

Distinguished alums return for Masters presentation

Eleven distinguished University alumni will return to campus April 22 and 23 for the ASUN Masters Program.

According to ASUN chairman Carolyn Eldred, the 11 Masters will participate in the two-day program meeting students at living units and in specially assigned areas of particular interest to the Masters.

An open session, to be held Monday, April 22, at 2:30 p.m. in the Nebraska Union, will be the only opportunity for students to meet all the Masters together, Miss Eldred said.

Lee C. White, a returning Master, will be the main speaker for the University Honors Convocation honoring students ranking in the upper ten per cent of their class. This program will be held Tuesday, April 23, at 10:30 a.m. in the Coliseum. Classes have been canceled for the event.

Innocents tackle white

A member of Sigma Alpha Mu Fraternity, White was tackled Innocent at the University. Graduating in 1948 with a degree of Bachelor of Science and Electrical Engineering, White was editor-in-chief of Law Review in 1949 and received a law degree in 1950.

On the staff of John F. Kennedy in 1954, White was made counsel to a Senate Small Business Committee in 1957. In 1958 he served as administrative assistant to Republican Senator John Sherman Cooper of Kentucky.

As a member of the White House Staff, White was special assistant to Theodore C. Sorensen, then chief counsel under the Kennedy Administration.

The head of a Sub-Cabinet Committee on Civil Rights for Kennedy, White was made Special Counsel to President Johnson in 1964. White now serves as Chairman of the Federal Power Commission.

Alberty participates

Dr. Robert A. Alberty, also participating in the Masters Program, received membership in the fraternity honoraries of Sigma Xi, Phi Lambda Upsilon and Pi Mu Epsilon.

A Phi Beta Kappa and Student Council member, Alberty received a Bachelor of Science Degree in Chemistry in 1943 and a Master of Science Degree in 1944.

Attaining a Ph.D. in Chemistry at the University of Wisconsin in 1947, Alberty also received an Honorary Doctor of Science Degree from the University of Nebraska in 1967.

A physical chemist, Alberty is a leader in research fields concerned with electrophoresis of proteins, theory of the moving boundary method ionization constants, enzyme kinetics and magnetic resonance.

Receives research grant

In 1952 he received a research grant from the National Science Foundation to study molecular kinetics and in 1955 received the Eli Lilly Award in Biological Chemistry to do research on enzyme kinetics.

The co-author of the books, "Physical Chemistry" and "Experimental Physical Chemistry", Alberty is a member of the editorial board of the Journal of American Chemical Society and Journal of Biological Chemistry.

In 1961 he was given research support from the National Institutes of Health to do research at the Max Planck Institute for Physical Chemistry in Germany.

Alberty, who served on the National Science Foundation Panel for Molecular Biology and on the National Institute Panel for Biophysics, was made University of Wisconsin Dean of Letters and Science in 1962 and Dean of Graduate School in 1963.

He is now dean of the MIT School of Science.

Cook will appear

The President of Bankers Life of Nebraska Insurance Company, George Brash Cook, will also participate in the Masters Program.

A member of Phi Kappa Psi fraternity, Cook entered the University in 1927 and was graduated from the Babson Institute of Boston, Mass. Cook was named honorary Innocent in 1960.

The recipient of the Distinguished Service Award of the University Alumni Association in 1962, Cook also received the 1964 Builder Award from the University Builders.

A former president of the Nebraska Alumni Association, Cook headed Lincoln's campaign for funds toward construction of the Nebraska Center for Continuing Education.

President of Foundation

Cook was past president of the Lincoln Chamber Industrial Development Corporation and chairman of the University Foundation Finance Committee.

Also among the distinguished alums is Lieutenant General Earl C. Hedlund, who received a Bachelor of Science in Agriculture in 1938. Continuing his education at the University of Illinois, Hedlund received a Master's Degree in Science in 1939 and a Ph.D. in 1948.

Activities at the University included Farmhouse Treasurer, member of Innocents, Block and Bridal president, Corn Cobs, Agriculture Executive Board and Farmers Fair Board.

He also participated on the mate judging team, Cornhusker staff, Countryman staff, Interfraternity Council, Pershing Rifles and Red Gorge.

