Student Council Renews Support For Ticket Hike

Student Council yesterday defeated 20-8 a motion which would have killed last week's endorsement of an increase of \$3 in the student football ticket.

Introduced by Bill Dunklau, the resolution said that "student opinion seems generally opposed to such an increase," and that "such an increase is not in the best interests of the student body."

In his argument for the resolution, Dunklau said that the increase is unwarranted and totally out of line. He said that the extra \$22,000 to be received from the ticket price increase will hardly make a dent in the \$710 thousand budget of the Athletic Department.

Dunklau also said that the \$3 increase in the student rates would not bring as much revenue as a \$1 increase in the public rates. The 30,000 seats sold to the public would bring in an added \$30,000 with this price increase.

He also believes that this price increase discourages school spirit.

Steve Christensen agreed with Dunklau saying that he would like to see the price increase, if coupled with recommendations for other changes.

He questioned where the burden of the price increase could best be borne, and said that the student was on the weakest financial ground of the student, faculty, and general public areas.

Steve Honey indicated that, from the business point of view, the recommended increase could be most easily obtained from the students since there was no rule saying how many seats must be set aside for the students.

Susie Merwick said that student opinion had not been measured and that nothing against the increase had appeared in the Daily Nebraskan. She also pointed out that it is a student activity and the students should help support it.

Dunklau, chairman of the activities committee, introduced a motion recommending that the Yell Squad file with Student Affairs as a student organization under Student Council jurisdiction, and Council passed it.

The resolution said that the Council is the governing body of student organizations of general University interest, and that the Yell Squad is such an organization since it is representative of the entire student body. It was also noted that the positions are open to all University students.

Dunklau said that this reso-

lution is the only way that the Council can adequately provide that in the future communication will reach all interested persons. He also said that it was a way of coordinating the Yell Squad and the spirit organizations.

In other business, the Council elected new student members of the Publications Board. They are Virginia "Cuz" Gunzel, sophomore representative; Karen Gunlicks, junior representative; and Maureen Frolik, senior representative.

Elections for Student Council representatives and amendments will be Monday at the city Union from 8 a.m. to 7 p.m., and at the Ag Union from 8 a.m. to 5 p.m.

Class schedules are now available in the Administration building and worksheets will be accepted after May 20. No class space will be assigned until the \$25 deposit is submitted. This may be done until July 31.

Oriental Music Session Set

Javanese and Balinese music will be discussed by Dr. Donald Lentz, director of Bands at the University, on May 8 at 2 p.m. in 232 Student Union.

Dr. Lentz received a Woods grant to study music in the Far East and traveled to India and Southeast Asia last year. During his travels he attended festivals and ceremonies and made recordings of Oriental music and movies of Oriental dances. Dr. Lentz also visited universities and factories in which musical instruments are made.

Students and faculty are invited to attend Dr. Lentz' lecture and see his movies and recordings of Oriental music.

Princess Finalists Selected

Six finalists have been chosen for the University Varsity Dairy Club Princess contest.

They are Joan Skinner, Alpha Chi Omega; Priscilla Patterson, Nebraska Center; Judy Nelson, Delta Delta Delta; Rosella Lange, Women's Residence Hall; Kathy Sorenson, Kappa Alpha Theta; and Jeanne Langford, Alpha Omicron Pi.

These candidates will be voted upon at a dance May 10 at the Ag Union. The Dairy Princess will be announced at the Dairy Royal Show May 11, said Don Ehlers, Dairy Club president.

IFC Is Given Rush Report By Committee

The Interfraternity Council (IFC) was presented with a report last night, compiled by its rush committee, on the possibilities of setting up a deferred rush system at the University.

Deferred rush, which is a method by which fraternities wait to pledge men until after the men have had a chance to prove themselves scholastically on their campus, is presently carried on by many fraternity systems throughout the country.

"The only reason," read part of the committee report, "we should ever propose to adopt deferred rush is to strengthen the Greek System at Nebraska, and at the present time, the effect of deferred rush measures would be just the opposite."

In its report, the rush committee set up the criteria for a general rush program, released the opinions of other schools, who have deferred rush programs effective in their Greek Systems, and finally, set up a hypothetical case of deferred rush at the University.

"For a rush method to be successful," read the report, "it must be: 1. Financially feasible; 2. Acceptable to the individual fraternities; 3. Compatible with university housing facilities; and 4. Capable of producing the largest number of potential active fraternity men."

Ninety-four letters were sent to colleges throughout the United States, requesting information concerning their rush programs. Of the letters sent nineteen were returned from those which had had experience with deferred rushing. Among those replying to the IFC's letter were Michigan State University, Duke University and Wisconsin State University.

The replying universities were placed into three categories, those who deferred rushing until the middle of the first semester, those who waited until the end of the first semester, and those who waited until after the second semester had begun.

