

Xavier Bans The Bunnies Protesting Playboy Club

The Cincinnati Playboy Club is still going strong despite efforts of some Xavier University students to picket it.

Seventeen students marched nightly following the club's opening last month, objecting to the presence of the key club because of its connection with Playboy Magazine. They described the magazine as "pornographic trash."

Most of the first-nighters ignored the pickets and went on into the club. One fur-clad matron, however, read the picket signs, grabbed her husband by the arm, and marched him back to the car.

Xavier's Student Council voted against officially sanctioning the efforts of the picketing group and the playboys played on, but the band of volunteers vowed to continue their boycott efforts.

The boys and bunnies at University of Iowa will use a mechanical matchmaker in an attempt to solve their compatibility problems.

A computer dance will be held there on November 7. All students going to the dance will be required to take a personality test of 100 questions. The information will then be programmed in a computer. Each person will then be matched up with three partners during the evening.

The annual "Pancakeathon" at the University of Illinois has been held for this year and a new record has been set.

Tom Remic, an Illini freshman, won this year's contest by gorging himself with 32 and three-quarters buttermilk pancakes.

Tom and his opponent Ted Ralston had a hard-fought battle. They were to eat at least 10 pancakes within each hour and were given six hours to complete the contest. They could only drink water and were allowed five minutes rest each hour.

After two hours, the contestants were neck and neck as each had eaten 30 pancakes. However, Remic appeared to be slowing down and Ralston looked like a sure winner.

Soon however, Ralston was no longer at the table. He had excused himself. He had surpassed his capacity and wanted to be alone.

Contests furnished much entertainment at University of Minnesota as the Freshman

Welcome Week was held.

A special relay race was held in which freshmen were asked to carry water from a mucky lake, and put it, drop it, or spit it into a can. No containers were given to the freshmen, and they soon discovered that although not the most sanitary way, a mouthful was the most effective way.

Another contest required the freshmen to find their way through a forest while blindfolded. The game vaguely resembled a freshman's first week of classes on campus.

State Retail Sales Up Four Tenths From Last Year

Nebraska retail sales in August increased nearly one per cent from July and rose four tenths of a per cent from the same month a year ago, according to Business in Nebraska published by the University of Nebraska Bureau of Business Research.

General business activity was unchanged from August 1963 based on reports from 20 municipalities. General business activity includes bank deposits, building activity, retail sales, electricity and gas consumed, water pumped, postal receipts and newspaper advertising.

The Bureau reported a continuing increase in the dollar volume of business index and the physical volume indexes. The increases in the Nebraska physical volume indexes were greater than those for the U.S. as a whole.

Campus Calendar

TODAY

MEDIA CONFERENCE EUGENE ZUCKERT, 12:15 p.m., 235 Student Union.

PLACEMENT LUNCHEON 12:30 p.m., 241 Student Union. LUNCHEON FOR EUGENE ZUCKERT 12:45 p.m., Pan American Room in Student Union.

NEBRASKA ALUMNI ASSOCIATION 3:30 p.m., 240 Student Union.

JUDGES FOR HOMECOMING DISPLAYS 7:00 p.m., 240 Student Union.

PALLADIAN LITERARY SOCIETY 7:30 p.m., 332 Student Union. MOVIE "PAL JOEY" 7:00 p.m., Student Union Auditorium.

TOMORROW

COFFEE HOUR Immediately after game, Pound, South Lounge.

OPEN HOUSE 4:30-6:30 p.m., Pound.

ORGAN RECTAL by Harry Kelton, 8:00 p.m., Westminster Presbyterian Church.

SUNDAY

PEOPLE TO PEOPLE American Student Orientation, 2:30 p.m., Student Union.

UNIVERSITY BABY SITTING SERVICE in the downstairs conference room of the Union, from 1 p.m. to 5 p.m. Cost is 50 cents per child.

Weekend Features NU Victory Dance

A highlight of the weekend will be the Homecoming (victory) Dance at Pershing Auditorium featuring the music of Maynard Ferguson. Other highlights you will have to find on your own.

TODAY

PHI DELTA THETA house party, 9 p.m. to midnight. SEATON I AND GUSTAVSON III mixer, Selleck TV Lounge 8 p.m. to 11 p.m.

'Soybean Loss Isn't Necessary'

Delbert Lane, extension agricultural engineer at the College of Agriculture and Home Economics, says that a large percentage of soybean losses before and after harvesting isn't necessary. When conditions are right and equipment is in good shape and properly adjusted, soybeans can be binned with very little loss.

Losses can amount to \$16 per acre when beans are selling at \$2 per bushel and are yielding 20 bushels per acre. Losses can be checked easily by counting the beans left on a square foot of ground. Four or five beans per square foot equals one-bushel-per-acre loss, Lane explained.

Low Calf Crop Per Cent Means Major Beef Loss

Assistant Professor of Animal Science Dr. Donald Clanton said that the low calf crop percentage represents a major loss to the beef cattle industry.