Receiving a ROTC commission in 1938, Hedlund completed pilot training in 1942 and entered the Naval War College.

Hedlund fights

Credited with destroying 15 enemy aircraft, Hedlund had 170 fighter missions and 547 combat hours during World War II.

He received the distinguished Service Cross for services in aerial combat following the Normandy Invasion.

Hedlund, who was director of Transportation Headquarters in Tokyo and in Washington, assumed command of the Warner Robbins Air Material Area, Air Force Logistics Command, Robbins AFB, Ga. Hedlund was nominated by the late President John F. Kennedy for Major General.

Houghton gets degrees

Dr. Henrietta Fleck Houghton received her Bachelor of Science Degree in Home Economics at the University in 1932 and a Ph.D. degree from Ohio University in 1944.

A member of the staff of Santa Barbara College and Riverside Community Hospital, Dr. Houghton was made Dietician at the Santa Barbara Cottage Hospital in 1930.

In 1932 Dr. Houghton was instructor of Foods and Nutrition at the Women's College, University of Delaware. Head of the Home Economics Department of the Illinois State Normal College in 1944, Dr. Houghton was chairman of the Home Economics Department of New York University in 1949. She is also a contributing editor of Forecasts for Home Economics.

Kiddoo graduated in '13

Guy C. Kiddoo, who will also participate in the Masters Program, was a member of the graduating class of 1913.

A member of Innocents, Kiddoo was admitted at the Nebraska Bar in 1914. A member of the Omaha Trust Company from 1914 to 1917, he was trust officer and vice president of the Omaha National Bank from 1922 to 1930.

A member of the American Securities Corporation in 1930, Kiddoo was vice president of First National Bank of Chicago in 1933. In 1938 he was trust officer of City National Bank.

Also among the returning masters is Louis C. Lundstrom who received a Master's degree in Engineering in 1939 and an honorary Doctor of Engineering degree in 1962. Active in Sigma Tau, Lundstrom was awarded the Sigma Xi key.

Heads G.M. department

After serving as project engineer on transmission and War II, he became the head of the Mechanical Engineering Department at General Motors proving grounds.

Named assistant director of the Milford proving grounds in 1954, Lundstrom was later named Director of Automotive Safety Engineering of General Motors.

Lundstrom is a member of

the Engineering Advisory Board of the Society of Automotive Engineers and of the Executive Committee of the Highway Research Board of National Academy of Sciences, National research Council.

Lundstrom is chairman of the Vehicle Safety Development Committee of the Automobile Manufacturers Association.

Earns Phi Beta Kappa

Returning Master Anan R. Raymond was named a member of Phi Beta Kappa, a member of Phi Kappa Psi Fraternity, Union, Delta Sigma Rho, Phi Delta Phi and recipient of the Distinguished Service Award.

A prominent Chicago lawyer of Raymond, Mayer, Jenner and Block law firm since 1931, Raymond was vice president for the State Bank of Chicago and also of the Forman State Trust and Savings Bank of Chicago.

Raymond is past president of the Nebraska Bar Association and the Chicago Law Club.

A Trustee and Class Agent for the University of Nebraska Foundation, Raymond is a member of the following Bar Associations: Nebraska State, Chicago, Illinois State, Federal, International and American.

A former four-year president of the Board of Trustees, Kenilworth, Ill., Raymond is a member of the Alumni Association.

Former quarterback

Receiving his Masters in 1942, Thoes J. Thompson was a member of Phi Beta Kappa and Sigma Xi. A quarterback on the 1941 Rose Bowl team, Thompson was a photographer of the Cornhusker and member of N Club, Pi Mu Epsilon and Phi Lambda Epsilon. He received his Ph.D. in nuclear physics in 1952 from the University of California at Berkeley.

Serving in the U.S. Army Chemical Warfare Service, Thompson was instructor of physics at the U.S. Military Academy. A physicist at the University of California Radiation Laboratory and at the Los Alamos Scientific Laboratory, Thompson was also Associate Professor of Nuclear Engineering at MIT.

Thompson is now Professor of Nuclear Engineering and director of the MIT Nuclear Reactor.

