

Panhellenic Proposes New Plan

Officers' Councils To Meet Bimonthly

Panhellenic Council recommended a form of reorganization in its Monday meeting.

The plan was taken to sorority houses Monday night and the votes will be reported back to the Council at the next meeting.

The plan calls for the addition of officers' councils to meet twice a month. There would be six new councils, one each for the presidents, standards chairmen, pledge trainers, scholarship chairmen, rush chairmen and for the activities and social chairmen. The activities and social chairmen would alternate meetings.

The purpose of these councils would be to discuss mutual problems and to make recommendations to the Panhellenic Council.

The plan is intended to make the Panhellenic more of a unifying group, according to Susie Walburn, president.

The Panhellenic Council will remain unchanged. Chairmen of the officers' council would be Panhellenic delegates appointed according to interest and experience. Delegates not serving as chairmen of councils would comprise the regular Panhellenic committees.

An alternate plan would provide for the chairmen of the council elected from the councils with Panhellenic delegates serving as advisors.

It was pointed out that if the councils did not feel that meetings needed to be held that frequently, they could set up meetings as often as they felt was necessary.

The plan would go into effect with the new officers.

Moot Court Victors Told

Winners of the Law College sophomore moot court held in the three weeks before Christmas vacation have been announced.

The six pairs of winners are the following: Richard Schmeling and David Shepard, Vincent Dowding and Jerome Hoffman, Gregory Brady and Thomas Henley, Kenneth Keens and Byron Sallesen, John Musselman and Lloyd Hoppner, and Arlen Beam and Larry Carstenson.

Beam and Carstenson won the whole sophomore round.

The Law College's moot court consists of pairs of students arguing before a pretend supreme court. They write their own briefs and argue for a half hour before a panel of three judges.

All Law College sophomores are required to take part in this court. The winners were selected out of 42 students.

There are two moot courts held in the sophomore year and a final one held in the senior year. Winners of the first two courts may take part in later ones.

Interviews to be Held

Frank Hallgren, director of University Placement Service, has announced the following on-campus interview schedule for senior students during the remainder of this week and the week of January 13.

Interviews will be held at the Placement Office 340 Student Union.

WEDNESDAY, JAN. 7—General Motors Corp., students receiving B.S. in E.E., M.E., E.E., I.E., engr. sci., chem., math and physics.

THURSDAY, JAN. 8—Omaha Public Power District, students receiving B.S. in E.E. and M.E.

FRIDAY, JAN. 9—General Motors Corp., students receiving B.S. and M.A. in accounting, man-

Bowl Win Stirs Cheers, Celebration

HUSKER VICTORY DANCE—Happy Jean Barber and Sally Jones led the Nebraska Cheerleaders and Pom Pom Girls in a rousing sideline victory dance after the Husker's dropped Auburn, 13-7, in the New Year's Day Orange Bowl classic in Miami. It was Nebraska's first Orange Bowl win.

Hardin Congratulates Nebraskans In Miami

Chancellor Clifford Hardin

Tuesday issued this statement concerning the showing of NU students at the Orange Bowl in Miami.

"Congratulations, not only to the members of the 1963 Big Eight Conference Champion Cornhuskers and their coaches, but also to all of the University of Nebraska representatives who were such excellent ambassadors of our University and State at the Orange Bowl. Every participant—the football team members, the members of the first-place relay team, the bandsmen, Miss Burns, the pompon girls, cheerleaders—everyone—earned a special 'thank you' from Nebraska.

A special congratulation is due Gil Gebo who was selected for one of three major individual awards presented to outstanding performers at the Orange Bowl track meet where teams from 14 universities and colleges competed.

Council Poll To Determine Campus Drinking Situation

The Student Council public opinion poll booth will be open all day today in the Student Union for anyone who wishes to fill out a questionnaire for the Student Council's drinking survey, according to Mike Barton, public relations chairman for Student Council.

Barton said that about 1500 of the forms, which include questions on students' drinking habits and opinions, have been distributed to all living units on campus. Anyone not receiving one of these polls may clip the form from today's DAILY NEBRASKAN and turn it in to either the booth in the Union or the Student Council office.

No report on the content of the forms will be made at this week's meeting, said Barton, due to the time required to process and evaluate the information therein. He added that he has read some of the opinions already returned and most were "forthright and serious, or at least candid."

Following the general poll the Council will conduct a random sample consisting of 100 of the forms mailed to representatives of various living units distributed according to what percentage the unit makes up of the total student body.

