

THESE NEW FACES . . . in theater will present the production, "La Gloria de la Manana" Saturday and Sunday under the direction of University student Mike Dobbins.

'New Faces' Production To Open Saturday Night

The New Faces production, "La Gloria de la Manana," will be presented in Howell Memorial Theatre Saturday and Sunday at 8 p.m.

The New Faces production is the production of a play, cast with students who have never appeared in a University Theatre production. Sponsored by the University chapter of the Masquers, National Collegiate Players, its purpose is to give freshmen and sophomores the opportunity for theater experience.

Admission will be 50 cents at the door.

The play will be directed by Mike Dobbins. His brother, Larry, a University graduate now teaching at Connecticut State Teachers College in New Britain, wrote the play. He formerly taught at Wayne High School and Omaha West Side High School in Nebraska.

The theater new-comers in the play include Gary Hill, Jo Flaughner, Bill Lacey, Ric Marsh, Craig Stuckey, Bill Robart, Rod Hernandez, Pam Moore and Fred Starrett.

The play, set in Mexico, was researched by Dobbins while spending the summer in the slums.

The story revolves around a young American adjusting to Mexican family and customs.

Gamma Sigma Delta Awards Dr. Shahani

A University staff member has been cited by an international agricultural society for his outstanding contributions in the areas of dairy chemistry and dairy microbiology.

Dr. Khem M. Shahani, professor of dairy science, received the 1966 Gamma Sigma Delta Award for Distinguished Service to Agriculture Tuesday night.

The award, which consists of a medal and certificate, was presented to Shahani by Dr. Dale W. Bohmont of Reno, Nev., international president of Gamma Sigma Delta, the honor society of agriculture. The presentation was made during the Nebraska chapter's annual scholarship recognition banquet at the Nebraska Union.

The award is presented annually to a Gamma Sigma Delta member who "has made great contributions to agriculture during the last five years, either in the form of teaching, research, extension or other distinguished service."

Shahani, whose work has benefitted the dairy industry and agriculture in general, has previously received international recognition. In 1964, he received the Borden Award for research in dairy manufacturing.

Shahani was born in India and became a citizen of the United States in 1956. He earned two academic degrees at the University of Bombay and received his Ph.D. from the University of Wisconsin.

Before joining the staff of the University in 1957, he worked for five years at Ohio State University and for two years at the University of Illinois.

Delta Zeta Sorority Pledges 33

Newly colonized Delta Zeta sorority pledged 33 coeds in formal ceremonies Friday.

Formal activation for the pledges is scheduled in Mid-April, according to a national officer assisting in the colonization. Coeds are still being accepted as pledges, she said. The group hopes to have 50 members ready for activation at that time.

Delta Zeta is the largest national sorority with 160 chapters throughout the country, the official explained. She said a chapter was colonized on the University campus in 1912, but was deactivated in the 1930's as were a number of other Greek organizations.

Two other sororities that deactivated at that time, Phi Mu and Alpha Delta Pi, have since recolonized.

The Delta Zetas have been designated as an alternate group to move into the new Greek complex to be constructed northwest of Nebraska Hall by the wall of 1967, the official said.

The Delta Zeta's first house meeting is scheduled Monday night.
