THE BELL TELEPHONE COMPANIES SALUTE: CY JOHNSON

Cy Johnson (M.A., 1959) is a man who knows how to deal with success. As a specialist in business research for Illinois Bell, he handles communications problems for some of the nation's largest corporations. And Cy's personal record with his company is an impressive success story itself.

Shortly after he joined Illinois Bell, he was given the responsibility of Business Office Supervisor. His performance in this position led to his advancement to Public Office Manager. Reviewing and writing operating procedures

was the next challenging position that Cy was assigned. In January, 1962, he was promoted to Office Section Manager—a job that entailed supervising sixteen employees. Less than a year later, he attained his present position on the Business Research Staff.

Cy Johnson, like many young men, is impatient to make things happen for his company and himself. There are few places where such restlessness is more welcomed or rewarded than in the fast-growing telephone business.

Basketballers Hit Road; Nebraska Loses Again

Nebraska's hapless hoopsters took it on the chin away from home again Saturday as they were humiliated at Stillwater, Oklahoma by a record-setting score of 93-54.

Again a disastrous second half sealed the lid of defeat on the Cornhusker coffin as the Cipriano crew was topped by a 45-22 margin the second half alone.

In the first game of the series of Big Eight games to be televised over regional television, the Huskers switched from a zone press to a man-to-man defense to zone and back to man-to-man.

It made little difference to the Hank Iba proteges what defense the Huskers tried, however, and the Cowboys riddled the zone defense with long passes and the man-to-man defense with good dribbling.

Larry Hawk of Oklahoma State was again a standout out for the Cowboys as the springing 6'1" senior hit for 19 points to tie for high honors with Paul LaBrue.

For the Huskers, Fred Hare hit only 4-17 from the field, but ended the contest with 13 points, to take game honors. No other Scarlet could manage double figures.

Wyoming Defeats Husker Mat Team

The Huskers were pinned to the mat Saturday night as Wyoming won six out of eight matches for a score of 22-10.

Richie Kerr, 147-pounder, pinned Rick Lucas in 7:33 and heavy Gary Lowham in 4:43 for Nebraska's only victories.

Results:
125-pounder—Art Sanchez, Wyoming, pinned Eugene Vanice, 2:06.
130—Scott Catara, Wyoming, pinned Rick Allgood, 6:17.
137—Joe York, Wyoming, defeated Pete Karampelas, 5:2.
147—Richie Kerr, Nebraska, pinned Rick Lucas, 7:33.
157—Allen Frude, Wyoming, defeated Larry Burghardt, 10:7.
167—Leon Mickelson, Wyoming, defeated Ken Fox, 2:1.
177—Don Miller, Wyoming, defeated Ben Barends, 4:2.
Heavyweight—Carel Stith, Nebraska, pinned Gary Lowham, 4:43.

Nebraska again attacks the "law of Averages" as they will try Oklahoma at Norman tonight. The game will be covered on KLIN and KFOR here in Lincoln.

The Sooners dropped Saturday night's game at home to Iowa State.

Oklahoma is a run-and-gun team with a fast break led by guards Butch Roberts, Tom Flood and Mike Rooney. Jim Gatewood and Fred Fleetwood man the forward positions.

Game time at Norman is 8:05 p.m.

Mermen Nip KU; Dunked By Iowa

Husker swimmers rescued a victory from Big Eight rival Kansas, but lost to a hard-churning Iowa team from the Big Ten, last Saturday.

The Hawkeyes, just back from a two week training session in Miami over the holidays, lost no time in establishing superiority over the more sluggish Big Eightsers. In the very first race, the 400-yard medley relay, Iowa set a pool record of 3:48.8.

There was never a question after that for Iowa, but the Kansas-Nebraska dual went undecided until the final freestyle relay, where the Huskers pulled out a fabulous come-from-behind victory in 3:28.7.

Ron Berry set a pool record in the most publicized race of the day: the 200-yard breaststroke, as he edged NU's Mike Jackson.

When it became evident that it was going to be close between the two Big Eight schools, Coach Klaas devised some winning strategy: when KU swimmer scratched in the 500-yard freestyle the Huskers were thus assured of fourth and fifth place, so Tom Nickerson took it easy in that race and was rested up enough to come through with a fine leg in the final relay and victory.

The Huskers journey to Southern Illinois University next Friday, and Washington of St. Louis on Saturday and are home again the following weekend against Macalester.