"The random sample will be a validity check," said

Barton. "If it correlates with the general poll it would tend to validate the results of the general poll as representatives of the entire student body."

Barton explained that approximately one half of the forms in the random sample will go to unaffiliated Lincoln students, who make up about half of the student body.

In explaining the roll of the Council in the drinking problem, Barton said, "This survey is not intended to be a conclusive, definitive study of college drinking habits, worthy of publication in a sociological journal."

Junior Panhell Sock Collection Termed Success

The Junior Panhellenic Council collected 620 pairs of socks just before Christmas to give to the Lincoln Community Emergency Fund, according to Sally Morrow, publicity chairman.

The Fund is for underprivileged families.

"We felt that the drive was very successful," Miss Morrow said. "I think it would have been even better however if it had occurred at a time other than Christmas."

Funds Cancelled; Research Work To Cease In Ag

Because of lack of federal funds, the University's research projects in the Ag Research Program will be discontinued, according to Pearl Finnigan, state director of Agriculture.

Finnigan stated that \$89,000 will be withheld by the federal government. This sum is the death blow that is being dealt to the research projects, he added.

Editors Alter Award Policy

The Daily Nebraskan will not present its outstanding Nebraskan Awards this semester, according to editor Gary Lacey.

In the past, outstanding students, teachers and administrators were chosen from nominations at the end of each semester to be honored at an awards luncheon.

"A vote of the editors of this semester's Daily Nebraskan revealed that they feel that the award should be given on a yearly basis instead of being given every semester; the winners will now be announced in the spring," said Lacey.

Finnigan said, "We have given the University a six month notice in advance to July 1, 1964. This is to prevent the University from starting any new research projects and then having to discontinue them in the middle."

Financial aid will continue until that date, Finnigan added.

He said that he first received notice of the cancellation of federal funds in a letter from Orville Freeman, Secretary of Agriculture. The letter was dated Dec. 1.

Dr. Herbert Kramer, director of University experimental stations, said "This means we must close the projects out completely. We have no other alternative. We shall attempt to publish what information is available at this stage of research, and will place our plants in cold storage with hopes that financial support can be secured before we lose the seed."

Kramer yesterday refused to comment further on the situation or to divulge any names of those researchers

who are involved. He did say, however, that the researchers will be placed in new positions on the staff.

The Ag Research Program which has attracted nation wide interest figured highly in Governor Morrison's last campaign program. He made no mention of it at the Jefferson-Jackson Day Dinner in Omaha, when he announced his plans for the next election.

Finnigan made no statement concerning the status of extensive research projects under contract with Midwest Research Institute, Kansas City, Mo., Foster D. Snell, Inc. of New York, or other research programs in progress.

Worksheets Due Soon For Junior Division

Junior Division students must have their worksheets turned in tomorrow if they want to register early, according to Dr. F. W. Hoover, registrar.

He said that failure to turn in worksheets means that these students must wait until Feb. 7 to register.

NU Seeks Property For Music Building

The University has asked the City of Lincoln to vacate a half block of 11th street south of the campus between R and the alley north of Q street, for construction of a University music building.

University Business Manager Carl Donaldson said the request is made contingent upon the University's acquisition of three lots facing 11th street west of the present music building.

The 1963 Legislature appropriated \$1.5 million toward the construction and equipment of a new University music facility.

If the city will permit 11th street to be closed as requested, Donaldson said the University would pursue negotiations for purchase of property on the west side of 11th and develop plans to place the new building in that area and the present music building site.

The University now owns about a half block on the east side of 11th where the present music building, constructed in 1896, is now located. This area, however, is considered too limited for a new structure, Donaldson said.

Donaldson said he made the University request for vacation of 11th street in a letter to Mayor Dean H. Petersen under date of December 31.

Junior IFC To Interview For Ball Queen Finalists

Interviews for the Junior Interfraternity Council (Jr. IFC) Queen will be held in the south party room of the Student Union tonight and tomorrow evening.

Five finalists will be chosen by the Jr. IFC executive and social committees and will be presented at the Jr. IFC Ball.