Goes to Geneva

He was a member of the U.S. delegation to the second Geneva Conference in 1958 and was one of five scientists to receive the E.O. Lawrence Memorial Award in 1964.

Edwin Van Den Bark received his B.S. degree in geology from the University and did post-graduate work at Washington University, St. Louis, Mo.

Van Den Bark was elected vice president in charge of Phillips Petroleum Company's international department in 1965. Joining Phillips in 1939, Van Den Bark had been a district geologist in the land and geological department division at Midland, Tex., for five years. He was then promoted to manager of the division in 1954.

Becomes manager

In 1957 he was transferred to Bartlesville, Okla., and was promoted to manager of the department's Eastern Region. Van Den Bark was made manager of the international department of the exploration and production division in 1962.

Before he received a degree from the University of Nebraska College of Law, Sara Jane Cunningham taught in the McCook public schools and was owner and operator of the McCook business service in 1952.

In 1957 she became president of the Nebraska Federation of Business and Professional Women's Club, Inc., and was installed as National President in 1966.

Runs as candidate

Miss Cunningham is a candidate for vice president of the International Federation of Business and Professional Women's Club.

In 1955 Miss Cunningham was an Observer at the International Federation Board Meeting in Bern, Switzerland. She served as an alternate delegate at the International Congress in Oslo, Norway in

1962 and was a delegate and chairman of the Resolutions Committee at the International Congress in Washington, D.D., in 1966.

In April of 1967 she represented the United States Federation at the International Board Meeting in Rome, Italy. In 1964 Miss Cunningham was named "Woman of Achievement" by the Nebraska Federation of Business and Professional Coubs.

She is listed in "Whose Who of American Women," "Whose Who in Politics," the 1967 edition of Outstanding Civic Leaders of America and has been selected to appear in the 1968 edition of Outstanding Personalities of the West and Midwest.

NU students to live abroad

Interested agricultural and other students have been notified of a program to establish person-to-person contacts with people of other countries.

International Voluntary Services, Inc. (IVS) enlists carefully selected young men and women who are willing to live in remote foreign villages and work directly with the local people. Some may live in provincial towns and in principal cities engaged in teaching.

Working under the general direction and guidance of U.S. technicians and government ministries, volunteers encourage village people to make effective use of the assistance available from these sources.

Each team of volunteers is under the supervision of an experienced leader who has administrative control of the project and served as liaison with the host government and the agency or foundation financing the project.

Although most job opportunities lie in the agricultural areas, positions are also available as school teachers, and with village improvement generally.

Students with an agricultural background are preferred for many positions, although those with Liberal Arts backgrounds are now being sought also.

IVS, chartered in 1953 and with national headquarters in Washington, D.C., has provided a strong influence with the development of the present Peace Corps operation.

Money donated

The money was distributed to the following agencies: Research \$572,078; scholarships and fellowships \$435,027; faculty and university support, such as closed TV fund, economic education program, faculty research fellowships and travel grants, and college of medicine program \$292,172; distinguished professorships \$80,028; Morrill Hall \$22,490; Sheldon Art Gallery exhibits \$16,830; research equipment \$6,336; and lectureships and honorariums \$1,699.

Burnham Yates, president of First National Bank and Trust Co. of Lincoln was re-elected chairman of the board of trustees of the foundation. This will be his second two year term.

George B. Cook, Lincoln, was elected vice chairman.

Haynie re-elected president

Harry R. Haynie was re-elected president. Other officers, all re-elected, are: vice president, Gene H. Tallman, Edward J. Hirsch, secretary Herb M. Potter Jr. and treasurer Howard Hadley, all of Lincoln.

The trustees elected two new directors, both of Omaha, Willis E. Strauss, president of Northern Natural Gas Co. and Gale Davis, president of the United Benefit of Omaha.

12,143 donors

The increase in private support was provided by 12,143 donors, including 9,639 alumni.

The number of donors increased 25 per cent, donations climbed 30 per cent and the foundation was able to do nearly forty per cent for the academic and research programs of the University, Haynie said.

1967 reflected the largest single stride forward in the foundation's 32-year history, Haynie noted.

