

Beatles In Lincoln ... ?

A Lincoln man wants to use the University's Memorial Stadium for a performance by the Beatles this August, but a University official says the school is "not interested."

James Dier, entertainment promoter, said Sunday that he has made a firm offer to representatives of the Beatles on the East Coast to bring the group here this August and that there "is every possibility in the world of getting them."

He explained however that the contract hinges on obtaining the facilities of the University's Memorial Stadium.

"There is no contract with the University stadium," Dier remarked. The Beatles are capable of drawing 60,000 fans as they did in Minneapolis, he said, and this

makes it imperative to have the stadium.

He noted that the Beatles will only be playing in eight cities during their August tour and that many cities are bidding for the foursome.

The Daily Nebraskan contacted Carl Donaldson, University business manager, about Dier's proposal and he referred the paper to Dick Fleming of public relations.

Fleming said the University is "not interested," and that no official contact has

been made with the "front office" as to the rental of the stadium.

Dier said that he had talked with many University officials about the possibility of renting the stadium and that his offer was received "very courteously" by the officials.

He explained that the issue would be decided on at the next meeting of the Board of Regents, perhaps by the end of the week. Dier noted that time is very important to the whole contract.

Kuhn

Economist Joins Staff

An international economist who is a midwesterner by choice will join the University department of economics this fall.

He is Dr. William E. Kuhn, a native of St. Gall, Switzerland, and a research consultant in the international division of the Continental Bank of Chicago. His appointment, effective Sept. 1, was made by the Board of Regents.

Dr. Wallace Peterson, chairman of the department of economics, said, "We are pleased to have a man of Dr. Kuhn's caliber on our staff. His appointment will make it possible for us to strengthen course offerings, research and service in the areas of international economics, economic development, and banking."

Kuhn holds B.A. and Ph.D. degrees from the St. Gall School of Economics and Social Sciences in Switzerland. He came to the U. S. in 1947 to do graduate work at the University of Kansas. He has taught international economics and banking at Augustana College, the University of Wyoming and University of Dacca in East Pakistan.

He also has served on the research staff of the Union Bank of Switzerland and as international economist for the Federal Reserve Bank of Chicago.

The author of numerous technical publications in international economics and money and banking, he is a member of the American Economic Association, Rocky Mountain Social Science Association, and the American Association of University Professors.

Exhibit Represents Quality Binding

An exhibit of 46 books representing the "highest standards of craftsmanship in bookmaking" for 1965 are now on display at the new East Campus library, according to Miss Cosett Kies, assistant librarian.

The C. Y. Thompson Library will display these books until March 25. The exhibit was sent to the library by the Chicago Book Clinic who make up a list of the top books in craftsmanship each year.

Five judges at the clinic, each an expert in his specific field, reviewed over three-hundred books submitted by 61 publishers before choosing this year's exhibit.

The books chosen include: "Dances of Anahae" by Gedrupe Prokosh Kurath and Samuel Marti; "The Birds of Arizona" by Allan Phillips, Joe Marshall and Gale Monson; "Buying the Wind" by Richard Dorson; "The Zircosans" by Pamela Richardson; "Hounds and Hunting in Ancient Greece" by Denison Bingham Hall.

Applications For Orientation Program Set

Applications for student members of the Summer Orientation Program for incoming freshmen next summer are now available in room 129 of the Nebraska Union.

Any interested sophomore, junior or senior may attend an introductory meeting Friday at 3 p.m. in the Union, according to Mrs. Jean Register, director of student activities.

G. Robert Ross, vice chancellor and dean of student affairs, and several members of last year's student staff will be available to discuss and answer questions about the program.

Applications should be turned in no later than March 25.

General Motors Exec To Speak

"Speak Up for America" will be the title of a program March 16 sponsored by Mu Epsilon Nu, University education honorary.

Dr. Kenneth McFarland, who is presently serving as educational consultant and public speaker for General Motors, will speak.

The convocation will be held in the Nebraska Union ballroom at 10:30 a.m.

AWS Communication

Cont. on Page 3, Col. 7 and then consider their ideas later."

Other changes Miss Beckman proposes concern greater utilization of the House of Representatives and incorporation of the standards boards of the living units into the AWS judicial procedure.

"The House of Representatives needs to be more like a second house of AWS," she said, "more like the U.S. Senate. The living units elect the AWS representatives to express their opinions and the house should be truly representative."

Standards Boards

"The individual standards boards could handle some of

the responsibilities of the AWS court," Miss Beckmann said. "At the present time the court handles any type of appeal at all."

Miss Beckmann explained that the individual standards boards could first hear cases and "excuse the ones that obviously should be excused." The boards would hand in written reports to the AWS Court regarding cases they have heard listing the woman's reasons for an infraction and the decision the board reached.

"That way a woman would have a place to appeal," she continued. "Of course more serious infractions would result in calls to court."

She also added that Standards Week should place a greater emphasis on cultural aspects of a woman's development and "have more programs within the living

Further Liberalization

Miss Smith said she would like to see "a continuance of communication between the Board and the students" as well as further liberalization of hours.

