

Journalism . . . \$5,000 Offered Students

Freshmen entering the University School of Journalism next fall will benefit from \$5,000 in scholarships, according to Dr. William E. Hall, director of the School.

The newest addition to the ranks of the scholarship donors is the Nebraska City News-Press, which recently established a \$300 scholarship in memory of the late J. Hyde Sweet, publisher of the News-Press for more than 50 years.

The News-Press joins 14 other Nebraska newspapers and broadcasters offering grants to high school graduating seniors.

Hall said the recipients are being selected from those high school seniors who have taken the Regents' Examination and who have submitted a scholarship application to the University. Award winners will be notified early in April and honored at the annual Silver Key Banquet in Lincoln April 30.

With the exception of two, \$250 grants offered by the Lincoln Journal and Star for graduates living outside Lincoln, all of the scholarships will be given to students from the donors' respective trade areas, Hall noted.

Other scholarships available:

- Beatrice Sun Scholarship, \$250;
- Beef Empire Stations (WJAG, Norfolk; KVSH, Valentine; KCSR, Chadron; and KCOL, Fort Collins, Colo.) \$264;
- J. Stewart Elliott Memorial Fund, scholarships and loans, \$1,000, preference given to graduates of Beatrice High School;
- Fremont Tribune Scholarship (two), \$500;
- Grand Island Independent Scholarship, \$300;
- Hastings Tribune Scholarship, \$300;
- Lincoln Journal and Star Scholarships (six), \$900;
- Zela H. Loomis Memorial Scholarship (Columbus Daily Tribune) \$300;
- Nebraska Broadcasters Assn. Scholarship (one or more) \$264;
- Norfolk Daily News Scholarship, \$250;
- North Platte Telegraph-Bulletin Scholarship, \$200;
- Scottsbluff Star-Herald Scholarship, \$250;
- Harry D. Strunk Memorial Scholarship (McCook Daily Gazette) \$275;
- Stuart Stations Scholarship (KFOR, Lincoln; KRG1, Grand Island; KMNS, Sioux City, Iowa) \$264.

Theta Sigma Phi Spring Banquet Speaker Chosen

A Wyoming newspaper editor will be the guest speaker at the annual spring banquet of Theta Sigma Phi, professional fraternity for women in journalism at the University April 2.

She is Carolyn Butler Tyler, editor of the Riverton (Wyo.) Daily Ranger and native of Neligh. The Theta Sigma Phi banquet will be held in the Nebraska Union and will be open to all women journalists in Nebraska.

A 1957 graduate of the University, Mrs. Tyler was recognized in the 1965 edition of "Outstanding Young Women of America." She was named the outstanding women journalist for the third consecutive year and won 10 first place editing and photo awards in the Wyoming Women's Press Contest.

Med School Test Applications Due

The Medical College Admission Test will be held May 7 and Oct. 22.

Thomas Thorson, chairman of the premedical advisory committee, said that all students who wish to apply for admission to any medical school in the fall of 1967 are required to take this test.

He said that those wishing to take the exam on May 7 must apply by April 23.

AMBITIOUS FRESHMEN . . . Kate Okamoto, Janie Prentiss, and Rae Schupak enjoy a few moments of relaxation after bicycling 60 miles from Omaha. The trip took 6 hours.

Girls Arrive Tired, Sore, Sunburned After Omaha-To-Lincoln 'Bikeathon'

Three freshman coeds proved the exception to last Saturday's regimen of sunbathing. Instead, they bicycled fifty miles from Omaha to Lincoln.

Janie Prentiss, Kate Okamoto and Rae Schupak packed a lunch and set out peddling from Omaha along highway 6 at 12:30. After six hours the three finally arrived at the Women's Residence Hall in Lincoln at 6:30 in the evening.

"It was Rae's idea, and we did it mainly to get her bicycle from Omaha to Lincoln," Miss Prentiss stated.

"It sounded easy at first, but it was horrible," Miss Okamoto said.

"It was good exercise, but

I would never do it again," explained Miss Schupak.

"Left At Highway"

Miss Prentiss' parents took the three girls to the beginning of the highway outside Omaha and left them.

"My parents didn't believe we could do it," explained Miss Prentiss, "and when I called them from Lincoln that night my brother yelled, 'She made it!'"

Miss Prentiss described the feat as simple. She noted that the road was hilly near Omaha, but was, on the whole, much flatter than the Interstate route.

However, Miss Okamoto made further comment on the "three miles of gruelling hills." "Jane would race

ahead, and Rae would be huffing and puffing behind us. Rae had the worst bicycle, so we traded every so often.

