#### **Debaters Receive Tourney Honors**

Two Nebraska debaters, Richard Sherman and Terry Hall, received top honors from the Purdue Invitational Debate Tournament held last weekend. Dr. Donald Olson, debate coach, announced that Sherman placed first and Hall placed third in the quality evaluations held after the preliminary rounds.

Sherman and Hall won five and lost two of the preliminary debates, but they were defeated in the octi-finals by Northwestern University. Sherry Wentzel and John Drodow who also participated in the tournament won three rounds and lost three rounds.

Dr. Olson said that the teams performed well in competition with some of the best debaters in the country from Northwestern, Michigan, Ohio, Illinois and Indiana. Sixty-six teams were entered in the contest.

Sculpture Garden? . . . **Area Developments Use Natural Terrain** 

#### By GARY GILLEN **Junior Staff Writer**

Landscaping of the area between the art, architecture, and music buildings. which has been under consideration for the past five years, is now leaning toward development according to the natural lay of the land, according to Carl A. Davis, University business manag-

"By using the natural terrain as a basis for improvement, existing benefits of the area. such as the trees. can be retained and it will involve much less work," he said.

Donaldson pointed out that when the original proposals for the area were taking shape the trend was to level the area and base the improvement on a flat terrain.

"The natural development trend would be better suited to student affairs held in that part of the campus, because spectators will be able to see better if they aren't on the same plane as the activity." Donaldson said.

He expected some definite plans to take shape when the new recital hall, which will be located just east of the music building, is built. "We won't know what the area will look like includ-

ing the new recital hall for at least two years," he said. Two committees have been set up to submit plans for the project, but so far they have been unable to

come up with an agreement.

"During the past few years the University plan

ners have come up with sev-

eral different times as to

what should be done, but

now the trend is to wait for

the completion of the recital

hall." Donaldson remarked.

First attempts to improve

the area were begun in 1962

by the architecture depart-

ment but nothing definite

resulted, according to Dr.

Murlin R. Hodgell, director

of the architecture depart-

posal was about double the available funds, Johnson was asked to submit a less expensive design, Hodgell said

drawings calling for a sys-

tem of islands surrounded

"The architect refused to re-submit the plans and so the project was tabled." he said.

Funds for the project will come from the Sheldon Foundation and the money left over from the construction of the Sheldon Art Gallery. Donaldson said.

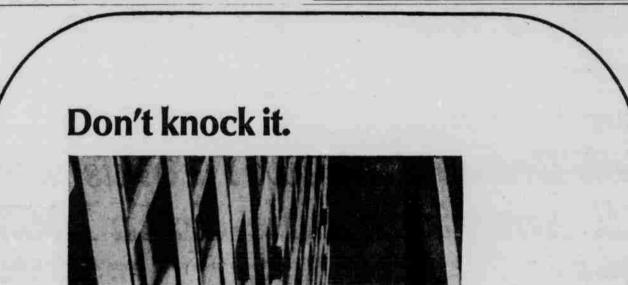

"While the money for the construction of the art gallery was in a trust it grew to be more than was needed for the construction of the building." Donaldson pointed out.

The University now tentatively plans to spend about \$200,000 on the project. Johnson's plans called for about \$600.000.

### **ARE YOU QUALIFIED** TO BE A JET PILOT?

If you think you measure up, and have two years remaining at the university, contact the Professor of Aerospace Studies about the two-year Air Force ROTC program no later than 21 Nov. 1967.

ALL COLORS ... ALL SIZES ... ALL FIBERS

# WALL ST.

Sure. Business is business. The rules are tough And the rewards often questionable. It breeds materialism, Strangles the little guy, Kills the soul ... If you let it.

But did you ever think, American Business feeds you Three squares a day in a world Where starvation is a too-common diet. Provides you with warm clothes And a lot more than shelter Enriches your leisure hours with Art, music, theater, literature On a scale that is the despair Of the 5-Year Planners Of Cultural Revolutions.

Business puts London in your living room And you within 10 hours of Istanbul. It can make a good living for you And a better life for everyone ... If you make it. We hope you do. You are our life insurance.
