

Baily wins race for IDA office

Eyster selected for vice presidential post

by Mark Gordon
Senior Staff Writer

Bruce Bailey of Cather Hall and Mike Eyster of Select Quad were overwhelmingly elected Inter-Dormitory Association (IDA) president and vice president, respectively, in Friday's IDA executive elections.

Both candidates, who assume office Thursday, won handily in the IDA's second executive elections which drew almost one-third of the eligible voters.

Bailey tallied 1,120 votes compared to Harper Hall's write-in candidate George Saunders, who received 259 votes.

Vice president-elect Eyster received 1,056 tallies in outpointing Harper Hall's write-in candidate Pierre Daggett, who won 238 votes.

Bailey, current Cather Hall president, stressed programs ranging from a constitutional revision committee to a freshman orientation committee as primary goals of the new executive team.

Constitution revision

He said enough committee members to permit debate on controversial topics would be appointed within two weeks to revise the IDA constitution for acceptance by ASUN.

He listed changing the executive election date from the third week of second semester to mid-April to permit unsuccessful student candidates to campaign for IDA offices as a vital element of a revised constitution.

Bailey said other constitutional difficulties to be ironed out include writing a withdrawal clause enabling member dormitories to withdraw from IDA and establishing definite guidelines for qualifications of executive candidates.

Open house committee

Calling the open house controversy an essential element in the upcoming weeks, the president-elect said an open house committee consisting of five or six members would be appointed within the week.

He said the committee would pursue research in the solutions of the open house controversy which has been continuing since September.

The junior architecture major from Omaha said he would send representatives to the English department to obtain a test to "scare freshman into using the IDA's freshman study-skill program."

Since the IDA social and educational efforts have trailed the open housing issue, the former areas will receive added emphasis this semester, he said.

Social chair vacant

Eyster, present Selleck Quad president, said the social committee has almost been non-existent, since the position of social chairman has been vacant this year.

"It may seem like we're stressing it at first since we've never really had any group in the past," the vice-president-elect said.

Bailey said a residence hall weekend will be held late this spring, consisting of an event in each dormitory, which

would be culminated with a Sunday afternoon dance.

He added that a monthly briefing session with all dormitory executive officers with campus student and administrative leaders speaking would be held this semester.

Committee chairmans

Bailey added that his committee chairmanships for the activities, social, scholastic and administrative coordinating committees would be announced within two weeks.

In attempting to improve communications on both an internal and external level, Eyster said a position of publicity director would be created.

The newly created officer would have the responsibility of distributing a newsletter to all member dormitories and also would work with the activities chairman in organizing an activities calendar.

Bailey said the main objective of his administration was to show the member resident the IDA can fulfill their needs while acting as the voice between the residence halls and the University administration.

Work for representatives

"The Council representatives will be doing reference work to make sure they remain interested and go back to their residents," Bailey said.

As the officer charged with coordinating IDA committees, the vice president-elect felt the IDA would be strengthened by improving the committee system.

"They all need improvement," the sophomore history major from Bellevue said. "In the past the committees were as efficient as they could have been."

The two dormitory leaders said they would work together for a better understanding of problems and would seek to eliminate overlapping goals.

"If there is ever a need for clarification for anything IDA does, both Mike and I will both be willing to talk with residents," Bailey said.

IDA president-elect Bruce Bailey (left) plans his strategy with the help of Mike Eyster, IDA vice president-elect. Bailey will appeal the present open house policy to the Faculty Senate Committee on Student Affairs this week.

Petition to recall Page passes half-way mark

Organizers of a recall petition against Abel-Sandoz President Richard Page have collected more than half of the required 500 signatures needed for a recall election, Clark Spivey, the petition's originator said Sunday.

He said 280 signatures have been collected and he anticipated obtaining the remaining names by next Sunday.

Spivey, an Abel-nine resident, and other floor members began efforts to recall Page after the dormitory president "failed to reflect the feelings of the Abel-Sandoz residents" regarding Harper Hall's action, he said.

In a Feb. 4 open house at Harper Hall, the dormitory openly violated the open door policy after its Student Senate announced (in a motion passed the preceding week) the hall's intention to violate the policy.

Spivey said he has heard comments that the petition should have recalled the 17 members of the executive council who passed the resolution which petition organizers feel failed to support Harper Hall.

