

Photographic Art: 'Scientific Form Of Visual Expression'

Photography and painting can not be equated, according to Jerald C. Maddox, assistant director of Sheldon Art Gallery.

Maddox spoke Sunday afternoon in a talk entitled "American Photography—The Sixties". He discussed the photographs now on display in the gallery.

"Some people feel that photography is equal to painting, sculpture and etching, Maddox said. "However, it is rather a unique approach to visual communication. This visual communication is the only point in common between these art forms."

"The difference lies basically in the way photos are made," he continued. "Photography is mechanical and scientific. All its techniques can be measured and explained. Painting, sculpture, etc. are the handmade work of the artist."

Maddox said he feels that photography is a much "purer" form of art. "Most art is in the doing, but photography has written techniques to that processes can be easily duplicated. Photographic art, therefore, depends entirely on how the photographer sees things not on how he reproduces them."

Concerning the intrinsic value of photos, Maddox said that most photos are not valuable in themselves, but rather for their historical importance, such as the early daguerotypes. They might also be valuable if the negatives are destroyed so that additional prints can not be made.

"Most photography tends toward the realistic image, though there is some abstract photography produced," Maddox stated. "Abstract photography is even more difficult to explain than abstract painting. The painting can be explained in the interpretation of physical things. Abstract

photography is more symbolic and the interpretation is often more personal in nature."

"Usually, the photographic print is not manipulated. This

Music Staff In Recital

Four University music staff members will present a faculty recital, open to the public, at 7:30 p.m. Tuesday at the Sheldon Memorial Art Gallery.

They are Dorothy Kozak, mezzo-soprano, assistant professor of music education; Dale B. Ganz, baritone, professor of voice; Thomas Fritz, accompanist, associate professor of piano; and Harvey Hinshaw, accompanist, associate professor of piano.

The program: "Beau Soir," "Mandoline," and "Romance," by Debussy; "Et Exultavit Spiritus Meus," (from Magnificat) by Bach; "Two Songs for Contralto, Piano, and Viola, Op. 91," by Brahms; "Che Faro Senza Euridice," (from Orfeo) by Gluck; "Infirmata Vulnerata," by Scarlatti; and several Biblical songs by Dvorak.

The featured performers will be assisted by Arnold Schatz, on violin, assistant professor of violin; Donald Lentz on flute, professor of woodwind instruments; and Priscilla Parson, cellist, associate professor of cello and theory.

Navy Officer To Encourage New Enlistments

A Navy WAVE officer from Minneapolis will be on campus March 7 and 8 to discuss opportunities for junior and senior coeds as woman officers in the U.S. Navy.

The woman officer, Lt. Eleanor Kowalczyk, who just reported to the Midwest from duty at the Roosevelt Roads Naval Station near San Juan, Puerto Rico, will speak in the Nebraska Union from 9 a.m. until 4 p.m.

Prior to going to Puerto Rico, she was stationed at Philadelphia and Washington, D.C.

A Navy release announcing her visit noted, "that women officers are serving today side by side with Navy men at home and overseas and providing a nucleus of leadership for a rapid expansion of Navy woman power in case of emergency."

is commonly the accepted case. However, some photographers such as Uelsmann cut, bend and crop the negatives to create an image that is beyond what could otherwise be captured."

"There are as many types of photography as there are photographers," Maddox said. "This is so because the techniques of photography can be conquered quickly, as compared to other forms of visual communication. The photographer can therefore reach the point of individual expression earlier. Often you can find out as much about the photographer as the image he creates by studying the photograph."

"What you pay for in buying a photographic print is the vision of the photographer, not the value of the object of art itself, he concluded.

Maddox will expand these ideas further in a television program concerning the photographic display. The program will be televised on Channel 12 on March 10 and 17 at 9:30 p.m.

Sexual Relations Is Foundation Discussion Topic

The meaning of sexual responsibility is one topic to be taken up in a Wesley Foundation discussion series that will begin Wednesday at 4:30 p.m.

Erich Fromm's "The Art of Loving" is to be used as background for the series which will continue each Wednesday through April 6.

Discussions topics concern an inquiry into the nature of love with relationship to sex. The Rev. Duane Hutchinson will be the discussion leader.

Materials ordinarily reserved for counseling in preparation for marriage will be available for use in the series.

