

## Football Ticket Rotation Is Voluntary; No Force Will Be Used: Christie

By Susan Smithberger  
Senior Staff Writer

"Students will not be compelled to turn in their football tickets for a bleacher seat for one game," said Dennis Christie, president of Student Council in referring to the ticket rotation system.

"It must all be on a voluntary basis, we cannot force them out," the president said. He pointed out that many students are rebelling at the idea of having a group of policemen come and push them out of their seats. This will not be the case . . ."

Christie said that the Student Welfare committee found that taking a large block out of the stadium each game and putting all 1,000 bleachers there would not be feasible.

"For this reason we have broken the group down into smaller units which will trade within themselves," said Christie.

The four cooperatives have been put in one group. Interfraternity Council (IFC) and Panhellenic will try to work out their groups among themselves. IFC met last night to try to set up a system. Panhellenic will meet this afternoon to discuss the problem.

Residence Association for Men, Burr Hall, Residence Association for Women, Unicorns, and Independent Women's Association will work together. They met last night.

The biggest problem, according to Christie, is the persons who bought tickets singly. Student Council has no way of knowing who these people are and will have more difficulty in placing them in the stadium. "The only way we can help these people," said Christie, "is to have them go with some other block group. This we can do if they will only let us know who they are."

Persons who are not in any block are asked to call or stop in at the Student Council office immediately and leave their name. Those not doing so will be left in the bleachers.

The rotation system will go into effect at the Air Force game and will be used for three games, omitting the Oklahoma-Nebraska game Nov. 23.

"We felt that since everyone took their chances in the lottery and since the majority will want to see this game, termed by many as the most important one, we will leave everyone with stadium seats in the stadium for this game," said the president.

James H. Pittenger, athletic ticket manager, had 1,000 seats roped off in the bleachers Saturday to insure plenty of room for students.

Christie reported that a number of students who felt that sitting in the bleachers would be a real hardship found that the view from there was much better than expected, better than some of the stadium seats.

## Paper's Ticket Rotation Poll Reveals Mixed Sentiments

—Sororities Approve; Fraternities Oppose—

By Jerri O'Neil  
Junior Staff Writer

The ticket rotation system proposed by the Student Council seems to be an unpopular idea if judged by the results of yesterday's Daily Nebraskan poll.

While six of the seven sororities polled said they would give up their seats for any game except Oklahoma and Homecoming, all of the seven fraternities polled either did not like the idea or said they would refuse to participate.

The 14 houses contacted were picked at random, but in each case a house officer was consulted.

A spokesman for Alpha Chi Omega said they are willing to give up their seats for one game. The Alpha Delta Pi's said they would ask both pledges and actives to join in giving up their tickets for one game.

Alpha Xi Delta, whose pledges have already given up their stadium seats for one game, reports that the pledges would participate again if an effective system could be set up.

Mary Sue Hiskey, Chi Omega president, noted that, "Personally, I'd be willing to do it," (give up her ticket). She also thinks that the Chi Omega's would go along with the program.

The pledges of Delta Gamma gave up their tickets for the last game and wouldn't mind doing it again for any game other than Homecoming or Oklahoma.

The Gamma Phi Betas think that a practical system of ticket rotation would be almost impossible to put into effect, but if one were inaugurated they would participate in it.

Kappa Alpha Theta sorority is against the idea of ticket rotation. They believe that the lottery system was a fair one and that everyone had an equal chance at good seating. Also, they think that an effective rotation system would not be possible, according to a house officer.

Delta Upsilon fraternity, whose pledges have already given up their tickets for a game, is worried that the people who pay only \$6 for the bleacher will never have

to sit in the bleachers, while some people who paid \$10 for a stadium ticket might see an important game like Oklahoma from the bleachers.

The Theta Xis are not willing to have either their pledges or actives give up any more seats, as their pledges have already given up their seats once.

A Sigma Phi Epsilon spokesman said that his house was not willing to give up its tickets.

Alpha Tau Omega Treasurer Roger Lytle brought a new question into the argument. He wanted to know if the fraternity or sorority which gives up their seats in the card section will lose their \$50 deposit if one of the houses who have the seats for a game do any damage.