He said other residents felt the group should have sponsored an initiative petition requiring the Abel-Sandoz cabinet to pass another resolution.

"This (the recall against Page) is ultimately more efficient and it will achieve the same purpose anyway," Spivey said.

He said the petition would not jeopardize Page's presidency if he can successfully defend his policies in the recall election.

If the 500 signatures are presented to the Abel-Sandoz cabinet, it will force a recall election within two weeks providing the petition's validity is approved by the Cabinet.

Although pleased that the petition's backers are employing legal channels, Page said the charges were based on misinformation since he was simply following instructions from the executive council.

"If the individual residents don't feel the floor presidents (who compose the executive council) aren't representing them, then it's their duty to get the presidents to vote the way they want them," Page said.

He said the charges that he didn't support Harper Hall

are inaccurate, because he is as determined as other residents to alter the open door policy.

Page added that if a recall election was required, he would be a candidate for Abel-Sandoz President.

The petition reads: "We, the undersigned, petition the recall of Richard Page, Abel-Sandoz President, because of the inadequacy of his leadership in this period of disquiet relating to open house policies."

All residence halls unify to protest open door rule

A statement of policy expressing a unified effort by all campus residence halls to alter the open door rule of the new open house policy was issued jointly Saturday by three dormitory leaders.

The statement, which received unanimous approval by the Inter-Dormitory Association (IDA) Council last week, also reaffirmed previous IDA resolutions backing Harper Hall which defied the open door rule in an open house two weeks ago.

Brian Ridenour, IDA president, who issued the statement with Abel-Sandoz President Richard Page and Harper Hall President Bill Chaloupka, said the paper indicated that the residence halls are providing a unified front to alter the open door ruling.

All Doors Open

The open door policy states that all doors except those of residents absent from the floor during the open house must remain open and those residents leaving the floor must register their absence with the responsible officer.

Page, who with IDA president-elect Bruce Bailey will appeal the present open house policy this week to the

Faculty Senate Committee on Student Affairs, said the statement "brought all of us together now."

Contents of Statement

The statement reads: "It is the intention of the IDA Council in conjunction with the Abel-Sandoz Residence Association (ASRA), Harper and all the other residence halls on campus to seek

a change in the fifth article of the new open house policy. Furthermore, it must be made implicit that the entire residence hall system, including ASRA, has and will continue to support Harper Hall. At this stage of the effort to obtain a change in article five it is the intention of the residence hall system to work in a responsible manner through all legitimate means available to us."

Special travel rates available to students

Tickets are now available for special-rate student travel to Europe. Plane fare has been nearly halved, according to Gottfried Voelker of the European Student Association.

A New York - Amsterdam flight departing June 19 and returning August 29 will cost \$270 and a New York-German trip for \$235 leaves July 7 and returns Sept. 8.

According to Voelker, students will be free to travel as they wish during their stay in Europe.

Special prices for traveling on the continent will be available, also, he added.

"Tickets are available throughout Europe and to the Orient as far as Bangkok for less than half price," Voelker said.

The European Student Association will also provide information on cutting living costs while in Europe, he said.

If your major is listed here, IBM would like to talk with you February 26th or 27th.

Sign up for an interview at your placement office—even if you're headed for graduate school or military service.

Maybe you think you need a technical background to work for us. Not true. Sure we need engineers and scientists. But we also need liberal arts and business majors. We'd like to talk with you even if you're in something as far afield as Music. Not that we'd hire you to analyze Bach fugues. But we might hire you to analyze problems as a computer programmer.

What you can do at IBM
The point is, our business isn't just setting computers. It's solving problems. So if you have a logical mind, we need you to help our customers solve problems in such diverse areas

as government, business, law, education, medicine, science, the humanities.

Whatever your major, you can do a lot of good things at IBM. Change the world (maybe). Continue your education (certainly, through plans such as our Tuition Refund Program). And have a wide choice of places to work (we have over 300 locations throughout the United States).

What to do next
We'll be on campus to interview for careers in Marketing, Computer Applications, Programming, Research, Design and Development, Manufacturing, Field Engineering, and Finance and Administration. If you can't make a campus interview, send an outline of your interests and educational background to Mr. I. C. Pfeiffer, IBM Corporation, 100 South Wacker Drive, Chicago, Illinois 60606. **IBM.** We're an equal opportunity employer.
