# Daily Nebraskan

Vol. 77, No. 43 The Daily Nebraskan Friday, December 20, 1963

## CAMPUS . . .

**IFC APPROVES POLICY** regarding discrimination as it affects the fraternity system. The letter states that Interfraternity Council (IFC) does not follow a policy of discrimination along the lines of race, creed or color. The IFC responsibility must lie with the individual chapter and individual national fraternity.

**STUDENT PARKING AREA TWO** will be relocated during the Christmas holidays because of the construction of the new men's dormitory. The new lot will be accessible from Vine at about 18th Street.

**PROFESSORS CONDUCT FORUM** on the assassination of the late President John F. Kennedy. They termed the assassination a double edged sword. The first part, being a great tragedy, caused the upheaval of normal life, but the second part caused society to come closer together.

## CITY . . .

**PEDESTRIAN RIGHT-OF-WAY** in the crosswalks ordinance was approved by the City Council. It provides that motor vehicles "shall yield, by slowing down or by stopping if need be, to a pedestrian crossing in a crosswalk" where traffic is not regulated by signals or a police officer.

**MORE RAILROAD SIGNALS** are needed in Lincoln said City Traffic Engineer Robert Holsinger. The discussion came after a recent series of train-car accidents.

## STATE . . .

**MORRISON PROMISES CONTINUATION** by the state into reasons for declining cattle market prices, and their failure to be reflected in retail meat prices, and that its finding will be submitted to the federal government.

**STATE RETIREMENT SYSTEM** faces a case challenging its constitutionality in Lancaster District Court. A temporary restraining order has enjoined the enforcement of the system which was scheduled to go into effect in January.

**NEBRASKA POWER REVIEW BOARD** was told that the Nebraska Public Power System does not have the transmission capacity needed to bring in all the U.S. Bureau of Reclamation power which has been requested for 1966.

## NATION . . .

**FARM SPLIT REMAINS** despite an urging from President Johnson that national farm leaders bury past squabbles and help develop new programs to cut surpluses, boost wheat prices and relieve rural poverty. In new legislation Johnson wants to cut cotton surpluses and head off a scheduled drop in wheat price supports.

**DEFENSE SECRETARY McNAMARA** warned the Soviets that the U.S. atomic arsenal was now of such size that the United States could absorb a full-scale surprise nuclear attack and still smash the Soviet Union. He gave the warning at the close of the winter session of NATO as the countries appealed for a true easing of East-West tensions.

**RUSSIANS RECEIVE BACKING** of U.S. Secretary of State Dean Rusk in their struggle with the Chinese communists. Speaking to the NATO Ministerial Council, Rusk urged the western allies to help the Soviets. He pointed out that the West has a much better prospect in Moscow's peaceful coexistence than in Peking's militancy.

## Coeds Freeze Now, Swim Later

**FOOTBALL SPIRIT**—Not even a snowy field and below freezing temperatures can keep Christie Brehm, left and Jill Journey from participating in pre-Orange Bowl antics.

## 'Informal' Does Not Mean Grubbies, Tennies In Miami

By SUSAN SMITHBERGER Senior Staff Writer

Students are beginning to frantically contemplate exactly what to cram into the small spaces of a suitcase to take to the big game in Miami. Some are at a loss as to the weight of clothing worn there and temperatures to expect.

"The people down there dress informally," said a representative of a Lincoln travel agency. "They do not dress real formally." It should be clarified that informally does not have the connotation of grubbies that it does here on campus. The residents do wear short sleeved shirts and bermudas a lot.

"I would recommend light weight woollens and summer clothes," said a representative of another Lincoln travel agency. "This does not mean white shoes."

The men should take light weight summer suits, according to the representative. "They wear bermudas a lot on the beach but not in Miami proper," she said. "Students should remember that Miami has the jump on next summer's fashions."

said the representatives. "They should leave a little extra room in their suitcases and take a little extra money to purchase a few summer clothes."

"I would think they would want to wear a light weight wool suit to the game," she said. "They will probably need a sweater or maybe a light wrap because it gets cooler in the evening."

The temperatures there will be around 65-70 degrees during the day and cooler in the evening. Students will of course want to take a swimming suit for a free, mid-winter dip in the salty ocean. Those wishing to stay away from the sand and salt may find a swimming pool at their hotel.

Students desiring to take part in night life should take something dressy, otherwise formal wear will not be required. The women there do not wear sun-back dresses either in the evening or during the day.

Concerning the 40-pound limit on baggage of students going by plane, one big suitcase and an overnight case

should meet the requirement. Oh yes, a Spanish dictionary receives a big "si."

## Copying Machine Prevents Mistakes, Works Rapidly

One of the latest developments in photocopying machines, the Xerox Photocopying Machine, has become useful for students and faculty here.

According to Lloyd Osterman, administrative librarian, the machine, which is leased from the Xerox Company, is saving time and preventing mistakes that students and faculty may make if they would copy the material themselves.

"Graphs, charts, articles, lists, notes and other material can be reproduced accurately and inexpensively by the photocopying machine," Osterman said.

The machine has been in Love Library since March. In that time, according to Osterman, it has proved its worth to the students and faculty by doing five times as much work as it did the first few weeks after it was leased.

Osterman explained the principle the machine works on is that of ion exchange. It employs lenses, ion exchange, and black plastic dust which melts to produce the black on white figuration that is reproduced by the machine. Heat used to melt and fuse the black plastic dust on to the copy paper.