At the Beta Theta Pi house, the pledges are willing to give up their tickets again, provided that it isn't the Oklahoma game.

The Sigma Chi's think that any rotation system would be totally inadequate, but if one were adopted, the majority of the house might go along with it.

A straw vote was taken at the Sigma Alpha Epsilon house and the individual voluntary rotation system was approved with the exception of the Oklahoma game. As for the entire block system, the impression was generally unfavorable.

Regents Winners To Be Honored

The 51 four-year Regent scholarship recipients at the University of Nebraska will be honored by Chancellor Hardin and the Board of Regents at a special recognition dinner Friday evening.

The event, scheduled for the Pan American room at the Union, is planned to give the Board and executive officers of the University an opportunity to get acquainted with the top freshmen students.

Eldon Teten, director of scholarships and financial aids, is in charge of planning the event.

Judges are Diane Armour, president of Tassels, Bill Buckley, president of the Innocent's Society, Miss Norma Griffin, Tassels' advisor, Dennis Claridge and John Kirby, Husker football co-captains, and Dr. Robert Manley, professor of history.

Candidates and interview times are: Claudia Westphalen, Towne Club, 6:35; Joan Skinner, Alpha Chi Omega, 6:42; Lorraine Sarupson, Independent Women's Association, 6:49; Linda Bukacek, Alpha Delta Pi, 6:56; Jeanette Hake, Burr Hall, 7:03; Janee Benda, Alpha Omicron Pi, 7:10; Joan Phipps, Independent Women's Association, 7:17.

Becky Yerck, Alpha Phi, 7:24; Evonne Agena, Pound Hall, 7:31; Sandy McDowell, Alpha Xi Delta, 7:38; Mary Ann Kirkpatrick, Independent Women's Association, 7:45; Jill Journey, Chi Omega, 7:52; Betty Heitsch-

sen, Fedde Hall, 7:59; Susan Armstrong, Delta Delta Delta, 8:06; Lorene Geiton, Pound Hall, 8:13; Polly Brown, Delta Gamma, 8:25; Carolyn Perkins, Independent Women's Association, 8:32.

Carol Bieck, Gamma Phi Beta, 8:39; Ann McGuire, Love Memorial Hall, 8:46; Mary Morrow, Kappa Alpha Theta, 8:53; Kay Livingston, Pound Hall, 9:00; Gwen Dierking, Kappa Delta, 9:07; Nancy Steiner, Independent Women's Association, 9:21; Carol Klein, Independent Women's Association, 9:28; Bonnie Knudson, Pi Beta Phi, 9:35; Connie Wall, Pound Hall, 9:42; Meria Cook, Sigma Kappa, 9:49; and Karen Farrell, Zeta Tau Alpha, 9:56.

Interviews will determine Ten Homecoming Finalists

Ten Homecoming queen finalists will be selected at interviews Wednesday, Oct. 9.

The girls must display loyalty, spirit, and service to the University and will be judged on poise, personality, scholarship and activities, according to Cindy Tinan, Tassels Homecoming chairman.

Bill Ewald, Squadron Information Service Officer, said that the requirements are a 5.5 overall average, sophomore standing or higher in Air Force ROTC and a recommendation from a member of the society. Most of the eligible candidates have received letters informing them about the society.

Dr. McConnell said that the course is more rigorous than in past years and students will be required to read more material. He added that receiving a course by TV places more responsibility of understanding material on the student.

Dr. McConnell said it will not be possible to know how well the TV series works until a really scientific study of results is made. He said that students taking the course will be compared to students who have taken the course by conventional lecture.

He added that lecturing before a camera is certainly new to him also, and complimented the staff of the TV studio on their ability to adjust to his inexperience. He mentioned that he lectures as he would in a classroom making no use of elaborate visual aids.

John Lamont, one of the graduate assistants in charge of the voluntary tutorial sessions, was pleased with the response to the early sessions. He felt that for most students the group counseling was preferable to individual counseling since students can hear other questions answered which they had not thought of themselves. He commented that the TV series by reducing the teaching load of the graduate students allows them more time for work on graduate degrees.

For appointments phone the Cornhusker office, 477-8711, ext. 2586 or 2587. An questions concerning scheduling pictures should be referred to Panel Editor Bette Schabel, at 423-6281.