Nebraska 53, Kansas 42
400-yd. medley relay—1. Kansas (Johnson, Downey, Basile, Blahoe), T—3:54.0

400-yd. freestyle—1. Nebraska (Frank, Nickerson, Gabrielson, Frazier) T—3:28.7

Yell Contest Sponsored; Kingsmen Tickets Prize

The Daily Nebraskan Sports Staff proudly announces a legitimate CONTEST! This contest has as its first prize two tickets to the KINGSMEN DANCE which will be held Saturday, Jan. 16 at Pershing Auditorium.

The prize goes for the most apt and appropriate yell for the furthering and betterment of Cornhusker Spirit.

The Sports Staff has been accused of being negative, so to refute that, here is a definite positive step.

Entries may be mailed or given to the Sports Department of the Daily Nebraskan, and the winner will be notified by Saturday.

All entries are due Friday, Jan. 15, telephone before Saturday. The winning entry will be decided upon by the sports staff, but all entries will be turned over to the newly-organized Student Council Committee on this problem.

So come on all you Husker boosters! Show your school spirit and originality, and don't forget those Kingsmen tickets.

(Rumor has it that a second-place prize may be given an autographed copy of the true lyrics of "Louie, Louie.")

What every graduating engineer (and his professors) should know about AC-MILWAUKEE

Sure, everybody's got a career program. But we think you'll find ours a little more stimulating, more rewarding, and at least intriguing enough to spend the next minute or so reading about it.

We call it our "Career Acceleration Program." In it, you'll work on such advanced projects as an avionics system for supersonic aircraft, a guidance/navigation system for the Apollo Command Module and LEM, and a new guidance system for the Titan III space launch vehicle.

Seven hours a day you'll work on a specific project. You'll spend one hour each day in formal class work. These classes include courses in Inertial Instruments, Inertial Guidance, Digital Computers, Advanced Transistors, Advanced Servomechanisms, Integrated Circuits, Space Mechanics, plus other mathematics and undergraduate disciplines as required.

We also have a Tuition Refund Plan that pays all of your tuition costs upon satisfactorily completing college-level courses of study undertaken voluntarily. Our "in-plant" evening educational program offers additional opportunities for technical improvement.

If you are completing your BS or MS degree in EE, ME, Math or

Physics, we invite you to inquire about the opportunities at any of our three locations. AC in MILWAUKEE—our main research, development and manufacturing facility. AC in BOSTON—our Research and Development Laboratory specializing in advanced inertial components; spacecraft and avionics guidance/navigation systems. AC in LOS ANGELES—our Research and Development Laboratory specializing in advanced airborne computers; ballistic missile and space booster guidance/navigation systems. For further information, see your college placement office regarding a General Motors/AC on-campus interview, or write directly to Mr. G. F. Raasch, Director of Scientific and Professional Employment, Dept. #5753, General Motors Corporation, Milwaukee, Wisconsin 53201. PhDs, please note: Positions are available in all three AC locations for PhDs, depending on concentration of study and area of interest. You are invited to contact Mr. Raasch for additional information.

PITTSBURGH PLATE GLASS COMPANY - CHEMICAL DIVISION

INTERVIEW DATE: Tuesday, January 19

Opportunities available in six plants: Barbours, Ga., New Martinsville, W. Va., Lake Charles, La., Corpus Christi Tex., Bartlett, Colli., and Beauharnois, Quebec, Canada.

Producers of heavy industrial chemicals: Soda Ash, chlorine, caustic soda, anhydrous ammonia, titanium tetrachloride, barium, and other chlorinated products.

Production, Development, Engineering, Maintenance, and Construction opportunities open for men in these categories:

BS, MS, Chemical Engineers; BS, Industrial Engineer; BS, Mechanical Engineers; BS, Electrical Engineers; BS, Civil Engineers; BS, Instrument Engineer.

Career Opportunity

UNITED STATES PUBLIC HEALTH SERVICE
VENEREAL DISEASE BRANCH—COMMUNICABLE DISEASE CENTER

We are going to eradicate syphilis in the United States. We need people who want immediate job involvement, interesting work, an outlet for creative ideas, and an excellent opportunity for advancement. We want to talk with above average senior students who are majoring in the following academic fields:

- BIOLOGY
- ENGLISH
- JOURNALISM
- ECONOMICS
- HISTORY
- HUMANITIES
- LANGUAGES
- PHILOSOPHY
- PUBLIC HEALTH
- PUBLIC ADMINISTRATION
- POLITICAL SCIENCE
- SOCIAL SCIENCES
- PSYCHOLOGY
- SOCIOLOGY
- MATHEMATICS

Interviews for June Graduates will be conducted on: DATE—Jan. 18 & 19