"The economic importance of this problem is readily apparent when one considers the size of the cattle population and the impact that even a small improvement would have on the industry," Clanton pointed out.

He added that improvement in the calf crop also represents a great opportunity to cut production costs.

University researchers, in a four year program headed by Clanton and Assistant Professor of Animal Science Dr. Dwane Zimmerman, are studying the relationship of energy intake by the heifer on subsequent calf production.

One hundred half-sister heifer calves will be used this season in the first part of the study, and an attempt will be made to acquire 50 pairs of identical twins for the second part of the study in 1966-1967.

"Most beef cow herds sustain the year round on native ranges," Dr. Clanton continued, "while others use pas-

tures and ranges part of the year and use hay the remainder. In either case "Dr. Clanton pointed out," major emphasis is placed on native forage and avoiding feed supplements."

Recent evidence indicates that adequate energy intake is necessary for good reproductive performance. "Little is known about the influence of energy intake on the endocrine function, and an understanding of these mechanisms would aid in the development of feeding practices which would support maximum reproductive performance."

Dr. Clanton outlined the overall objectives of the project as follows:

To determine the changes in post-calving endocrine function in the two year old beef heifer induced by high and low levels of pre-calving energy intake.

To determine the energy retention in the post-calving two year old heifer influenced by pre-calving energy intake.

To determine the relationship between endocrine function, energy retention and the interval from calving to first estrus (heat cycle).

University Celebrates

Among the names listed in the Builders Directory last year were Lyndon Johnson, Buster Brown, John Glenn, Douglas McArthur, Frank Morrison, Clifford Hardin and Mary Martin.

All were bonafide University students.

The ranks of the celebrities were joined this fall when Robert Frost enrolled as a freshman.

PLACEMENT INTERVIEWS

Monday, Oct. 19

Douglas Aircraft Co., students receiving degrees in C.E., E.E., M.E., E.M. and Physical; M.S., Ph.D.-Chem., Math and Chem.

Tuesday, Oct. 20

Standard Oil Co. of California, California Research Corp., students receiving degrees in B.S., M.S., E.E., E.M.; all degrees-Ch.E. The B.F. Goodrich Co., students receiving degrees in M.S., Ph.D.-Chem., Math, Physics, Ch.E., E.E., E.M.; time permitting, B.S.-Ch.E. and M.E.

Wednesday, Oct. 21

The College Life Insurance Company of America, students receiving degrees in B.S., B.A., M.S.-General Bus., Accounting, Finance, Lib. Arts. Employers Mutual of Wausau, students receiving degrees B.S.-Bus. Adm., Lib. Arts. Hooker Chemical Corporation, students receiving degrees in Ph.D.-Chem. (organic or polymer).

Thursday, Oct. 22

International Harvester Co., students receiving degrees in Bus. Adm., A.E., C.E., E.E., M.E. The Bendix Corp.-Kansas City Div., as above.

Friday, Oct. 23

U.S. Army Engineer Dist., Omaha Corps of Engineers, students receiving degrees in B.S.-C.E., E.E. and M.E. American Cyanamid Co., students receiving degrees in Ph.D., Post-Doctoral-Chem.

CLASSIFIED ADS

WANTED: Flexible hours as part-time Tupperware Home party demonstrator. No initial investment. 466-1778.

Four part-time students to work with cars. Schedule to fit yours. See Mr. Hemminger at Room 340 between 12 Noon and 3:00 P.M. Thurs. Oct. 15th, 1964.

Girl to share furnished apartment with T.U. and kitchen. 435-8008.

6 College men to work in pizza hut. Call Larry Kaiser for appointment 483-4601.

FOR SALE: Higgins 16-Double barrel Shotgun, Guitar, bicycle. For Students, Call 433-8500.

1959 Cushman Scooter-side car and screen. Thoroughly over-hauled, economical. 434-6986.

New hardtop to fit 1963-65 Corvette. 489-1601.

Framis twelve string guitar and case, less than 6 months old. Call 477-8240.

3) Ford, new tires, excellent running condition. Contact Mr. Cummins, Art Dept. Woods Building, Ext. 2631.

LOST: Ladies Bulova Watch, Keepsake. Reward. 432-7728.

LITTLE MAN ON CAMPUS

"WHEN TH' GOING GETS ROUGH WHY CAN'T YOU JUST PACE UP AND DOWN LIKE OTHER COACHES?"

CHEMISTS-B.S. M.S. & Ph.D.

Expanding utilization research program has created challenging career opportunities for basic and applied chemical research and development in diversified fields.

ORGANIC

Structure, synthesis, derivatives; basic and applied research.

PHYSICAL

Polymer structure; solution and solid state properties.

BIOCHEMISTRY

Proteins, enzymes, natural products; isolation, structure, and properties.

ANALYTICAL

Development and application of instrumental methods.
