THE UNION basement was the scene Wednesday of AWS's second semester AWS activities Mart for all University students. Carol Strand, chairman of the mart, said that almost every activity on campus was represented and that students' attendance was good compared to other years.

University May Lose Five Faculty Members

Five of the University's best-known faculty members will reportedly not be in the institution's staff this September.

The list of these faculty members includes Karl Shapiro, Dr. John Pazar, Dr. David Trask, Dr. Robert Sakai and Dr. Esquenazi-Mayo.

Confirming rumors of resignation were Pazar, chairman of the department of biochemistry nutrition, Trask, associate professor of history, Sakai, department of history chairman, and Esquenazi, chairman of the romance languages department.

Colleagues have reported that Shapiro, Regents professor of English and a Pulitzer Prize winning poet, will also be leaving but efforts to contact Shapiro were unsuccessful.

ful Wednesday. Pazar said he is going to Penn State University and Trask said he was taking a position at the new State University of New York at Stony Brook.

Both Pazar and Trask said that their new positions offered enlarged opportunities for professional advancement. Sakai, whose resignation was announced at the Board of Regents meeting last Saturday, said he will join the University of Hawaii history staff and will be associated with the East-West Center at Hawaii.

Esquenazi is going to the University of Cincinnati, and fellow faculty members have reported that Shapiro will be associated with the University of Illinois' new Chicago campus.

Peace Corps Week To Expand Program

Peace Corps Week at the University will extend from Feb. 13 to Feb. 18 and will be "expanded in scope from past years," according to Ed Weiner, chairman of the ASUN Peace Corps Week committee.

Weiner explained that in past years, the displays, films and speakers concerned only the Peace Corps, but that this year, information would also be available on other government projects like VISTA and Head-Start.

Plans concerning the week include display booths in the Nebraska Union, films shot

on Peace Corps location and returning corpsmen who will be available to speak to organizations on request, he said.

"We are hoping to make this Peace Corps Week a little different and more stimulating than in the past," Weiner noted.

He added that anyone interested in securing information about the Peace Corps or wishing to have the returning corpsmen speak on an organization should call him at 432-3120.

SAKAI... history department has attracted "national attention."

Sakai Says Faculty Resignations Indicate NU's 'Healthy Condition'

Dr. Robert Sakai's resignation letter to Chancellor Clifford Hardin noted that many members of the history department have left the University in the past few years. He said, however, that this only demonstrates the University's "healthy condition."

"Some people have expressed alarm at the turnover of staff members in the department of history in recent years," he wrote in his statement. "While the turnover rate has been high, this can be attributed to the fact that our staff members have acquired national reputations."

"This in turn, has enabled us to attract very able and promising scholars to join our staff. I am happy to report that we have secured the services of several such scholars for the coming academic year. So long as the department continues to attract national attention, I believe it is in a healthy condition."

Sakai wrote that much has been done at the University to bring in other Asian specialists who now offer courses in several disciplines. One example was the development of library holdings in this field.

"Our attachments to this

University and to this community and state are deep," said Sakai. "I am sure that we shall continue to be loyal Nebraskans."

Sakai noted in his letter that his decision to leave the University next September was based on the fact that the University of Hawaii, "has become a major center of Asian studies and its progress and library holdings uniquely coincide with my research interests."

Quiz Bowl Schedule

The regular season of Quiz Bowl competition begins Thursday at 7 p.m. with eight matches scheduled to be held in the Nebraska Union small auditorium.

Teams must report to isolation at the beginning of the half in which they play or be disqualified, according to Larry Johnson, chairman.

Thursday's matches are: Theta Xi II vs. ATO Actives, 7 p.m.; Gamma Phi Beta I vs. Kappa Kappa Gamma, 7:25; Enigmatics vs. Delta Gamma II, 7:50; Farmhouse A vs. Dionysians, 8:05 p.m. Phi Delta Theta I vs. Beta Theta Pi I, 8:40 p.m.; Delta Sigma Phi vs. Sigma Delta Tau, 9:05; Seats 13 vs. Savants, 9:30; Kappa Alpha Theta I vs. Ag Men, 9:55 p.m.

Applications Due For Miller Gift

Students interested in applying for the annual \$1,000 Donald Walters Mill scholarship should make application through their college dean by Mar. 1.

The scholarship is open to anyone who is enrolled at the University except freshmen. Selection is based on scholastic ability, educational and professional objectives, character and financial need.

Evaluation

Cont. from pg. 1, col. 6 particular field of interest," concluded Miss Wood.

The speaker's bureau is the development of the Nebraska Union Talks and Topics Committee with the support of ASUN, AWS and other student interest organizations.

The faculty fellows program bridges the gap between students and professors in a more informal manner. The program will be geared to resident (living unit) student groups.

"The faculty fellows program affords the opportunity for a relationship to be developed between a faculty member, or members, and a student group," explained Mrs. Jean Regester, student activities adviser.

Differing from the speaker's bureau, the fellows program will emphasize the discussion between students and faculty members on whatever tangent the general conversation chooses to follow.

Mrs. Regester emphasized that this will provide the opportunity for both faculty members and students to see each other in a different light than that of the classroom. The ideas and knowledge will not be related to a specific course of study.

The student activities office

act as an intermediary between student groups and the faculty, of which about 130 have shown an active interest.

"I will help the groups in selecting some faculty members to invite," stated Mrs. Regester. "However, groups will eventually choose whom-ever they desire."

The program is presently quite successful at a number of schools, including Ohio and Indiana Universities, according to Mrs. Regester.

Board Members Must Have 2.3

AWS has set minimum grade requirement for holding a position on the AWS Board at 2.3 on the four-point system.

Vicki Dowling, AWS vice-president, explained that a 2.3 is the equivalent of a 5.7 on the nine-point scale, which was the previous grade minimum for a board position.

Abel Hall Plans For Open House

Abel Hall will hold an open house Saturday from 1 p.m. to 4:30 p.m.

At a meeting Tuesday night, the Abel student executive committee discussed the possibility of hold future open houses once a month.

Ford Motor Company is:

encouragement

David Tenniswood, B.S., Michigan State Univ., M.S., Michigan State Univ.

Opportunity comes early at Ford Motor Company. Graduates who join us are often surprised at how quickly they receive personal assignments involving major responsibilities. This chance to demonstrate individual skills contrasts sharply with the experience of many young people entering the business world for the first time. At Ford Motor Company, for example, a graduate may initiate a project and carry it through to its final development. One who knows is David Tenniswood, of our research staff.

Dave joined Ford Motor Company in July, 1961.

Assigned to our steering and controls section, he helped develop a revolutionary steering system that will facilitate driving in future Ford-built cars. Currently a design engineer working on suspension design and analysis, Dave has been impressed by the extent to which management encourages personal initiative among recent graduates like himself. Here, management looks immediately to young engineers, like Dave, for fresh concepts that reflect their academic training and special abilities. Moreover, when the idea is accepted for development, the initiator is frequently given the opportunity to see the job through—from drawing board to production line!

The experience of Dave Tenniswood is not unusual. Ford Motor Company believes that early incentive is fundamental to individual growth and a successful career. If you are interested in a job that challenges your abilities and rewards enterprise, we urge you to contact our representative when he visits your campus.