The candidates, their sororities, the fraternities they represent and their interview times are:

Wednesday: Barb Atkinson, Pi Beta Phi, Sigma Alpha Epsilon, 7:10; Kay Johnson, Kappa Alpha Theta, Chi Phi, 7:20; Diana Focht, Pi Beta Phi, Phi Gamma Delta, 7:30; Kathy Bensinger, Alpha Xi Delta, Beta Sigma Psi, Jane Miller, Kappa Alpha

Theta, Alpha Gamma Sigma, 7:50; Pam Wilson, Kappa Kappa Gamma, Triangle, 8 p.m.; Kathy Glade, Delta Gamma, Theta Xi, 8:10; Diana Heckman, Kappa Alpha Theta, Alpha Gamma Rho, 8:20; Diane Smith, Alpha Phi, Delta Upsilon, 8:30; Barb Snith, Kappa Alpha Theta, Beta Theta Pi, 8:40; Carolyn Rankin, Pi Beta Phi, Kappa Sigma, 8:50.

Thursday: Mary Lynn Alberding, Alpha Phi, Alpha Tau Omega, 7:10; Jane Schmadeke, Delta Gamma, Sigma Chi, 7:20; Regina Miller, Pi Beta Phi, Phi Kappa Psi, 7:30; Joanne Renier, Kappa Alpha Theta, Sigma Nu, 7:40; Claudia Ostwinkle, Delta Gamma, Acacia, 7:50; Bea Baxter, Alpha Chi Omega, Sigma Alpha Mu, 8 p.m.; Bonnie Satorie, Pi Beta Phi, Delta Tau Delta, 8:10; Donna Staberg, Zeta Tau Alpha, Sigma Phi Epsilon, 8:20; Nancy Hoffman, Kappa Alpha Theta, Farmhouse, 8:30; Carol Johnson, Alpha Omicron Pi, Pi Kappa Phi, 8:40; Susan Cunningham, Kappa Alpha Theta, Phi Delta Theta, 8:50.

Firemen Fight Blaze Near Love Library

A cigarette thrown into the steam tunnel north of Love Memorial Library might have been the cause of yesterday's fire there, according to Campus Police and the Lincoln Fire Department.

The Lincoln Fire Department fought the blaze with two fire engines and a truck for approximately 25 minutes before extinguishing the fire.

NU Accomplishments Mark 1963

Growth and accomplishments of the University came into sharp focus during 1963, but there were sobering implications for the immediate future of higher education in the state.

Most spectacular was the all-time record enrollment of 11,450 students for the fall semester—over 1,000 more than a year ago and over 2,000 more than in the fall of 1961. At this rate, the University's enrollment could approach the 20,000 mark in the early '70's.

Along with enrollment, the University building program provided visual evidence of steady growth in the physical plant. Buildings com-

pleted during the year included:

—Dormitories housing 967 students named in honor of two famous Nebraskans—Louise Pound and Willa Cather.

—Sheldon Memorial Art Gallery which attracted 65,000 persons during the first six months of operation. The Gallery is located at the site of the old chemistry building and near the former administration building which housed seven chancellors.

—Poultry complex at the College of Agriculture and Home Economics which provides facilities for research under controlled conditions.

Construction is proceeding on the new Behlen Physics

building, an agricultural library and bids were let for another student dormitory. Workmen are remodeling Nebraska Hall and adding to the power plant.

Other University highlights of 1963:

—Nebraska's football team won the Big 8 championship and received an invitation to play Auburn in the Orange Bowl on New Year's Day.

—E. W. Janike was named dean of Extension in addition to director of the Agricultural Extension Service. Dr. Knute O. Broady, veteran director of the Extension Division, retired during the year.

—The Department of

Home Economics was elevated to a School of Home Economics and the title of the College of Agriculture was changed to include Home Economics.

—The Eppley Institute for research on cancer and allied diseases was dedicated at the College of Medicine in Omaha.

—More than \$5 million in research and training grants were received by the University in fiscal 1962-63.

—A new method of teaching English to small children developed at the English Curriculum Center drew praise from educators throughout the nation.

—Through cooperation of

a research team, the department of electrical engineering and the College of Medicine, progress was made in recording heart activity to aid diagnosis of heart ailments.

—Agronomists continued work on hybrid wheat after obtaining the basic genetic tools a year ago. Other scientists continued the battle against corn rootworms and Dutch Elm disease which is spreading across the State.

—More than 1.3 million persons attended meetings conducted by University Extension specialists and county agents throughout the State.

—A livestock judging

team won the contest at the American Royal in Kansas City for the first time since 1938.

—A new 1410 IBM computer was installed at the Computing Center to meet the needs of professors and students in nearly every college.

—Enrollment at the College of Agriculture and Home Economics increased 15 per cent—the largest percentage increase of any similar college in the nation.

—The University inaugurated an exchange program with El Colegio de Mexico. Several Nebraska students took part in the exchange program this year.
