Image Of Violin Changes

Many Nebraska youngsters are getting tired of the Little Lord Fauntleroy image associated with playing a violin, according to Dr. Louis Trzcinski, professor of stringed instruments at the University.

Trzcinski said the facts speak for themselves that the violin is coming into its own as a popular instrument for student musicians throughout the state.

In 1946 there were only 10 school orchestras in Nebraska. Today there are over 125 legitimate instrumental string groups in the state's schools, tangible evidence of results of the University's Nebraska String Plan and the efforts of school music teachers.

In Lincoln alone, 400 grade school children are learning to play a violin, cello or base. That is more than the entire state could boast 10 years ago, he said.

"But the problem of the image still remains," Trzcinski admitted. "Some parents

prefer to encourage their boys to play horns in bands, even though the youngsters have the talent, dexterity and desire to pursue the violin and orchestral music."

"Times are changing," he added. "The youngsters are a little more perceptive these days and are beginning to find out that the great string instrumentalists like Isaac Stern, Jascha Heifetz and Fritz Kreisler were strong-willed men with great sensitivity and strength."

The image problem is diminishing, particularly in Lincoln, he said. "Lincoln teachers like Gene Stoll, coordinator of instrumental music in the Lincoln school system, are in the forefront of fight and the number of children in the city playing the violin is testimony to their success," Trzcinski said.

Twenty Lincoln grade and high school string teachers are taking part in a series of workshops to discuss everything from the image of junior playing a violin to the best known methods of teaching the youngsters. The program is part of the University String Plan.

Gene Stoll explained that the group, headed by Trzcinski, meets every week with a number of University string professors including Emanuel Wishnow, chairman of the department of music, to review the latest methods research and brush up on their own playing techniques.

"Lincoln thus joins a list of Nebraska communities which have come a long way in presenting a better balanced music program in their schools," Trzcinski explained. The record also shows that Trzcinski, through the Nebraska String Plan, was responsible for starting community orchestras in McCook and North Platte, and has started string centers recently in the school systems of Beatrice and Grand Island.

Trzcinski said that through the University's String Plan, Nebraska is now one of the very few states in the nation where string teachers are attacking their problems by calling in experts from many fields of study including psychologists, educators, engineers and photographers.

"Few cities in the United States, including Boston, can be as proud of their grade and high school string teachers as Lincoln," he added.

Campus Calendar

TODAY
LUNCHEON John Howard Griffin, 12:30 p.m. Pan American Room, Student Union.
BUILDERS COLLEGE DAYS 2:30 p.m. 234 Student Union.
JOHN HOWARD GRIFFIN will speak 3:30 p.m. Student Union Ballroom.
STUDENT COUNCIL 4 p.m. Student Union.
TALENT FOR TEACHING 4 p.m. 200 Teachers College.
PANHELLENIC standards seminar 6:30 p.m. 235 Student Union.
INTER-COOP Council smoker 7 p.m. conference rooms, Student Union.
WILDLIFE CLUB 7:30 p.m. south party room, Student Union.

TOMORROW
STUDENT TRIBUNAL 5 p.m. 419 Administration.
PLAYBOY PHILOSOPHY YWCA seminar 7 p.m. south party room, Student Union.

Students Propose Parkland Project

Thirty University 3rd-year architecture students will present their proposal to turn the western periphery of Lincoln into a beautiful parkland tomorrow.

The students were asked to conduct a class project on planning the development of land adjacent to Salt Creek by authorities of the Salt-Wahoo Watershed and the U.S. Corps of Engineers.

The students will present their ideas at 7:30 p.m. Thursday in the Nebraska Union under jury conditions to authorities looking for ideas to develop the area for recreational use. The program is open to the public.

The students have chosen the name "Crescent Greens," for the parkland, in reference to the general shape of the Salt Creek as it meanders through the western edge of Lincoln.

The detailed planning involves land from the corner of Park Blvd. and Van Dorn to the confluence of Oak and Salt creeks.

Among the ideas of the students are those which call for a nine-hole, par 3, golf course, a Japanese garden, special areas set aside for teenagers and the elderly, a dance pavilion, a family park and rose gardens.

Great Pumpkin Is Cupid

Yes coeds there is a great pumpkin. Just ask any of these girls who announced their pinnings and engagements Monday night and maybe they will tell you where the pumpkin patch is. If they don't you can always write to Santa Claus.

PINNINGS

Pixie Smallwood, Alpha Delta Pi senior in Arts and Sciences from North Platte to Grant Strong, Phi Gamma Delta graduate student in Business Administration from Rushville.

Bonni Cheairs, Alpha Delta Pi sophomore in Teachers College to Marty Plaster, Phi Kappa Psi junior in Pre-law from Scottsbluff.

Colleen Porter, Delta Delta Delta senior in Teachers College from Thurman, Ia. to Bob Geiger, Kappa Sigma graduate student in Agricultural Economics from Cozad.

