

University Choruses To Perform Sunday In 'Carmina Burana'

Chester Ludgin

Marta Kokolska

David Bender

The University Choral Union, composed of six university choruses, will present the contemporary composition, "Carmina Burana," this Sunday.

Three featured soloists with the New York City Opera Company will appear with the 700-voice chorus, under the direction of Prof. Emanuel Wishnow. The professional soloists are:

Marta Kokolska, soprano, has been a member of the New York City Opera since 1961. She has sung concerts at New York Town Hall, Carnegie Hall, Philadelphia Town Hall, and more than 200 performances on tour.

David Bender, tenor, has appeared as a soloist throughout the New York area in numerous oratorios with such groups as Brooklyn Philharmonic and New Jersey Oratorio Society. He also did the "Symphony of Psalms" under Stravinsky.

Chester Ludgin, baritone, has sung from coast to coast in more than 35 leading roles. His future engagements include "Manon" with the Miami Opera Guild, "King David" with the San Francisco Symphony, and "Samson et Dalila" with the Symphony Society of San Antonio.

The composer, Carl Orff, has chosen a series of poems in medieval Latin and German. The poems may be traced to thirteenth century monks, who copied secular poems which were written by vagrant scholars. The poems were found in a monastery, Benediktbeuern, near Munich. Orff entitles his work "Carmina Burana" which means "Songs of Beuren."

The University Choral Union is composed of the Madrigal Singers, the Agricultural College Chorus, the Varsity Men's Glee Club, the University Choruses and the University Singers. Accompanying the Choral Union and the soloists will be the University Symphony Orchestra.

The program is free to the public.

'Age Of Multi' Can Produce Individuality

Dr. McMillan Poses Environment Question

Although man might be thought of as living in the Age of Multi-Everything, we really haven't given up the individuality of the age of stone or iron.

This is one of the views expressed last Friday by Dr. John McMillan, chairman of the department of physics, University of Omaha, speaking at the University.

Dr. McMillan, as past president of the Nebraska Academy of Sciences, reminded the scientists that we also live as individuals as much in the Machine or Iron Age as did the people who first coined the phrases.

"Viewed from a different perspective, we might construe ourselves to be living in yet another age: The Age of Multi," he said.

"Just look at how we live. We have a multibillion dollar space program, multimillion dollar research facilities, furnished with multifunctional laboratories and staffed with multi-professional research teams engaged in multiphase research programs.

"We produce multimillion horsepower engines, multistage rockets, megatonage bombs, multistorage computers, multichannel communication systems, multiplexing Hi Fi sets, multipurpose schools.

"What's more, we work in multibusiness corporations, take multivitamin capsules, write with multicolored lead pencils and call ourselves multiracial families.

"We are going to have to learn as individuals how to live with this, and it makes you wonder just how one little old individual can even dare to fit into such an age," he said.

Dr. McMillan said that man nonetheless has somehow managed to muddle through the ages of stone, iron, bronze, machine, the air age, the atomic age and right up through the space age.

"We must hope that we can continue to utilize the best from each age even though it might only be as a geologically stable substance on which to carve an epitaph."

Ivy Day's Presentations Include Fraternity Pins

Ivy Day brought awards and honors to students and organizations and also brought fraternity pins and rings to coeds. Thirteen announced their pinnings and engagements Monday night.

PINNINGS

Nancy Zimbleman, Piper Hall senior in Home Economics from Humboldt to Warren Hill, Pi Kappa Phi senior in Engineering from Seward.

Susie Rutter, Sigma Kappa sophomore in Teachers from El Paso, Tex. to Leon Phillips, Theta Chi junior in Business Administration from Randolph.

Dee Glen, Alpha Omicron Pi sophomore in Teachers from Auburn to Jary Phillip, Theta Xi junior in Architecture from Alliance.

Sandy Brown, Chi Omega junior in Home Economics from Lincoln to Mike Brown, Kappa Sigma alum from Lincoln.

Joan Rochelle Ramsey, Sigma Kappa junior in Arts and Sciences from Lincoln to Charles R. Patton, Kappa Sigma sophomore in Arts and Sciences from Idaho Falls, Idaho.