Stopped By Police

Miss Schupak stated, "It was a hard ride. We had to stop every hour or so for five minute breaks."

The three coeds were stopped by the police once.

"For speeding," stated Miss Schupak, who later admitted that they had been stopped for riding in the middle of the road up hills.

"The policeman was very nice and was concerned about the cars that were passing us on the hills," Miss Prentiss explained.

Beautiful Day

They described the day as beautiful with a good wind. Miss Okamoto noted that the highway was almost deserted.

"I was sore all over when we got to Lincoln," said Miss Okamoto, "but I think Rae suffered the most—from sunburn."

The three girls have no immediate plans for future bikeathons, but set up some rules to be observed in event of another ride.

"We should have started earlier and gotten more sleep the night before," stated Miss Okamoto. "Also, we were foolish not to have taken any repair tools. Fortunately, we didn't have an accident, but the very next day the tire on my bicycle had a blow-out."

Miss Prentiss shipped her bicycle back to Omaha, but Miss Schupak and Miss Okamoto intend to keep their vehicles on campus for short trips in Lincoln.

Quiz Bowl Schedule

Quiz Bowl games will be held both this Thursday and Sunday.

Eight teams will compete in games both days. The Thursday matches begin at 7 p.m. and the Sunday matches at 2 p.m.

Teams must report to isolation at the beginning of the half in which they play or be disqualified according to Larry Johnson, chairman.

Thursday's matches are: Fiji I vs. Farmhouse A, 7; Theta Xi I vs. Beta Theta Pi II, 7:25; Misnomers vs. Delta Sigma Phi, 7:50; ATO Actives vs. The Old Guard, 8:15; Kappa Alpha Theta I vs. Kappa Sigma A, 8:40; Sigma Chi I vs. Sigma Delta Tau, 9:05; Tweed Rings vs. Alpha Xi Delta Cards, 9:20; and Burnette Hall vs. Chi Phi B, 9:50.

Sunday's matches are: The Lights vs. Delta Gamma I, 2; Phi Delta I vs. DU I, 2:25; Fiji Freshmen vs. Beta Theta Pi III, 2:50; Theta Chi I vs. Pious Priors, 3:15; Sigma Chi II vs. Alpha Chi Omega, 4:05; Acacia vs. Theta Xi II, 4:30; Love Memorial Hall vs. Pretenders, 8:45.

IFC To Discuss Rush Week Fees

Rush Week fees and schedules will be decided upon by the Interfraternity Council at its meeting Wednesday night.

Gary Larsen, president, noted that the rush book is on schedule and that getting the information on Rush Week into the printer will help to complete the book on time.

The meeting will be held at the Phi Gamma Delta fraternity house.

Varying Views Aired On the 'Pill', Abortion

"No child should be born if he is not wanted by the mother and father."

This was one of the many opinions presented Sunday evening at a discussion sponsored by the Hillel Foundation, an organization for Jewish students.

The subjects under discussion were birth control, mercy killings and abortions although most of the talk centered on birth control.

Concerning the opinion that children should not be born if they are not wanted, one speaker contended that finances and other factors affecting the happiness of the child and

the parents should be considered.

"If this happiness is going to be impaired, the child should not be born," he said. The individual advocated the use of birth control pills to cut down the number of unwanted births.

Another person argued that birth control pills were designed for protection, relating to health, rather than a preventative method. He said that the Catholic Church wanted to affirm the value of the mind and feared the damaging of the dignity of man through the use of birth control pills.

"But the dignity of man can be helped by keeping down the number of people dying of starvation," answered another. "Starvation could be alleviated somewhat by lowering the number of births. This could be accomplished through the use of birth control pills."

Another student said that modernization and improvement of living conditions were key solutions to the birth control problem. He cited a statistic that said 150 percent of the rural Mexican natives' interest is toward sex. "In other words it's the only form of recreation possible," he concluded.

The topic of distribution of

birth control pills by Student Health was also touched upon.

One student felt that "this would be an open endorsement of extramarital sex by the administration." He didn't think this would happen in the conceivable future.

Mersey killings were brought out in the discussion. A student stated that from the economic standpoint, mercy killings were acceptable. But in speaking in relation to the dignity of man, they were wrong.

"There is a difference between prolonging a life and ending a life. I also can't see the rationalization of killing a baby before birth because of the possibility it may be born with deformities. I do not believe that just because we can prolong lives by medicine, that we have the right to end lives by medicine," this student said.

