

# Deadline Looms

Continued from Page 1

people are qualified." Schaaf said later that he was still against lowering the grade average requirement for student government and "it is an extracurricular activity."

The Convention also set the composition of the Student Court. The draft now reads: "The Student Court shall consist of one Chief Justice and six Associate Justices nominated by the President of the Association and two additional Associate Justices nominated by and from Student Affairs." The draft the convention received made no provision for Justices from Student Affairs.

Wally Weekes proposed the amendment by asking "Why not keep these two in here to co-ordinate some bond between student and faculty?"

The section of the constitution that deals with the filing of candidates states everything that should be on their filing forms, as well as other technicalities.

The point was raised by Stuckey that this should be left to the electoral commission to decide. He proposed an amendment to replace

the stating of these requirements in the constitution with: "The electoral commission shall draft a filing form and require all candidates to complete said form upon filing for office."

The argument for the amendment said the constitution is not the place to be this specific. The other side said they wanted to ensure certain basic things to always be included in the forms, and this was the way to do it.

The proposal was defeated by a vote of 5 to 9. Stuckey voted against his own amendment.

The publicity and campaigning section of 'Elections' has a part dealing with the candidate's rights. Stuckey proposed an amendment, that subsequently passed, to reword the section so it made sure these "inalienable rights are recognized and not created by this section." These deal with the rights of free assembly and free speech. In dealing with this section he asked if the constitution should create some student rights. He wondered if the constitution should spell out the rights of the students and the stu-

dent body. "This is a matter for later consideration," he said.

Vicki Dowling proposed this amendment: The electoral commission shall cause to be published in the Daily Nebraskan, at the end of the filing period, the name, college, class, and cumulative grade point average of all candidates for position in the association."

Miss Marshall said, "It is not the function of a constitution to provide for mandatory publicity. I certainly feel the Daily Nebraskan would do this anyway."

Miss Dowling explained the purpose of this amendment was to try to ensure an informed electorate.

The question was called and defeated 5 to 7.

Joe Carroll then proposed instead this amendment: "To make all filing forms public to any interested party." It passed.

Lydick pointed out "We now have 8 1/2 pages to go. The past two meetings we have gone at the rate of one page an hour. We have got to be done, by our own deadline, by Sunday." An extra meeting was subsequently called for 6:30 p.m., Tuesday.

## Nebraskan Applauds

Second Lieutenant John W. Hasselquist has graduated from the training course for Air Force accounting and finance officers at Sheppard AFB, Texas.

Hasselquist received his B.S. degree in business administration from the University and was commissioned upon completion of the AFROTC program. He is a member of Alpha Kappa Psi.

Lieutenant Colonel Edsel L. Manning completed the Air Force survival and special training course conducted by the Air Training Command at Stead AFB, Nevada.

Manning, an operations staff officer, received combat-type escape and evasion training to enable him to survive under adverse climatic conditions and hostile environment. Awarded a B.G.E. degree from the University, Manning was commissioned through the aviation cadet program in 1944.

Second Lieutenant William C. McKee has graduated from the training course for Air Force missile launch officers at Sheppard AFB, Texas. McKee received his B.S. degree in 1964 from the University and was commissioned through the AFROTC program.

## Airline Offers Special Student Rates For Central, South American Trips

A student travel program to South America including air fares slashed in half and reduced rate ground tours will be placed in effect by Braniff International Airways Apr. 1 subject to approval by the Civil Aeronautics Board, the airline announced today.

Senior Vice President Rex Brack said Braniff had instructed its tariff agent to file the proposed new fares with the CAB in order to "provide the young students of the United States, who will be our leading citizens of tomorrow, a unique opportunity to visit this important neighboring continent."

The roundtrip jet fare from Miami gateway to Lima, Peru, for example, would be reduced from \$401 to only \$200 for full-time students between the ages of 12 and 26 at primary and secondary schools and colleges and universities. Those who have graduated within the calendar year also are eligible.

A 14-day package tour specially designed for student interests including Panama and Bogota, Colombia, as well as Lima will be available through travel agents and Braniff offices at a cost of only \$385 including air fare, hotels and sightseeing. Normally, such a package tour would cost approximately \$680.

Braniff's new student fare proposals also include reductions in roundtrip jet transportation between the Miami gateway and Rio de Janeiro, Brazil, from \$551 to \$275, and between Miami and Buenos Aires, Argentina, from \$578 to \$289.

The student fares also will be available from the Houston, Texas, gateway with roundtrip jet transportation to Lima reduced from \$458 to \$247, to Rio de Janeiro from \$627 to \$335 and to Buenos Aires from \$630 to \$349.