UNSEA Sends State Delegates

The University of Nebraska Student Education Association (UNSEA) will be attending the Student Education Association of Nebraska spring convention March 18 and 19 on the Hastings College campus. Expenses will be paid by UNSEA for those delegates attending.

Any UNSEA member interested in attending the convention is encouraged to contact Carol Branting at 432-1451 or Susie Diffenderfer at 477-4056 by March 2.

A DEBATE TEAM . . . from Kansas State Teachers College at Emporia defeated a team from Minnesota in the final round of competition in the University of Nebraska-sponsored debate tournament on the campus last weekend.

Miss Coufal Earns 'Superior' Rating

University freshman Nancy Coufal won a superior rating in extemporaneous speaking at the Intercollegiate Debate Conference at the University this weekend.

A number of University teams took part in the tournament, which was attended by about three hundred students and coaches, but could not debate for awards in the final quarter because they represented the host school.

Three University teams would otherwise have been

eligible to enter the final competition.

They were: Terry Hall and Vernon Jewett, who won five and lost one in the senior division; Richard Sherman and Randy Prier, who won four and lost two in the junior division; and Douglas Klueder and Dave Erback, who won three and lost three.

The University of Kansas won the sweepstakes award and Kansas State Teachers College at Emporia won the final rounds in both junior and senior division debate.

The sweepstakes award was presented to the over-all winner. The University of Kansas collected 169 points, William Jewell College was second with 163 points and the University of South Dakota was third with 161 points.

Applications For Yell Squad Due

Tryouts for the 1966-67 yell squad will be held April 5 and 7, F. C. Green, yell king, has announced.

Eligibility qualifications for tryouts require that the persons must be at least a second semester freshman with 12 or more hours and must have a minimum of a 2.0 grade average.

Applicants just sign up at the student activities office in the Nebraska Union before Friday.

Practice sessions will be held in the coliseum from March 8 to April 1. Practice times will be Tuesday at 4:45 p.m., Wednesday at 4:45 p.m., Thursday at 7 p.m. and Friday at 4:45 p.m.

Selection of new yell squad members will be on the basis of general appearance, physical ability, audience appeal and ability to project, Green said.

If there are any questions the applicant may call F. C. Green, 477-2671, or Linda Keating, 477-5762.

Flag Base Taken From Ballroom

The base to a flag mounting in the Nebraska Union ballroom was stolen over the weekend, Allen Bennett, Union director, reported.

The Union reported last week that a Nebraska state flag had been taken from the west lounge. Bennett said the base for the flag was not removed and the thief apparently returned to get a base.

Bennett expressed disgust over the thefts and said, "I'm about to let them know we still have two U.S. flags."

Draft

Cont. from pg. 1, col. 7

500 men cut by the Defense Department, due largely to an increase in voluntary enlistments. Plans had been to draft 32,900 men but this number was cut to 22,400.

This is the lowest since 16,500 men were called last August prior to President Johnson's announcement of the buildup for the Viet Nam war.

In announcing the cut, the Defense Department noted that Army enlistments were up 118% in January over the same month one year ago. Marine enlistments were up 165% for the same period.

Reiser Refuses To Debate

President of the Young Republicans, John Reiser, derided Gov. Frank Morrison's suggestion that the campus political groups cooperate in bringing political candidates to the campus for debates.

Morrison made the suggestion at a Young Democrats meeting Tuesday.

"When the Young Republicans need help from Governor Morrison in planning programs for the campus we'll ask him," Reiser said. Commenting on a resolution passed by the Young Democrats supporting a debate between Gov. Morrison and Sen. Carl Curtis, Reiser said, "The Young Republicans do not propose to tell Sen. Curtis how to run his campaign."

K-State Physicist To Give Lectures

A Kansas State University physicist whose interests include advanced electrodynamics and new techniques of wheat inspection will present five lectures at the University March 7-11.

Dr. Robert Katz, professor of physics at Kansas State, will present the lectures in the biochemistry and nutrition auditorium at 8 p.m. March 7, 2 p.m. March 8 and 3:30 p.m. March 9.

He will speak at 4:15 p.m. March 10 in Room 211 in Brace Laboratory and at 2:30 p.m. March 11 in Richards Hall.

The lecture series will be sponsored cooperatively by the departments of physics and agronomy under auspices of the University Research Council.

Campus Calendar

MONDAY
UNION-Office Luncheon, 12:30 p.m., Nebraska Union.