The lady won't protest too much

BRITISH STERLING

So fine a gift, it's even sold in jewelry stores. After shave from \$3.50. Cologne from \$5.00.

It's like no other savings event your Chevrolet dealer has ever held. To you it means extra buying power—an explosion of savings on Chevrolets and Chevies. Take a look at these bonus savings plans. Then see your Chevrolet dealer.

Bonus Savings Plans.

1. Any Chevrolet or Chevelle with 200-hp Turbo-Fire V8, Powerglide and whitewalls.
2. Any Chevrolet or Chevelle with 250-hp Turbo-Fire V8, Powerglide and whitewalls.
3. Any regular Chevrolet with 250-hp Turbo-Fire V8, Turbo Hydra-Matic and whitewalls.
4. Now, for the first time ever, big savings on power disc brakes and power steering on any Chevrolet or Chevelle with V8 engine.
5. Buy any Chevrolet or Chevelle V8 2-door or 4-door hardtop model—save on vinyl top, electric clock, wheel covers and appearance guard items.

Happening now at your Chevrolet dealer's, a tremendous explosion of extra buying power. Only the leader could make it happen.

A campus couple finds that Sheldon Memorial Art Gallery has more to offer, with the advent of warm weather, than just a fine array of art objects.

University Foundation takes 2.8 million . . . Half given to academic program

The University Foundation received a record-breaking \$2.8 million in contributions during the past year. Foundation President Harry Haynie told the trustees Thursday.

The total is an increase of \$785,301 over the previous year. Haynie said the foundation turned over \$1.4 million to the University to benefit the academic program, an increase of \$390,000.

Total assets are \$11,655,429 for 1967, an increase of \$2 million. Haynie noted that assets have doubled during the past four years.

Law students study local areas

Students from the Law College are investigating five problems and innovations in areas of local and state government.

Under consideration by one of the student research teams is the possibility of incorporating the State Patrol, Department of Motor Vehicles, Accident Records Bureau and Safety Coordinator into a Department of Public Safety.

A second team is inspecting the desirability and feasibility of installing an ombudsman, a state-hired person who receives and presents official complaints against the government.

The research program is part of Assistant Professor Richard Woodard's Administrative Law class.

After working in class during the first month of the semester, his students split up into groups to interview officials and conduct other investigations in their team's area of concern, Woodard said.

Each team will prepare a memorandum of their findings and recommendations, but these will treat their subject broadly rather than in depth, he explained.

Woodard said the research program, while not a novelty on other campuses, was an educational device which is only in the experimental stage here.

"Next year I hope to organize a seminar for research in depth into local government."

"It is a very exciting way of teaching," Woodard commented, "because it gives students a chance to have theoretical things brought down to earth level."

Woodard noted that this concept of student research is in accord with the policy of using the intellectual energies of students to help the state.

Dean Henry Grether of the Law College announced that law students will be invited to attend the Law Day luncheon sponsored by the Lincoln Bar Association.

The luncheon, according to Grether, will take place on May 3 and will feature California Superior Court Justice Ronald Wenke as speaker.

Our Space Department

Big. This year even bigger. Some Chevrolet Tri-Levels are longer. Some wider. Some with more cargo room. Size up Impala. Nothing in its field comes as big. For instance, in many others you wouldn't dare try laying a 4 x 8-foot mirror flat in the main cargo level. (Especially if you're superstitious.) In Impala, no problem. The hidden storage compartment on the lower level also takes more of your gear than any of them. The roof rack you order should take care of the rest. For your comfort, there's extra hip and shoulder room.

We make our Tri-Levels lots more attractive in other ways, too. With such exclusives in Chevrolet's field as an ignition warning system. You'll get a buzz out of it if you ever leave your key in the switch. There are rocker panels that clean themselves with every shower you go through. Inner fenders that protect the outer ones from rust. And hidden windshield wipers on many models. Even with all these advantages, Impala and Chevelle Concours are the lowest priced luxury wagons in their fields. And if that's what you like to hear, hear this. Unprecedented savings are yours now at your Chevrolet dealer's '68 Savings Expo. See the details below.
