

Campus Calendar

WEDNESDAY, May 8
 INTER-VARISTY—8 a.m.
 BAPTIST STUDENT UNION—8 a.m.
 WESTERN ELECTRIC LUNCHEON—12:15 p.m.
 BID OPENING-ANDREWS HALL REMODELING—2 p.m.
 AWS COURT—2:30 p.m.
 UNION TRIPS & TOURS COMMITTEE—3:30 p.m.
 YWCA HEAD START—3:30 p.m.
 ASUN STUDENT SENATE—4 p.m.
 STUDENT AFFAIRS COMMITTEE—4 p.m.
 TOASTMASTERS CLUB—5:30 p.m.
 OMICRON NU INITIATION—6:30 p.m.
 ASUN SPECIAL PROJECT-NFYAS—6:30 p.m.
 OMICRON NU DINNER—8:45 p.m.
 UNIV. OF NEBR. WILD-LIFE CLUB—7 p.m.
 LFC—7 p.m.
 ASSOCIATION OF GENERAL CONTRACTORS—7 p.m.
 ORCHESTRIS—7 p.m., University High.
 NU MEDS—7:30 p.m.
 LAMBDA TAU—7:30 p.m.
 KOSMET KLUB SMOKER—7:30 p.m.
 ASUN PARKING APPEALS BOARD—7:30 p.m.
 MATHEMATICS COUNSELORS—7:30 p.m.
 FELLOWSHIP OF CHRISTIAN ATHLETES—8:30 p.m.
 BUILDING G BUILDERS FOUNDATION—3:30 p.m.
 AWS WORKERS COUNCIL—3:30 p.m.
 BUILDERS STUDENT PROFESSORSHIP—4:30 p.m.
 KOSMET KLUB—6 p.m.
 CIRCLE K—7:30 p.m.
 ALPHA PHI OMEGA—7:30 p.m.
 BUILDING H BUILDERS FIRST GLANCE—3:30 p.m.
 BUILDERS COLLEGE DAYS—3:40 p.m.
 PEOPLE TO PEOPLE PROJECT COMMITTEE—4:30 p.m.
 RED CROSS—6:30 p.m.
 ALPHA KAPPA PSI—7 p.m.
 BUILDERS BOARD—7 p.m.

ASUN committee to act on 4.5 system

The first meeting of newly created Faculty Senate Grading Committee was held Tuesday afternoon, but no definite action will be taken by the committee till next fall, according to Craig Dreeszen, committee member and ASUN President.

"We have a tacit commitment from the committee to consider the educational implications of the grading system," Dreeszen said. He said most of the discussion at the first meeting dealt with the background of the formation of the committee.

Student Senator Curt Donaldson is the other student member of the committee. Faculty representatives include Dave McGill, Emil Heermann, Chairman Henry Holtzclaw, James Welford, and Miles Tommerasen. G. Robert Ross and Merk Hob-

son are non-voting members representing administration.

Dreeszen said the group plans to consider other systems of grading, the possibility of changing graduation requirements, the possibility of dropping a flunking grade from a student's record after he makes up the course and other areas related to education.

He was optimistic the committee would accomplish a great deal next fall, explaining there was not enough time left in the semester to propose or effect any changes to the current grading system.

He added that the committee will meet next Monday and is scheduled to discuss the quarter system and review the Student Academic Freedom document.

In the recent Air Force ROTC awards ceremony, Jane Klimes of Clarkson was named Air Force Queen. Miss Klimes, a past vice-president and national convalescense delegate for Angel Flight, is a senior majoring in chemistry and secondary education. She is presently a student senator and is a member of Chi Omega sorority.

The new queen will vie with three other candidates on May 10 for the title of Tri-Services Ball Queen.

NEBRASKAN

APPLAUDS

The new officers of Orchestris, the modern dance troupe, are: Doris Adams, president; Charis Christensen, vice-president; Dee Putron, secretary; Karen Bayner, treasurer, and Sara Sheets, publicity chairman.

The staff company of Pershing Rifles Company A-2 for next year will be: Timothy Livers, company commander; Robert McCoy, executive officer; William Weatherford, personnel officer; Michael Drickey, public information officer; Gary Lyons, operations officer; Gary Erhart, supply officer; James Gooding, first sergeant; Lucas Smith, candidate trainer; Daniel Tyler, specialty platoon leader; Dennis Peters, exhibition team commander.

Dan Piller has been elected president of the Nebraska Undergraduate Chapter of Sigma Delta Chi, the profes-

sional journalistic society. Warren E. Leary was elected vice-president and Roger C. Boye, secretary-treasurer.

Sigma Alpha Mu Fraternity has elected ten new girls to its auxiliary, the Pearls of the Octagon. Then ten new Pearls are: Grace McIntosh, Deb Dobesh, Roxi Lash, Liz Lueder, Ann Musselman, Nancy Aronson, Janet Handleman, Kathy Mumm, Sudee Black, and Carol Lyons.

At the Selleck RAM Council awards banquet, Bob Gerken was honored as Outstanding Freshman; Mike Eyster, Outstanding Sophomore, Carol Masa, Outstanding Junior; and Dennis Kimberlin, Outstanding Senior. The new officers of RAM are: Orville Jones, president; Bob Martig, vice-president; Pam Shepard, secretary; Pat Petersen, social director; Corine Jasa, activities director; Jim Radcliff, treasurer; Laurel Bush, scholastic director; and Gretchen Schudel, publicity director.

New members of the Psi chapter of Tau Sigma Delta, an Architecture honorary, are Jens Brammer, Gerald Bunting, Donald Hansen, Terry Larsen, Kenneth Miller, James Mischnick, and Mark Moseman.