Campaign Issues To Be Discussed At YD Meeting

Representatives of Congressman Clair Callan, Gov. Frank Morrison and Lt. Gov. Phil Sorenson will speak at the Young Democrats meeting Wednesday at 7:30 p.m. in the Nebraska Union.

YD President Tom Booth said the three speakers yet to be named, will discuss the likely issues and problems of the respective campaigns for First District congressman, senator and governor.

He said that the YD's will also discuss the University's YD summer program called "Campaign Readiness 66" at the meeting.

A question and answer period and a coffee hour will follow the talks by the three speakers.

Miss Keim's Activities Given

A paragraph in Monday's Daily Nebraskan describing the activities of Mary Keim, one of the eleven finalists for Miss E. Week, was left out of the paper.

Miss Keim, a freshman majoring in languages, is a member of Alpha Phi sorority. She is an ASUN associate and was a finalist for Junior IFC queen and Miss Derby Day.

Band Concert Set For Sunday

Members of the University Symphonic Band will present a public concert at 3 p.m., Sunday in the Nebraska Union ballroom.

Prof. Donald Lentz will conduct the band. Guest soloist will be Dr. William C. Willett, professor of clarinet and saxophone at the State University College, Fredonia, N.Y.

Dr. Pharis Discusses Education Of Future

Education for the future was discussed Tuesday at the regular meeting of the Assn. for Childhood Education (A.C.H.)

Dr. William Pharis, associate professor of elementary education, spoke on the need for preparing people for life in the future. He emphasized the necessity for the teacher to motivate the student, in addition to teaching the subject.

"Once the student is motivated, then the problem is to keep up with him rather than having to prod him along. Keeping up is a much more desirable task," he said.

"One way to get people to do something is to reward them for doing the right thing in a correct manner," he added. "Reward gets constant results. Practice makes perfect, but when you do it wrong, it gets worse. One must do it correctly in order to improve."

Another problem Pharis said that all teachers face is that students will do only as much as necessary. If a student asks why it is necessary

to know how to diagram a sentence, the teacher should be able to explain why.

"The purpose of teaching and what we are doing is much more complex than it was fifty years ago. Then we didn't worry about the personality of the students, psychosis, etc. Today, the teacher these problems in addition to teaching the subject, and the task is not going to get easier," Pharis continued.

Pharis noted "that a butcher with a meat axe can't do as much harm as a teacher with a student. It is time to stop playing schoolhouse and get something done. We must re-examine what we are doing in education."

AGR To Sponsor Officer Program

A one-day officer training school will be sponsored by Alpha Gamma Rho fraternity Saturday.

The school will include discussions on chapter officers, communications, pledge supervision, finances and scholarship.

Forty-two delegates from AGR chapters at Iowa State, Oklahoma State, Colorado State and Kansas State will attend the meeting.

AGR's province counselor Elmo Baumann from Pi chapter at Oklahoma State and J. Clyde Driggers, AGR national first vice president, will attend the meeting.

Dr. Don Clifton, associate professor of history and principles of education and educational psychology, will speak on how human relations relate to the fraternity, at a banquet Saturday evening.

Engineers and Scientists:
Let's talk about a career at Boeing...
50-year leader in aerospace technology

Campus Interviews, Tuesday, March 22

The most effective way to evaluate a company in terms of its potential for dynamic career growth is to examine its past record, its current status, and its prospects and planning for the future, together with the professional climate it offers for the development of your individual capabilities.

Boeing, which in 1966 completes 50 years of unmatched aircraft innovation and production, offers you career opportunities as diverse as its extensive and varied backlog. Whether your interests lie in the field of commercial jet airliners of the future or in space-flight technology, you can find at Boeing an opening which combines professional challenge and long-range stability.

The men of Boeing are today pioneering evolutionary advances in both civilian and military aircraft, as well as in space programs of such historic importance as America's first moon landing. Missiles, space vehicles, gas turbine engines, transport helicopters, marine vehicles and basic research are other areas of Boeing activity.

There's a spot where your talents can mature and grow at Boeing, in research, design, test, manufacturing or administration. The company's position as world leader in jet transportation provides a measure of the calibre of people with whom you would work. In addition, Boeing people work in small groups, where initiative and ability get maximum exposure. Boeing encourages participation in the company-paid Graduate Study Program at leading colleges and universities near company installations.

We're looking forward to meeting engineering, mathematics and science seniors and graduate students during our visit to your campus. Make an appointment now at your placement office. Boeing is an equal opportunity employer.