## Hardin Addresses Education Council

Chancellor Clifford Hardin said future American foreign educational programs should encourage new nations to make full use of their own college facilities.

In an address to the American Council on Education in Washington, D.C., last Thursday, he suggested that new nations soon should be able to serve more of their own and neighboring students.

This development, he said, can benefit the new foreign colleges and also relieve pressure on the staffs of American universities participating in U.S. sponsored foreign educational programs, especially those supported by the Agency for International Development (AID).

Chancellor Hardin said American universities have been able to cooperate in government education programs abroad "without great sacrifice at home."

But, he added, increasing requests for faculty services in other foreign assignments, both public and private, require more careful use of faculty personnel in the future to avoid development of a pinch on domestic educational programs.

He also reported that AID is budgeting \$36 million a year for all of its foreign university program contracts—a sum which he said compares with the amount needed to staff only one medium-sized U.S. university.

Chancellor Hardin said American universities have benefited from their experience in international education, but added that U.S. universities in the future should have a greater voice on policy matters involved in foreign educational programs.

## Union Sets Interviews For Posts

Assistant chairmanships on the public relations committee and contemporary art committee of the Nebraska Union are open to interested students.

Interviews for the positions will be at 6:30 p.m. Tuesday. Students may sign up in the Union Program office. Requirements for the position include sophomore standing, above six months of Union experience at some time in their college career and a required grade average.

The public relations assistant will do publicity for all Nebraska Union committees and be in charge of the "Get to Know You Jamboree," International Student Week in December, the freshman pamphlet, and help in the Activities Marts.

Working at the art lending library and with art exhibits will be included in the duties of the contemporary art assistant.

## WAA Sports Emphasized

The Women's Athletic Association (WAA), is holding an Emphasis Week, according to Connie Rasmussen, WAA publicity chairman, in order to help University women become better acquainted with the group and its functions.

The Emphasis Week will start today and will last through Friday. During that time skits will be presented in living units, "do not disturb" signs will be distributed, freshmen booklets handed out and preference sheets signed.

Every girl will be asked to sign up for the sports in which she is most interested. A long list of sports will be offered, according to Miss Rasmussen, including co-rec volleyball, freshman soccer baseball, basketball, archery, volleyball, badminton, riflery, swimming, soccer baseball, Nebraska ball, tennis, bowling, softball and table tennis.

"The purpose of this sheet will be to involve more people in the program," said Miss Rasmussen.

## Kappa Sigma Establishes Career Conference Series

Director of Placement Frank M. Hallgren and Dr. Roland F. Mueller, Lincoln surgeon will speak tonight at the first of a series of Kappa Sigma Career Conferences.

The purpose of the conferences, to be held the first Monday of each month, is to "familiarize the men in the house with professions and opportunities available to them as college graduates," according to Bill Harding, Kappa Sigma public relations chairman.

Kappa Sigma president John Zielinger said "It is hoped that the program will supplement classroom education by making the men more cognizant of the practical application of their college education."

Dean Hallgren congratulated the fraternity on the plan, describing it as "a fine program to assist their members in learning more about the careers open to college men." Hallgren added, "Such a program is in keeping with the educational program of a college fraternity."

Dr. J. Winston Martin, associate dean of student affairs, viewed the program as "an excellent way for the students to find out from those in the business world what it is like not only in their chosen field but in other areas as well."

## Pub Board Names Four

The Subcommittee on Student Publications filled four Daily Nebraskan staff positions, last week.

Pub Board chose two junior staff writers, Jerri O'Neil and Jerry Hofferber; a senior staff writer, Frank Partsch; and a copy editor, Cay Leitschuck.