Suzi Whitney, Kappa Delta junior in Teachers College from Winthrop Harbor, Ill. to Max Nall, Chi Phi senior in Engineering from Edgar.

Suzi Trammell, Kappa Delta senior in Arts and Sciences from Bellevue to Jim Wiest, Theta Xi senior in Arts and Sciences from Lincoln.

Susie Baldwin, junior in Teachers College from Omaha to Ray Hultman, Lambda Chi Alpha junior in Civil Engineering at Omaha University.

Linda Goth, Pi Beta Phi senior in Teachers College from Omaha to Jim Walters, Phi Delta Theta sophomore in Business College from Omaha.

Susie Miller, Pi Beta Phi sophomore in Journalism

Lissmann Will Speak On Aquatic Life Habits

A well-known authority on fish, Dr. Hans Lissmann of Cambridge University in England, will speak tomorrow at 1:30 p.m. in Morrill Hall.

Lissmann has spent time in Nebraska studying the paddlefish and is interested in the behavior of aquatic life, particularly the quality of "electric location" that some fish exhibit.

The lecture, sponsored by the department of zoology and physiology, is open to the public.

Tired Notary Public OK's Students' Absentee Ballots

Many students have become well acquainted in the last few days with room 100 Teachers College and Mrs. Rose Frolik, who serves as a notary public at the University.

Mrs. Frolik, a pretty, dark brown-eyed woman squeezed her seal as notary public for hundreds of students in the last few days as they completed their absentee ballots for the election. Her arm actually swelled with all the sealing that she did.

"This is the most excited students have ever been about an election," Mrs. Frolik said.

"It was quite edifying to see students so interested in voting for the candidate of their choice," she said. When Mrs. Frolik mentioned this to one of the students he said, "Why shouldn't we care; it is our country."

"This is evidence to me that most students' interest is greater than most people think and that's good," Mrs. Frolik said.

One student on Monday grinned and said, "You know I'm just 21 today." Another looked at the closed envelope

and said, "It's my first time and an experience."

"At five minutes to five Monday a young man came running into my office breathless. He had an hour exam and was afraid he was too late to get his ballot notarized. It was business for him. He was going to take it right to the post office to be mailed back home," Mrs. Frolik said.

The procedure for filing an absentee ballot is: the ballot is filled out by the individual in secret, the ballot is placed in an envelope which must be signed personally in the presence of a notary public. The envelope is sealed and then notarized.

"This morning a young man came in who had called his county clerk last night to ask permission to mail his ballot on the third. The ballot had been incorrectly addressed and therefore late in arriving," Mrs. Frolik said.

Friday was the heaviest day, according to Mrs. Frolik. "Monday and Thursday were busy too and I had that special permission this morning," she said.

Meet Gerald Bourland

Computer Systems Associate at WE

Gerald Bourland, B.S., Central Missouri State College, '61, picked Western Electric because it offered many interesting and challenging opportunities in his favorite fields—automation and data processing. Gerald's work here consists of writing, testing and documenting computer programs—each one a different and exacting assignment.

Also of great interest to Gerald when he joined Western were the Company's numerous management courses and paid Tuition Refund Plan. He knows, too, that we'll need to fill thousands of supervisory positions within the next few years. And he's getting the solid experience needed to qualify.

Right now, Gerald is working on a data collection

sub-systems for maintaining production control. He is developing ways of collecting shop data rapidly for use by other computer systems.

If you, like Gerald Bourland, set the highest standards for yourself, enjoy a challenge, and have the qualifications we're looking for—let's talk! Opportunities for fast-moving careers exist now for liberal arts, physical science and business majors, as well as for electrical, mechanical and industrial engineers. For more detailed information, get your copy of the Western Electric Career Opportunities booklet from your Placement Officer. And be sure to arrange for an interview when the Bell System recruiting team visits your campus.

Western Electric MANUFACTURING AND SUPPLY UNIT OF THE BELL SYSTEM
 AN EQUAL OPPORTUNITY EMPLOYER
 Principal manufacturing locations in 17 states. 11 operating centers in many of these same states plus 56 others throughout the U.S., Engineering Research Center, Princeton, N.J. (7) Telephone Corp., Swanton, Ill., Little Rock, Ark. (2) General Headquarters, New York City

from Arlington, Va. to Russ Taylor, Hi Delta Theta senior in Business College from Bellevue.

ENGAGEMENTS
 Marlene Moncrief, sophomore in Arts and Sciences from Elwood to Ronald Hoover, senior in Engineering from El Paso, Tex.

Jerri Geiser from Omaha to Ronald Snyder, Alpha Gamma Rho junior in Arts and Sciences from Arnold.

Ellen Conkling, freshman in Home Economics from Hebron to Harry Shields Jr., junior in Business Administration from Hebron.

NEW PAPERBACK TITLES AT UNIVERSITY BOOK STORE THIS WEEK