The comments received from the other universities varied from strongly in favor of the program, to rabid opposition to it. The Dean of Students at Northeastern State College in Oklahoma, for instance, said, "We like the delayed rush. It has worked so well that the sororities also have decided on the delayed system."

In contrast to these favorable opinions on the system, James Mallory, Dean of Men at East Carolina College, said that the program "proved very unsatisfactory."

The rush committee's report will be discussed at the next IFC meeting, according to IFC president William Buckley.

DISTANCE THROW, BUT WHAT?—"It's called Women's distance throw but what do I throw?" queries Sherril Geistlinger, as she practices throwing everything from locomotives to telephones. Sherril is practicing for the Spring Day games tomorrow on Ag campus. All afternoon classes have been dismissed for the big event.

Council Ends Investigation Of Book Pool

An investigation into the possibilities of a successful book exchange pool has been completed, said Bill Gunlicks, chairman of the Council book exchange committee.

The committee worked in conjunction with Alpha Phi Omega service fraternity which has conducted the book pool in the last several years.

Students sell used books at 60 to 62 per cent of their original cost and buy them at 64 to 66 per cent of this cost.

Students can save between 10 and 12 per cent in the purchase of their books. This would make it possible for the student body to save as much as \$24,000 a semester by purchasing books through a book exchange, Gunlicks said.

Attention Chains!

Members of the Daisy and Ivy Chain will rehearse tonight at 5 p.m. in the Student Union Ballroom, according to Cynthia Holmquist, Mortar Board.

Regents Accept Resignations Of 23 NU Faculty Members

Resignations of twenty-three staff members, including two full professors, were accepted by the University Board of Regents.

Those resigning are:

— Leon Lishner, professor of voice, who has accepted a similar position at Oberlin College in Ohio. A faculty member since 1956, Prof. Lishner has appeared each Christmas with NBC-TV opera in Menotti's "Amahl and the Night Visitors," and recently

All Sing Groups Will Be Mingled For '63 Ivy Day

This year's Ivy Day sing will feature several innovations over past sings, according to Cynthia Holmquist, Mortar Board.

This year, in order to add some variety, men and women groups will alternate. In addition, the awards presented during the day will be interspersed between the songs.

The schedule of groups is:

12:20 Sigma Kappa, "Sing, We Now of Sigma;" song leader, Claire Roehrkasse.
12:25 Sigma Nu, "Navy Hymn;" song leader, Joseph Colgan.
12:30 Towne Club, "I Whistle A Happy Tune;" song leader, Rosalee Pleiss.

12:35 Beta Sigma Psi, "Brother Sing On;" song leader, Roger Quadhammer.

12:40 Zeta Tau Alpha, "Bidin' My Time;" song leader, Betty Bauer.
12:45 Sigma Chi, "Seeing Nellie Home;" song leader, Rich Revis.

12:50 Pi Beta Phi, "A Girl Of The Pi Beta Phi;" song leader, Gail Galloway.

12:55 Love Memorial Hall, "There Are Such Things;" song leader, Jand Fauquet.
1:05 Alpha Xi Delta, "Love Look Away;" song leader, Susan Mall.

1:10 Alpha Tau Omega, "Vive L'Amour;" song leader, Douglas Busskohl.

1:15 Alpha Chi Omega, "Bit Of Logic;" song leader, Karen Yager.
1:20 Theta Xi, "Like The Mighty Eagle;" song leader, Troy Cleveland.

1:25 Kappa Delta, "When You Choose The Pin You'll Wear;" song leader, Susie Oberle.

1:30 Canfield House, "Where Or When;" song leader, Jerry Yeutter.

1:35 Kappa Alpha Theta, "The Little Worm;" song leader, Judy Tenhulzen.

1:45 Terrace Hall, "Terrace Sweetheart Song;" song leader, Becky Stehl.

1:50 Kappa Sigma, "Down By The Sally Gardens;" song leader, Bob Rose.
1:55 Fedde Hall, "Without A Song;" song leader, Lyle Rolofson.

2:00 Capitol I and II, "Blow High, Blow Low;" song leader, Willard Marquardt.

2:05 Alpha Omicron Pi, "Sapphic Ode;" song leader, Lorraine Morris.
2:10 Sigma Phi Epsilon, "Then Here's To Thee;" song leader, Lyly Rolofson.

2:15 Delta Gamma, "Holiday For Strings;" song leader, Polly Brown.

2:20 Gustavson Hall, "I Feel Pretty;" song leader, Kathleen Gates.

2:35 Alpha Phi, "Lullaby Of Birdland;" song leader, Carole Kramer.

2:40 Phi Delta Theta, "De Animals A Comin';" song leader, Doug Thom.

2:45 University Hospital Nurses, "Clap Yo' Hands;" song leader, Karen Neilsen.
2:50 Delta Sigma Pi, "There Is Nothing Like A Dame;" song leader, Clark Marshall.