"I also think the demerit system could be improved," she said, "but it would be up to a questionnaire to see what the women students want. There should be a general re-evaluation, but the demerit system should not be done away with."

Miss Smith also said that she would like to see Standards Week changed to provide an emphasis on a specific aspect of development and have big-name speakers come to the campus during that week.

Love Memorial Wins Carnival Booth Contest

"One Bat-Turn Deserves Another" was the theme of the winning booth built by Love Memorial Hall at the Estes Carnival Saturday night.

The carnival, which is held annually on East Campus, featured approximately 12 booths built by organizations.

The home economics chapter and the Agronomy Club won the second and third place awards for the best booths.

Warren Bishop of Ag Men was selected the Batman-on-Campus (BOC) at the carnival.

Nebraskan Want Ads

These low-cost rates apply to all classified advertising in the Daily Nebraskan: standard rate of 5c per word and minimum charge of 50c per classified insertion.

Payment for these ads will fall into two categories: (1) ads running less than one week in succession must be paid for before insertion. (2) ads running for more than one week will be sold weekly.

FOR SALE

MUSIC SALE - Annual sale on music books. Prices drastically reduced. Values from 5c to \$2.99. NEBRASKA BOOK STORE.

1963 Encyclopedia Americana, never unpacked, \$200. Call 423-1251.

1965 Honda 300 Super Hawk, excellent condition, 4800 miles, 125 S. 52nd, 488-4089.

FOR RENT

NEW APARTMENTS - for upperclassmen near University. One & two bedroom suite. Available now. Built in kitchen, air-conditioning, private utility, laundry facilities \$55 per student. Call Jerry Gentry House, 2140 Orchard, University approved. Nice private room, cooling, T.V., 477-6268.

Large Apartment, near campus. Also, Efficiency Apartment. Males only. Call 435-4044 evenings.

Apartment available for 1 or 2 boys. 3410 Dudley. 434-4077.

WANTED

Secretary and Building Manager for campus religious center. Prefer husband and wife team with or without children. Semi-furnished seven-room apartment, rent-free plus reasonable salary. Two-year minimum contract. Call or write for interview: U. C. C. F., 333 North 14, Phone 432-6561.

UNIVERSITY RECORDER SOCIETY

Interested Recorder Players, Call or see Richard Vybrtal, Room 315, Music Building.

TRYOUTS

Tryouts for jazz vocalist, male or female, to be featured at the Phi Mu Alpha concert will be held March 10, 8 p.m., North Party Room, Student Union. No appointment necessary. Just come prepared to sing two jazz selections.

University To Assist Colombian Agriculture

Two top University officials will sign a contract to provide aid to Colombian agriculture

Chancellor Clifford Hardin and Board of Regents President Clarence Swanson will sign the measure committing the University to provide technical assistance and advice in agricultural development to the South American nation.

According to Rep. Clair Callan, the proposal has been approved by Colombia officials. The University Regents approved it on Feb. 22.

The project calls for reimbursement of all costs incurred by the University in the project. The first year expenses are estimated at \$570,000. The contract is with the U.S. Agency for International Development (AID), which will pay the costs.

Also co-operating in the project are the Mid-American State Universities Assoc. made up mostly of Big Eight Schools.

The contract is expected to extend over a five-year period, although the initial one calls for only one year.

The assistance will be carried out through the Colombian Agriculture Institute at the National University Schools of Agriculture and Veterinary Medicine at Bogota, Medellin and Palmira.

The chancellor will go to Bogota from Caracas, Venezuela, where he spent last week at the Conference on Higher Education in the American Republics (CHEAR). Hardin was one of 40 educators of the western hemisphere attending the meeting and is also a member of the executive committee.

The new sky show will continue through May 1. Winter sky show hours in the planetarium are as follows: 8 p.m. Wednesdays, 2:45 p.m. Saturdays, and 2:30 and 3:45 p.m. Sundays and holidays.

SOPHOMORE MEN:

Want to be a leader and double your chances for success in life? You can, by earning both a degree and an Army officer's commission at the same time... even though you may not have taken ROTC training in your first two years!

Through a new program, you can be commissioned as a Second Lieutenant after taking two years of Army ROTC training while you complete your studies for a college degree. You can qualify for this program by attending a special six-week summer training camp after your sophomore year and then completing the ROTC Advanced Course in your junior and senior years of college.

Here's what ROTC training and an officer's commission will do for you:

- It will qualify you to fulfill your military obligation as an officer.
- You will learn to organize, motivate, and lead others.
- You will develop leadership qualities that many college men miss—self-discipline, physical stamina, poise, bearing, the acceptance of responsibility and other qualities that contribute to success in either a civilian or military career.
- You will receive \$40 per month during your junior and senior years, plus pay and mileage for summer training.

The training and experience you will receive through Army ROTC will pay off for the rest of your life. A decision to take advantage of this new program could be one of the most important you will ever make.

You owe it to yourself to investigate this new important opportunity.