**COPYING MACHINE** — Mrs. Curtis Mayo demonstrates Love Library's Xerox photocopying machine. The machine was leased last March and has been used by students and faculty for quick, accurate copying of all sorts of printed material.

## Regents Discuss Control Changes In State Schools

By Frank Partsch Senior Staff Writer

The University Board of Regents met with the members of legislative committee on higher education yesterday and discussed the advisability of changing the present form of University and State Teachers College control.

Sen. Marvin Stromer, chairman of the committee, announced that his committee has undergone a comprehensive study of the types of control used in other states and is in the process of meeting with the boards concerned to evaluate their opinion on the matter.

He said that in order to make a change, if any, the legislature must have a firm basis for the reorganization.

Regent Val Petersen indicated that the new board, if created, must be a far-seeing project rather than a temporary union of the two present boards. "Perhaps we should abolish both boards and start all over," he said.

The question was raised as to whether a reorganization of the higher educational system in the state should include junior colleges. Both Petersen and Chancellor Clifford Hardin indicated that this would be undesirable without more state support of these institutions.

As to whether a new board should be elected or appointed, the opinion was not clear. As Petersen put it, "The answer varies with the wind." He indicated that the question is whether a position

on the board should be above politics or if it should rest closer to the voters.

He added that Nebraska governors have no history of direct control of higher education.

In the business meeting which followed the discussion, the Board approved low bids totaling \$3,439,896 for the construction of a new dormitory, which will be ready for occupancy in 1965. The Regents expressed delight at the lowness of the bids and the quality of the plans for the building.

**Business Manager Carl Donaldson** announced that the new dormitory will have a 12.8 per cent increase in student room space over the units planned in 1961.

Other increases in space

listed by Donaldson were 12 per cent, corridors; 77 per cent, upstairs; lounges 345 per cent, main floor lounges and 42 per cent, recreational areas.

The Regents approved an agreement whereby the Nebraska Educational Television Commission will reimburse the University for services involved in the operation of the ETV network, including staff members of the University and other services.

## Coeds May Apply For Graduate Aid

The Lincoln Branch of the American Association of University Women is offering a \$500 post-masters graduate fellowship for the '64-'65 academic year.

Applications must be submitted by Feb. 15, 1964, to Gertrude E. McEachen, 316C University High School.

Application blanks and information may be obtained at the University Graduate Office, 306 Administration, the Advanced Professional Division, 103 Teachers College, or from Miss McEachen.

Applicants will be judged on the basis of scholastic record, recommendations submitted, professional objectives and promise and financial need.

## Junior IFC Tickets Offered After Vacation

Tickets for the Junior Interfraternity Council (Jr. IFC) Ball will go on sale Monday after vacation.

The Ball will be held Friday, Jan. 17, at the Lincoln Hotel. The Bud Holloway Band will provide the music for the semi-formal affair.

Tickets may be purchased for \$1 from any Jr. IFC representative.

Interviews for the Jr. IFC Queen, to be presented at the Ball, will be held Jan. 8 and 9 by the executive and social committees of Jr. IFC.

## Seniors To Take Teachers Exams

College seniors planning on teaching school will be able to take the National Teacher Examinations Feb. 15, 1963.

Scores on these tests are used by many large school districts for employing new teachers, and by several states for granting teaching certificates or licenses. Lists of school systems which use the examinations are being distributed to colleges educating teachers.

At the full-day testing session, future teachers are examined on their professional knowledge and general educational background, as well as on mastery of the subjects they expect to teach.

Prospective teachers should contact the school systems in which they seek employment, or their colleges, for specific advice on taking examinations, according to Educational Testing Service.

Bulletins of information containing registration forms and more information can be obtained in 101 Teachers College.

Registration closes Jan. 17, 1964.

## Fruhling Wins Hearst Prize

Larry Fruhling, a senior in Journalism, received fourth prize in the first monthly William Randolph Hearst National Writing Competition. Fruhling received his award for an article which he wrote during his junior internship with the Miami Herald. He received 300 dollars.

Six Gold Keys were awarded to the first year journalism majors who had the highest averages in their class. This award has been awarded since 1946.

The winners and their averages were Virginia Guenzel, 8.189; Mona Morris, 8.188; Diane Stephenson, 7.710; Peggy Speece, 6.889; Marilyn Hoegemeyer, 6.833; and Wallis Lundeen, 6.800.

These awards are presented by the Lincoln Star and the Lincoln Journal.

## Vacation Weather Roundup

"I'll be home for Christmas" is today's top song, to here's a summary of the nation's weather forecast for all travelers.

Fair skies and cold weather are predicted for the eastern half of the nation.

The Great Lakes and upper Ohio valley will continue to have snow flurries with locally heavy snow squalls in the vicinity of Lake Superior and the lower lakes region.

Much windy weather is forecast for the East Coast.

The plains region will have fair to partly cloudy skies with drizzle in parts of the southwestern plains.

Indications for the central Rockies northward call for snow flurries in the mountains. The plateau region will have light rain or snow.

Rain is expected along the north Pacific Coast today.

Colder weather is in store for central and northern Florida and parts of the southern plains and central plateau.

Slight warming will take place from the central Rockies eastward to the Mississippi River.

In other parts of the nation fair skies and little change in temperature will predominate.

# MERRY CHRISTMAS