2:55 Chi Omega, "Climbin' Up The Mountain;" song leader, Gail Hunt.

3:00 Delta Tau Delta, "Tobacco;" song leader, Steve Ellenberg.

3:05 Kappa Kappa Gamma, "Give Your Heart To a Kap-

pa Girl;" song leader, Virginia Wheaton.

3:15 Delta Delta Delta, "Put On A Happy Face;" song leader, Pat Gell.

3:20 Phi Gamma Delta, "Shenendoah;" song leader, Stuart Wiley.

3:25 Gamma Phi Beta, "Elijah Rock;" song leader, Nancy Mercer.

3:30 FarmHouse, "Old King Cole;" song leader, Ron Meinke.

Alpha Delta Pi, "Goin' Home;" song leader, Judy Maddox.

3:40 Beta Theta Pi, "Maria;" song leader, Gordon Meldrum.

3:45 Residence Halls For Women, "How High the Moon;" song leader, Sara Wagoner.

3:50 Sigma Alpha Epsilon, "Night And Day;" song leader, Paul Comastro.

The Ivy Day sing is sponsored by the Associated Women's Students (AWS) and Kosmet Klub.

McInnis Gets Appointment

The Rev. Jerry McInnis has been appointed associate minister-director of the Methodist Wesley Foundation, effective June 1, according to Bishop Kenneth Copeland, bishop of Nebraska Conference of Methodist churches.

McInnis will fill the vacancy left when the Rev. Duane Hutchinson was moved from that position to that of director of the Wesley Foundation.

"We work as a team," said Hutchinson. Dick Morris, lay leader is the third member of our team.

McInnis comes to the University campus from Republican City, where he served churches in Republican City, Huntley, Ragan and Wilcox.

He has been McCook District Director of Youth work and will be director of the McCook District camp this summer for the third time.

He is on the Nebraska Conference Board of Ministerial Training.

McInnis received his first year of education at the University of Nebraska. After serving some time in the Army, he finished work on his A.B. degree at Nebraska Wesleyan. He attended seminary at Emory in Atlanta, Ga.

YD's Will Show

Controversial Film

The controversial state chamber of commerce film on the Unicameral's budget committee will be shown at the Young Democrats meeting tonight at 7 p.m., according to Gary Thompson, president. Election of officers will also be held. The meeting will be held in the south party room in the Student Union.

Physicist Chef?

Barager Cooks 'Wool Potatoes' In Thermostatic Control Project

A physicist in home economics? Prof. Arnold Barager stands one of the many stoves in the home economics department and cooks his "artificial potatoes" made of mineral wool and water in a baby food jar, as part of a research project on thermostatic controls on stoves.

His project includes determining the efficiency of thermostatically controlled cooking tops in the critical cooking processes—those of waterless cooking and deep fat frying, which require the use of controlled temperatures.

"We received numerous complaints from housewives that these cooking units didn't work," said Barager. "We thought maybe it was the type of utensils in terms of material used. We tried several different materials, but we had variation because of the differences in the foods we were cooking. We were using potatoes but then developed some artificial potatoes of our own."

"We found that by careful watching and a few added improvements, waterless cooking, cooking with one half cup or less water, was possible on these stoves," said the professor. "We took temperature readings every 15 seconds to discover the exact points at which the control shut off the heat."

Prof. Barager's research projects have been written up in the Journal of Home Economics several times, where they are available to extension agents, homemakers and to the companies developing the stoves. One of his articles will appear in the June edition of the Journal.

Prof. Barager teaches a course in elementary and advanced household equipment to home economics students. His students hear most often, considering the selection of equipment to be used in the household, "What do you want it to do?"

There are many different types of equipment on the market and a lot of them do not answer the needs of the average housewife but they are acceptable for the particular job for which they are designed, said Barager. Housewives must figure out what they want the utensils to do before they purchase something for which they have no use.

Before his project on stoves, Barager did a research project on vacuum cleaners. The results of this research were also printed in the Journal.

Barager originally started out as a physicist, receiving his Bachelors and Master's degrees from the University of Michigan. He came to Nebraska to teach physics but after two years, started doing research in the field of home economics. He did purely research work for several years and then started teaching the home economics courses in 1947. He has been at the University for 33 years.

He is on the National Conference of Housing planning committee and was one of the original founders of the organization. Eight schools send representatives to the conference to exchange ideas and coordinate their research projects.

He was on the University Convocation for several years but resigned three years ago when he was placed on the University Building Committee. He is on the Student Loan committee and the Graduation with Distinction Committee.

Barager is a member of the American Home Economics Association, the American Institute of Physics, the American Association of University Professors and the American Association for Advancement of Science. He is also a member of Sigma Xi, an honorary scientific society.