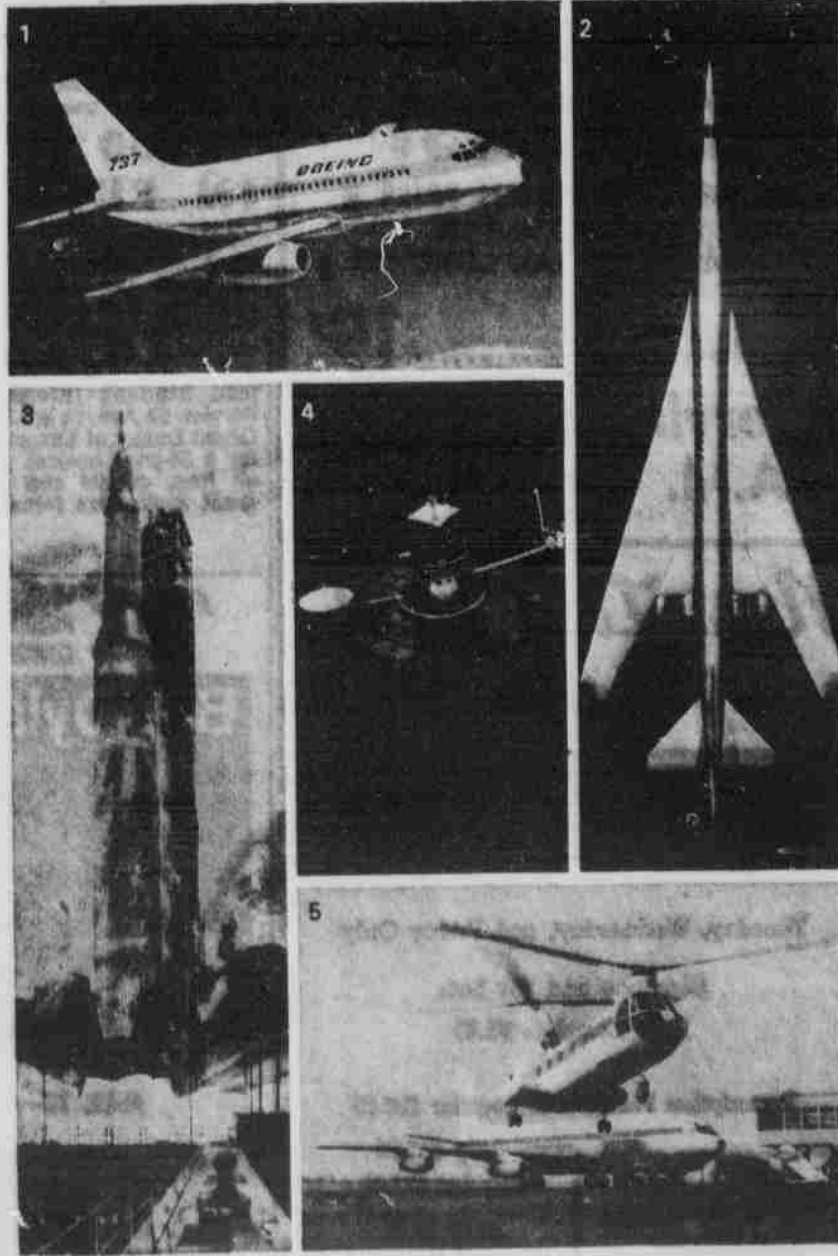

For complete information on the new Two-Year Army ROTC Program see the Professor of Military Science on campus.

ARMY ROTC

IF YOU ARE GOOD ENOUGH TO BE A LEADER, DON'T SETTLE FOR LESS!

Engineers and Scientists: Let's talk about a career at Boeing... 50-year leader in aerospace technology

Campus Interviews, Tuesday, March 22

The most effective way to evaluate a company in terms of its potential for dynamic career growth is to examine its past record, its current status, and its prospects and planning for the future, together with the professional climate it offers for the development of your individual capabilities.

Boeing, which in 1966 completes 50 years of unmatched aircraft innovation and production, offers you career opportunities as diverse as its extensive and varied backlog. Whether your interests lie in the field of commercial jet airliners of the future or in space-flight technology, you can find at Boeing an opening which combines professional challenge and long-range stability.

The men of Boeing are today pioneering evolutionary advances in both civilian and military aircraft, as well as in space programs of such historic importance as America's first moon landing. Missiles, space vehicles, gas turbine engines, transport helicopters, marine vehicles and basic research are other areas of Boeing activity.

There's a spot where your talents can mature and grow at Boeing, in research, design, test, manufacturing or administration. The company's position as world leader in jet transportation provides a measure of the calibre of people with whom you would work. In addition, Boeing people work in small groups, where initiative and ability get maximum exposure. Boeing encourages participation in the company-paid Graduate Study Program at leading colleges and universities near company installations.

We're looking forward to meeting engineering, mathematics and science seniors and graduate students during our visit to your campus. Make an appointment now at your placement office. Boeing is an equal opportunity employer.

- (1) Boeing's new short-range 737 jetliner.
- (2) Variable-sweep wing design for the nation's first supersonic commercial jet transport.
- (3) NASA's Saturn Y launch vehicle will power orbital and deep-space flights.
- (4) Model of Lunar Orbiter Boeing is building for NASA.
- (5) Boeing-Vertol 107 transport helicopter shown with Boeing 707 jetliner.