Raydean Olson, sophomore in Teachers from Lincoln to Phil Beck, Beta Sigma Psi sophomore in Pharmacy from York.

Ellen Granata, Delta Delta Theta freshman in Teachers from Lincoln to Tom Campbell, Beta Theta Pi junior in Arts and Sciences from Lincoln.

Sara Rankin, Kappa Alpha Theta sophomore in Teachers from New York State College to Don Schindel, Sigma Chi junior in Business Administration from Aurora, Ill.

Janice Walt, Kappa Alpha Theta sophomore in Teachers from Lincoln to Tom Poggenmeyer, Beta Theta Pi sophomore in Business Administration from Nebraska City.

Mickey Drew, Pi Beta Phi junior in Teachers from San Marcus, Tex., to Dave Gleason, Sigma Chi freshman in Dentistry from Beatrice.

Sally Larsen, Delta Gamma junior in Teachers from Bertrand, to Don Burt, Phi Delta Theta senior in pre-law from Lincoln.

ENGAGEMENTS

Linda Dalton, Burr East freshman in Business Administration from Barneston to Ronald Wegner from Barneston.

Carolyn McCulley, junior in Teachers from Lincoln to Jerry McArtor, junior in Business Administration from Grant.

Professor Treves Outlines Problems Of Polar Study

A University geologist, Dr. Samuel Treves, told the assembly of the Nebraska Academy of Sciences last Friday afternoon that scientific study at the poles of the earth is like learning to live all over again.

Dr. Treves, a hard-rock geologist and professor of geology, has spent the summer months of the past several years, mapping and exploring both the Arctic and Antarctic regions.

"You've got to learn to slow down, think very carefully before you act, and estimate that it will take you about three times as much time to accomplish simple physical tasks," he said.

New Dean

E. W. Janike will become Dean of Extension at the University on July 1. The appointment was made by the Board of Regents Monday morning. As Dean of Extension, Janike will continue as director of the Agricultural Extension Service and will also direct the activities of the activities of the Extension Division.

NU Spanish Club To Present Film

The University Spanish Club is sponsoring a Spanish film, "The Young and the Damned," ("Los Olvidados") Wednesday night in Love Library Auditorium at 7:30.

The film has been described as "a savage drama of juvenile delinquency filmed with stunning realism in Mexico by the famous director Luis Bunuel. Bunuel examined the outskirts of Mexico City where adolescents fight each other out of hate, fear, lawlessness and hunger.

Nebraskan Applauds

The Donald Walters Miller Scholarship Committee has awarded a \$1,000 scholarship for the academic year 1963-64 to each of the following University students: Donald Kummer, Arts and Sciences; David Scholz, Engineering; Mary Schmitt, Teachers; and Robert Dobberstein, Pharmacy.

In addition, the committee has selected as first alternate, Joan Skinner, Agriculture, and as second alternate, Gary Oye, Business Administration.

Several of these fellowships are awarded annually to students in residence at the University. The Dean of each college recommends no more than two each academic year. This is the first and initial screening that takes place. Students in the graduate, undergraduate and professional schools and colleges of the University may be nominated. Each year a possible 20 can be recommended.

The nominees are brought before a committee appointed by Chancellor Hardin. The members composing this committee are: Dean of Student Affairs, Director of Scholarship and Financial Aids, Chairman of the Graduate Fellowship Committee, and one other member of the Graduate Fellowship Committee.

Need is not a necessity of consideration, but it also is not excluded.

Newly-elected officers of next year's RAM Executive Council who were installed at the seventh annual RAM Installations and Awards Banquet.

The officers: president, Gary Pokorny; vice-president, Don Grimm; secretary, Frank Partsch; treasurer, Roger Larson; intramural director, Doug Herman; scholastic director, Larry Anderson; social director, Gil Gebro; and activities director, Dave Stevens.

WANT ADS

"AND DO YOU KNOW..."

That he bought life insurance on her life? Everyone knows that a wife is worth much more than money — but think of the money it would take to hire a cook, laundress, maid, seamstress, purchasing agent, nursemaid, chauffeur, decorator, hostess — Why, I think I'll send my husband to that nice CML man for insurance on me!

For information on "wife insurance" let us send you "How Much is Your Wife Worth?"