In conjunction with the student fares to Rio, an 18-day package tour including air fare, hotels and sightseeing with visits to Panama, Bogota, Lima, Sao Paulo and Rio will be available for only \$520 from Miami and \$580 from Houston as opposed to the normal cost of \$900 to \$980.

A 27-day package tour including air fare, hotels and sightseeing has been developed to Buenos Aires with visits to all of the above named cities plus Asuncion, Paraguay, and Montevideo, Uruguay, at a cost of only \$674 from Miami or \$734 from Houston. This tour usually is priced at \$1,100 to \$1,170.

Although these tours are available at any time to one or more students, the prices are reduced even further for groups of 15 or more.

Both the air fares and ground tours may be bought on one of Braniff's time payment programs. It is not necessary, however, to purchase one of the package tours to use the lowered student air fares.

"Never before to our knowledge," Brack said, "has a student travel program been proposed at such reduced prices. Students and their parents have long realized that travel would be a valuable addition to their formal education, but the cost

has often been beyond reach."

In addition to the budget advantages to the program, Brack pointed out that the area involved, South America, is of timely significance. "This is a vast continent of growing economic importance and interest to the United States. Braniff's own recent large gains in business and tourist travel between the U.S. and South America reflect this fact. We at Braniff feel that young students should be encouraged and have the opportunity to learn of these countries and their people on a first-hand basis."

## Kailey To Head Family Service

The new executive director of Family Service is George Kailey, a 1952 graduate from the University School of Social Work.

Family Service, 1133 H Street, is a Community Chest agency providing counseling services in marriage, parent-child relations and adoptive and foster home activities.

Before coming to Lincoln, Kailey worked at the Southeast Wyoming Mental Health Center in Cheyenne, Wyoming, the Cedar Rapids, Iowa, mental health center and the Family and Child Services in Omaha.

Four University School of Social Work students, doing on-the-job training will work with Kailey and a Family Service staff of four full-time caseworkers and one case aide.

## Record Income Received By University Foundation

Assets of the University Foundation now stand at \$7,174,361, an increase of approximately \$1.7 million over the previous year. President Harry Haynie reported Thursday afternoon at the annual meeting of the trustees.

He said the Foundation received \$2.5 million in total funds in 1964, compared to \$1.3 million in 1963. Haynie said this is the first year that the Foundation has received more than \$2 million in new funds in its 28-year history.

He told the trustees that all of the income from the assets are for specific purposes.

None is available for general operating expenses of the University, he said. More than a third of the 1964 benefits to the University was designated for student assistance.

Ted Sick, chairman of the Foundation Board and Lincoln insurance executive, told the trustees: "The results of our efforts are ever accumulative. What we do today will support not only this year's program but also those of the future. These gifts will live in a perpetual sense, giving many-fold benefits."

Three new trustees, Warren Marsh, Frank Foote, and John Comstock were elected.

In his annual report, President Haynie listed these spe-

cific 1964 benefits to the University: \$261,057 in scholarships and fellowships, \$257,015 for research projects, \$53,872 for faculty and University support, \$33,351 for professorships, \$19,240 for Sheldon Memorial Art Gallery, \$15,000 for Nebraska Center for Continuing Education, \$17,780 for the Northeast Agricultural Experiment Station, \$5,687 for research equipment, and \$5,853 for University State Museum.

Haynie said, "It is also interesting to note that the College of Medicine was the largest benefactor of gifts received by the Foundation in 1964. The income of more than \$850,000 in new funds is ultimately destined for medical research and teaching."

## Actuarial Associates Announced

Four graduates of Nebraska colleges have been named associates of the Society of Actuaries, according to Dr. Robert Larson, professor of actuarial science at the University.

They are: Thomas Eason, Richard Files, Miss Barbara Lautzenheiser, and Frederick Rickers.

Miss Lutzenheiser was graduated first in her class from Nebraska Wesleyan University in 1960. The other three are 1962 graduates of the University.

Associates in the society must have passed five examinations. The exams are given periodically at centers throughout the country. Upon the successful completion of five more exams, associates can become fellows of the society.

University graduates who passed one or more of the exams in the series leading to associate membership are: Gary Blattner, Ronald Elmshouser, James Glath, Robert Johnson, Stephen Kellison, Robert Kvall, Don Penney, Wayne Rothmeyer, Marvin Ruback, Gene Schellpeper, Charles Sherfey, and Linda Stouffer.