ASUN COURT, 3:30 p.m., Nebraska Union.

UNICORNS-activities, 3:30 p.m., Nebraska Union.

PANHELLENIC, 4 p.m., Nebraska Union.

UNION-Special Events, 4:30 p.m., Nebraska Union.

YMCA, 4:30 p.m., Nebraska Union.

TASSELS, 4:30 p.m., Nebraska Union.

UNION-films, 4:30 p.m., Nebraska Union.

PHI MU, 5:45 p.m., Nebraska Union.

TOWNE CLUB, 6 p.m., Nebraska Union.

DELTA ZETA, 6 p.m., Nebraska Union.

PI KAPPA ALPHA, 6:30 p.m., Nebraska Union.

UNICORNS, 7 p.m., Nebraska Union.

KOSMET KLUB Rehearsal, 7 p.m., Nebraska Union.

TAU KAPPA EPSILON, 7 p.m., Nebraska Union.

MATH COUNSELOR Program, 7:30 p.m., Nebraska Union.

TUESDAY
UNION-Trips and Tours, 2:30 p.m., Nebraska Union.

UNION-Contemporary Arts, 3:30 p.m., Nebraska Union.

New Sky Show At Planetarium

The dynamic motions of the universe will be depicted in the new sky show at the Ralph Mueller Planetarium at the University State Museum.

The show opens for the general public at 8 p.m. Wednesday and will continue through May 1.

The view of the new sky show will be shown how the apparent stable earth deceives us as we speed through space in our galaxy and how scientists have discovered that the earth moves in at least five linear directions.

Equipment in the Planetarium will be set to give the viewer a vivid picture of the movements of our planet and several visual effects will be used to help dramatize the dynamics of movement.

Winter hours are in effect as follows: 8 p.m. Wednesdays, 2:45 p.m. Saturdays, and 2:30 and 3:45 p.m. Sundays and holidays.

Nebraskan Want Ads

These low-cost rates apply to all classified advertising in the Daily Nebraskan: standard rate of 5¢ per word and minimum charge of 50¢ per classified insertion.

Payment for these ads will fall into two categories: (1) ads running less than one week in succession must be paid for before insertion; (2) ads running for more than one week will be paid weekly.

FOR SALE

FOUR SLOT CARS
Two kits—Monogram and Cor—\$5 each.
New! Two Scratchbills—\$7 each. Cox Controller \$7. 432-2548.

Like new Encyclopedia Americana purchased new for \$300 in 1956. All animals since included. Will sell for \$130. Contact 477-4518.

FOR RENT

NEW APARTMENTS—for upperclassmen near University. One or two bedrooms, suite. Available now. Built in kitchen, air-conditioning, private utility, laundry facilities. \$55 per student. Call Jerry Overton 477-4113.

1965 GTO—4 speed; full power; positraction, 17,000 miles; nice. See: Larry Rosenkrantz; Beatrice—Call 223-4254.

Gentry House, 216 Orchard, University approved. Nice private room, cooling, T.V., 477-6284.

ENGLISH MAJORS

ENGLISH MAJOR: Want to make some extra cash? If you've read "War and Peace" Call 434-3943.

When you can't afford to be dull, sharpen your wits with NoDoz.

NoDoz Keep Alert Tablets fight off the hazy, lazy feelings of mental sluggishness. NoDoz helps restore your natural mental vitality...helps quicken physical reactions. You become more naturally alert to people and conditions around you. Yet NoDoz is as safe as coffee. Anytime...when you can't afford to be dull, sharpen your wits with NoDoz.

"Let's unplug the computer, boys! Start thinking!"

A lot of people believe that someday computers will do all their thinking for them.

Well, a funny thing is going to happen on the way to the future:

You're going to have to think harder and longer than ever.

Computers can't dream up things like Picturephone service, Telstar® satellite, and some of the other advances in communications we have made. Of course, we depended on computers to solve some of the problems connected with their development. But computers need absolutely clear and thorough instructions, which means a new and tougher discipline on the human intelligence.

And it will take more than a computer to create a pocket phone the size of a matchbook, let's say...or find

a practical way to lock a door or turn off an oven by remote telephone control, or to make possible some of the other things we'll have someday.

It takes individuals...perhaps you could be one...launching new ideas, proposing innovations and dreaming dreams.

And someday, we're going to have to find a way to dial locations in space. Makes you think.