Dr. Arthur W. Combs, past chairman of the Joint Council of New York State Psychologists, will address an all Teachers College Convocation at 10:30 a.m. Friday in the Nebraska Union Ballroom.

All education classes meeting at 10:30-12:30 will be dismissed so students may attend the convocation sponsored by the Nebraska Career Scholars in Educational Psychology and Measurements and by Mu Epsilon Nu, mens education honorary.

Combs, author of many papers and books including *Individual Behavior*, will speak on qualities of a good teacher.

A past president of the Association for Supervision and Curriculum Development of the New York State Psychological Association, he has previously taught education and psychology at Ohio State University, Syracuse University and the University of Florida.

He received a John Dewey Society Award for distinguished service to contemporary education in 1967 and is a member of Sigma Xi, Phi Delta Kappa, NEA, FEA and ASCD.

Computer science starts in September NU inaugurates new department

The University's newest academic department will go into operation this September, with a six-course curriculum that will eventually be expanded into 22 courses, Kenneth Smith, academic director of the Institute of Computational Science, said Tuesday.

After receiving official approval from the University's Board of Regents last August, Smith said the program under the department of computer science would be staffed with a faculty numbering approximately 20 instructors.

"There's not a single aspect of modern life that is not connected with computers," Smith said as he anxiously awaits the implementation of the courses this fall.

Program languages I (C.C. 1), with a lab (C.C. 2), introduction to Digital Computing (C.C. 61), Computer Organization (71), Numerical Methods (01) and an accompanying lab comprise the institute's initial class sequence.

The Regents professor of physics explained that 16 undergraduate classes have been approved by the University's Course and Duplication Committee and six graduate level courses are now under consideration by the Graduate Council.

The graduate level courses should be approved by the end of the current academic semester, Smith predicted.

When all 22 courses are hopefully implemented into the department's curriculum within two years, students will be able to major in computer science and will be able to receive a degree of Bachelor of Science in Computer Science, he said.

In predicting more than 200 students would register for the first semester of classes next fall, Smith said the program could expand as rapidly as did a similar computational department at a Canadian University.

He explained that the University of Waterloo in Toronto, Ont., offers classes under the College of Mathematical Science, which has an enrollment of 1,500 students of an 8000 student body.

"Our department will also expand rapidly here at the University," he estimated and added that it could possibly expand into the University's largest department enrollment-wise.

Although the majority of the department's financial needs have been met by state funds, he said a proposal is now before the National Science Foundation (NSF) in Washington. The proposed

grant, sent last August to the foundation, would provide \$500,000 effective July 1 for computer equipment.

Smith also explained that he has received a \$40,000 NSF grant for application of computers to the problems in theoretical physics.

In another attempt to secure federal funds, the department's director said he has applied for a Matching Fund Grant from the NSF which would provide one dollar for each dollar the University spends. The Matching Grant would be applied to a \$50,000 undergraduate remote communication system.

Although the program will not become effective until this fall, Smith said three of the department's faculty members have been invited to attend the national conference of the Canadian Computer Society in June at Queen's University in Kingston, Ont. The Nebraska professors would demonstrate the remote thermal system on the society's computer.

The academic director said he hoped all courses would be taught in Ferguson, Stout and Richards Halls and other buildings in that immediate vicinity, since that area is generally dominated by engineering and science students, he said.

In a course outline, 128 semester hours are required for graduation with a degree of Bachelor of Science in Computer Sciences with students required to maintain a 2.5 grade point average in all required courses.

Coinciding with all students in the College of Engineering and Architecture, 24 semester credit hours must be earned in the humanities and social sciences. The remaining 16 semester hours must be taken in a cohesive course sequence approved by the department, although the student will be given some freedom in his choice of these courses.

—Drivers claim 17 wins— NU golf team enters final meets of season

With only three meets left this spring, Nebraska golfers are carrying a 17-5-2 win-loss-tie record.

This is an exceptionally fine record since the Husker linksmen have played on their home course only three times.

Kennedy's sister to visit Lincoln

Mrs. Pat Lawford Kennedy, sister of presidential hopeful Robert F. Kennedy, will be in the Nebraska Union for an informal tea in her honor Thursday afternoon.

A full day's activities are planned by Mrs. Lawford beginning with her arrival in Lincoln at 9:45 a.m. Thursday at the Municipal Airport.

After visiting several Lincoln businesses, Union College, Nebraska Wesleyan University, and the Veterans Hospital, Mrs. Lawford will appear in the Union from 4:30 until 5:00.

There will be no speech given, rather an informal talk with all interested people invited to attend.

Her Lincoln visit will be concluded with an open reception in the Cornhusker Hotel Ballroom at 8:00 p.m.

Coach Harry Good's charges can boast that they have defeated each of their foes at least once over the season.

Oklahoma is the only team to have escaped, and the Huskers and Sooners have met just once, in Soonerland.

The wins over Missouri and Kansas earlier this spring are rated as the "big ones" by the Nebraska club-toters. It is these wins that Good hopes will give his team the confidence that is so important in the game of golf.

"We have had a tendency this year toward inconsistency in our scores from meet

to meet. We have not had the balance of last year's team."

Looking toward the Big Eight Tournament at Boulder, Colorado on May 17-18, Good says, "we'll be battling to get up higher than our fourth place finish last year."

In 1967 the Huskers finished below Oklahoma State, Oklahoma and Colorado. The Big Red never needs alibis, but the fact remains that these other Big Eight schools have a definite climactic advantage over the Huskers.

Regarding the tournament at Boulder, perhaps Good best sums up the situation, "in the end, it gets down to how hot the putter is."
