continue a study of a turkey disease that has been a multi-million dollar problem to Nebraska's industry.

New initiates of Alpha Epsilon Chapter of the Rho Chi

The Poultry Husbandry Department accepted the grant from the Nebraska Turkey Federation to support research work aimed at preventing blackhead disease in turkeys.

The money will be used by Dr. T. W. Sullivan, poultry nutritionist, to further a study regarding the effect of drugs added to the turkey's diet to prevent blackhead.

from Lincoln to Susie Sanger, senior at St. Elizabeth's Nursing School from Lincoln.
Sandi Schmitt, sophomore in English at Ventura College, Ventura, Calif. to Ed Collett, grad student in Engineering from York.

Barbara Crawford, junior in Teachers from Clarinda, Ia. to Gary Poore, sophomore in Engineering at Clarinda Community College, Clarinda, Ia.

Mary Ann Rydquist, Zeta Tau Alpha sophomore in Teachers from Redoak, Ia. to

Alan Skoog, junior in Agriculture from Hubbard.
Madene Stearns, junior in Teachers from Clearwater to Bob Mason, graduate in Agriculture from Seward.