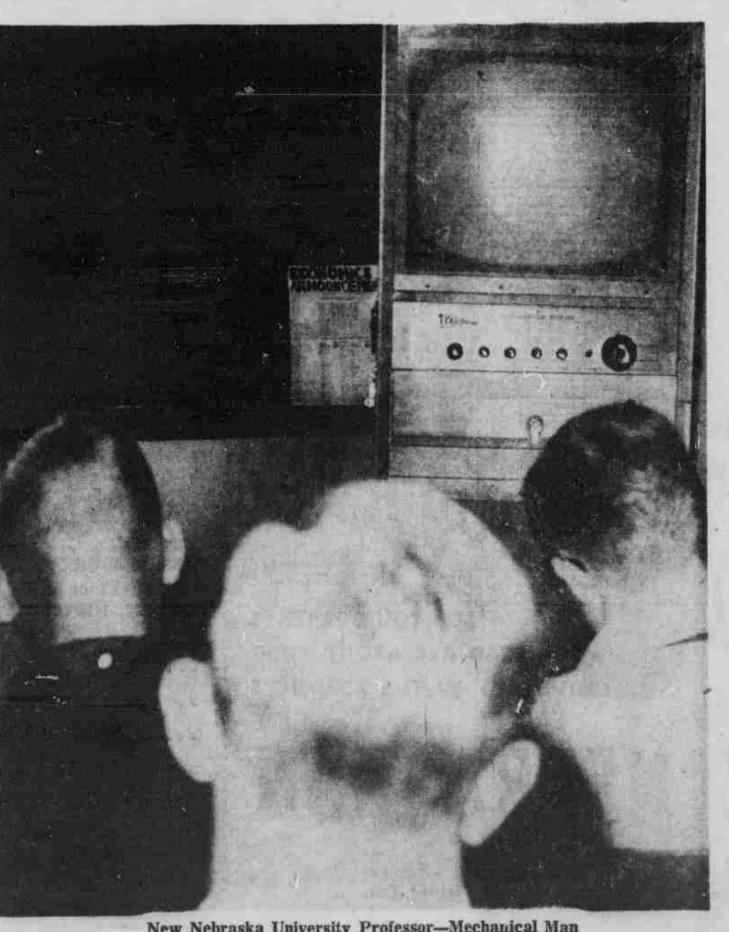

Miss Leitschuck, a member of Gamma Phi Beta, is a sophomore majoring in English.

Partsch is a sophomore in pre-med. He is a member of the Residence Association for Men and has been a Nebraskan junior staff writer since the beginning of the fall semester.

Miss O'Neil, an Alpha Xi Delta pledge, is a junior majoring in history. She is a transfer student from Immaculata Junior College in Washington, D.C.

Hofferber, is a sophomore journalism major.

## McConnell Lecturing Via Closed Circuit TV— Nine Sections Of Ec. 11 Get TV Lecture

New Nebraska University Professor—Mechanical Man

By Tom McGinnis

Approximately 530 University students are receiving their Economics 11 lectures over closed circuit television this semester.

Students in nine Economics class sections watch Dr. C. R. McConnell's lectures three times per week by means of TV receivers in their regular class rooms. Dr. McConnell delivers his lectures at 8 a.m. at the University TV studio before twelve students who are to add a classroom atmosphere and the television camera.

The fifty minute lectures are put on TV tape, which records both sound and picture and plays them during the day for the other sections. The magnetic tape which costs \$200 per roll can be erased and used over again.

Graduate assistants are present in the lecture rooms to take roll and make sure the TV receivers are working properly.

The economics department has supplemented the course with individual counseling and group tutorial sessions. The group sessions are being used for the first time on an experimental basis. Students can voluntarily attend the sessions and cover a prepared agenda, including self help quizzes. In these sessions students have an opportunity to have their questions answered by graduate assistants.

Commenting on his TV lec-

tures, Dr. McConnell said that the course is more rigorous than in past years and students will be required to read more material. He added that receiving a course by TV places more responsibility of understanding material on the student.

Dr. McConnell said it will not be possible to know how well the TV series works until a really scientific study of results is made. He said that students taking the course will be compared to students who have taken the course by conventional lecture.

He added that lecturing before a camera is certainly new to him also, and complimented the staff of the TV studio on their ability to adjust to his inexperience. He mentioned that he lectures as he would in a classroom making no use of elaborate visual aids.

John Lamont, one of the graduate assistants in charge of the voluntary tutorial sessions, was pleased with the response to the early sessions. He felt that for most students the group counseling was preferable to individual counseling since students can hear other questions answered which they had not thought of themselves. He commented that the TV series by reducing the teaching load of the graduate students allows them more time for work on graduate degrees.

Dr. Stuart A. Hall, chairman