## Federal Aid Granted For History Institute

The University will receive a \$57,000 grant from the U.S. Office of Education to conduct an institute for 40 Nebraska secondary school teachers of United States history, June 14-Aug. 6.

Prof. David Trask, director of the Institute, indicated that it will be one of the first in this field since the National Defense Education Act was amended in 1964 to include history.

"This grant will enable us to strengthen the professional qualifications of Nebraska's secondary school teachers in American history," Trask said. "In future years, we expect to offer this summer program to teachers of world, Asian, and Latin American history, thus enhancing the entire history curricula throughout the State."

The 1965 History Institute will provide three distinct but interrelated opportunities for study during the eight-week session: (1) a problems course in American history; (2) a symposium to consider subjects of pedagogical, philosophical, and methodological concern; to practicing historians; and (3) an independent writing project.

Participants may earn six hours of graduate credit in history. The 40 teachers selected to participate will receive tuition and \$75 per week plus \$15 per week for each dependent while attending the Institute.

Application forms may be obtained by writing: Dr. David Trask, Director, NDEA Institute-History, 101 Burnett Hall, University of Nebraska, Lincoln, Nebraska, 68508.

## Campus Calendar

TODAY

DEPARTMENT OF ANTHROPOLOGY, 8 a.m., Student Union Auditorium.

PLACEMENT OFFICE LUNCHEON, 12:30 p.m., 241 Student Union.

KAPPA KAPPA GAMMA rehearsal, 4 p.m., Student Union Ballroom.

PANHELLENIC, 4 p.m., 332-334 Student Union.

TASSELS, 4:30 p.m., 232 Student Union.

INTER-VARSITY LADYBUG, 5:30 p.m., 334 Student Union.

TOWNE CLUB, 6 p.m. Pan American Room, Student Union.

SIGMA DELTA TAU, 6 p.m., 241 Student Union.

UNCORNS Social Committee, 7:30 p.m., 234 Student Union.

TOMORROW

CORN COB Active Meeting, 5 p.m., south party room Student Union.

CONSTITUTIONAL CONVENTION, extra meeting, 6:30 p.m., Student Union.

## Anthology Taking Students' Poetry

The opportunity become another Frost or Burns may knock only once, and this could be the time.

The National Poetry Press is taking manuscripts for publication in the Annual Anthology of College Poetry. The closing date for the submission of poems is Apr. 10. This is to be the first spring Anthology in 15 years.

The student's name, home address and college must be typed or printed on each entry, which must be submitted on a separate sheet of paper.

"Inasmuch as space is limited, more favorable consideration is given to shorter poems," says the National Poetry Press.

Entries should be sent to the National Poetry Press, 3210 Selby Avenue, Los Angeles 34, California.

## A Trip To Europe For Less Than \$100

Switzerland — The International Travel Establishment will locate job opportunities in Europe for anyone who likes the idea of a fun-filled, low cost trip to Europe. Jobs are available in all fields throughout Europe. Interested students should send \$2 to Search Dept., I.T.E., 68 Herrngasse, Vaduz, Liechtenstein (Switzerland) for a complete, do-it-yourself prospectus which includes the key to getting a job in Europe, the largest European job selection available, instructions, money saving tips and conclusive information making a trip to Europe (including transportation) possible for less than \$100.

## OVER 10,000 Summer JOBS

NOW OPEN in the United States and 37 foreign countries — Europe, Asia, the Caribbean and South America. Some are high paying, some are exciting, all are worthwhile summer jobs for college students... THE KIND OF WORK YOU ENJOY.

Dennis Moffatt sought a job with responsibility

He found it at Western Electric

Dennis Moffatt, B.A., Coe College, Cedar Rapids, Iowa, '57, joined Western Electric in 1961 after two years of graduate work at the State University of Iowa and two years with the Army. Most important to Dennis was the fact that WE offered him the chance to move ahead... fast. Dennis started at Western Electric's Hawthorne Works in Chicago as a Staff Trainee in Industrial Relations. After only a year with the Company and the completion of one of WE's training programs for college graduates, Dennis became a Personnel Placement Analyst. Advancing rapidly, Dennis was recently promoted to Section Chief, Employment and Placement, Systems Equipment Engineering. If you, like Dennis Moffatt, want a career with a company that will recognize your skills and abilities, and have the qualifications we seek — let's talk! Opportunities for fast-moving careers exist now for liberal arts, physical science and business majors, and for electrical, mechanical and industrial engineers. Get the Western Electric Career Opportunities booklet from your Placement Officer. And be sure to arrange for an interview when the Bell System recruiting team visits your campus.
