

I am a rock ...

Moving scene ... (upper) A 2 1/2-ton granite boulder with rare hieroglyphic inscriptions is transported from the Architecture Hall lawn to a new home in front of the University Mu-

seum in order to make room for the Sheldon sculpture garden. (middle) Workmen counterbalance the weight of the rock and (lower) Dr. C. B. Schultz inspects it for possible

Girls to shoot in competition

Both men and girls will now be competing on the University's varsity rifle teams.

Top scholars plan 'Activities Action'

Mortar Board is sponsoring Activities Action-1968, a series of programs to acquaint freshmen women with University activities before the AWS Activities Mart Oct. 9.

The programs will be 10:30 to 11 p.m. Monday, Tuesday or Thursday in all women's residence halls. Time and place for the meetings will be posted in respective dormitories.

An orientation for Lincoln women will be 4:30 p.m. Tuesday in the Nebraska Union small auditorium.

Such areas as publications, student government, political organizations, service groups and cultural programs will be discussed.

WAA trophy awards Monday

Trophies will be presented to teams and individuals winning last year's Women's Athletic Association tournaments at 4:30 p.m. Monday in the Women's Physical Education Building.

of Nebraska Rifle Club.

Both varsity teams will compete against those from Kansas University, Missouri, Iowa State, Kansas State, and Colorado on the days of the football games.

Ann Sixta, treasurer of the Rifle Club was excited about the new girls' team.

"It is a good sport for competition and for competing against yourself," she said. "It really improves your concentration."

Miss Sixta stressed that neither the Club nor the teams are connected in any way with the Pershing Rifles. The military department does, although, supply ammunition, coaches, and the

use of military equipment to the Club.

The Club, open to anyone on campus, will hold an organizational meeting Tuesday, October 1, at 7:30 p.m. in the Military and Naval Science Building. Dues for the year are \$5, including travel expenses, ammunition, and

equipment.

Rifle Club members may practice in the indoor range at the Military and Naval Science Building using .22 caliber target rifles on Tuesday, Wednesday and Thursday from 2-4:30 p.m. and on Thursday evenings from 7-10 p.m.

"A computer has no mind of its own. Its 'brainpower' comes from the people who create the programs," says Rod Campany.

Rod earned a B.S. in Math in 1966. Today, he's an IBM Systems Programmer working on a portion of Operating System/360, a hierarchy of programs that allows a computer to schedule and control most of its own operations.

A mixture of science and art

"Programming" means writing the instructions that enable a computer to do its job. Says Rod, "It's a mixture of science and art. You're a scientist in the sense that you have to analyze problems in a completely logical way.

"But you don't necessarily hunt for an ultimate right answer. There can be as many solutions to a programming problem as there are programmers. That's where the art comes in. Any given program may work, but how well it works depends entirely on the ingenuity of the programmer."

Programmers hold a key position in the country's fastest growing major industry—information processing. *Business Week* reports that the computer market is expanding about 20 percent a year.

You don't need a technical degree

If you can think logically and like to solve problems, you could become an IBM pro-

grammer no matter what your major. We'll start you off with up to twenty-six weeks of classroom and practical training.

Visit your placement office

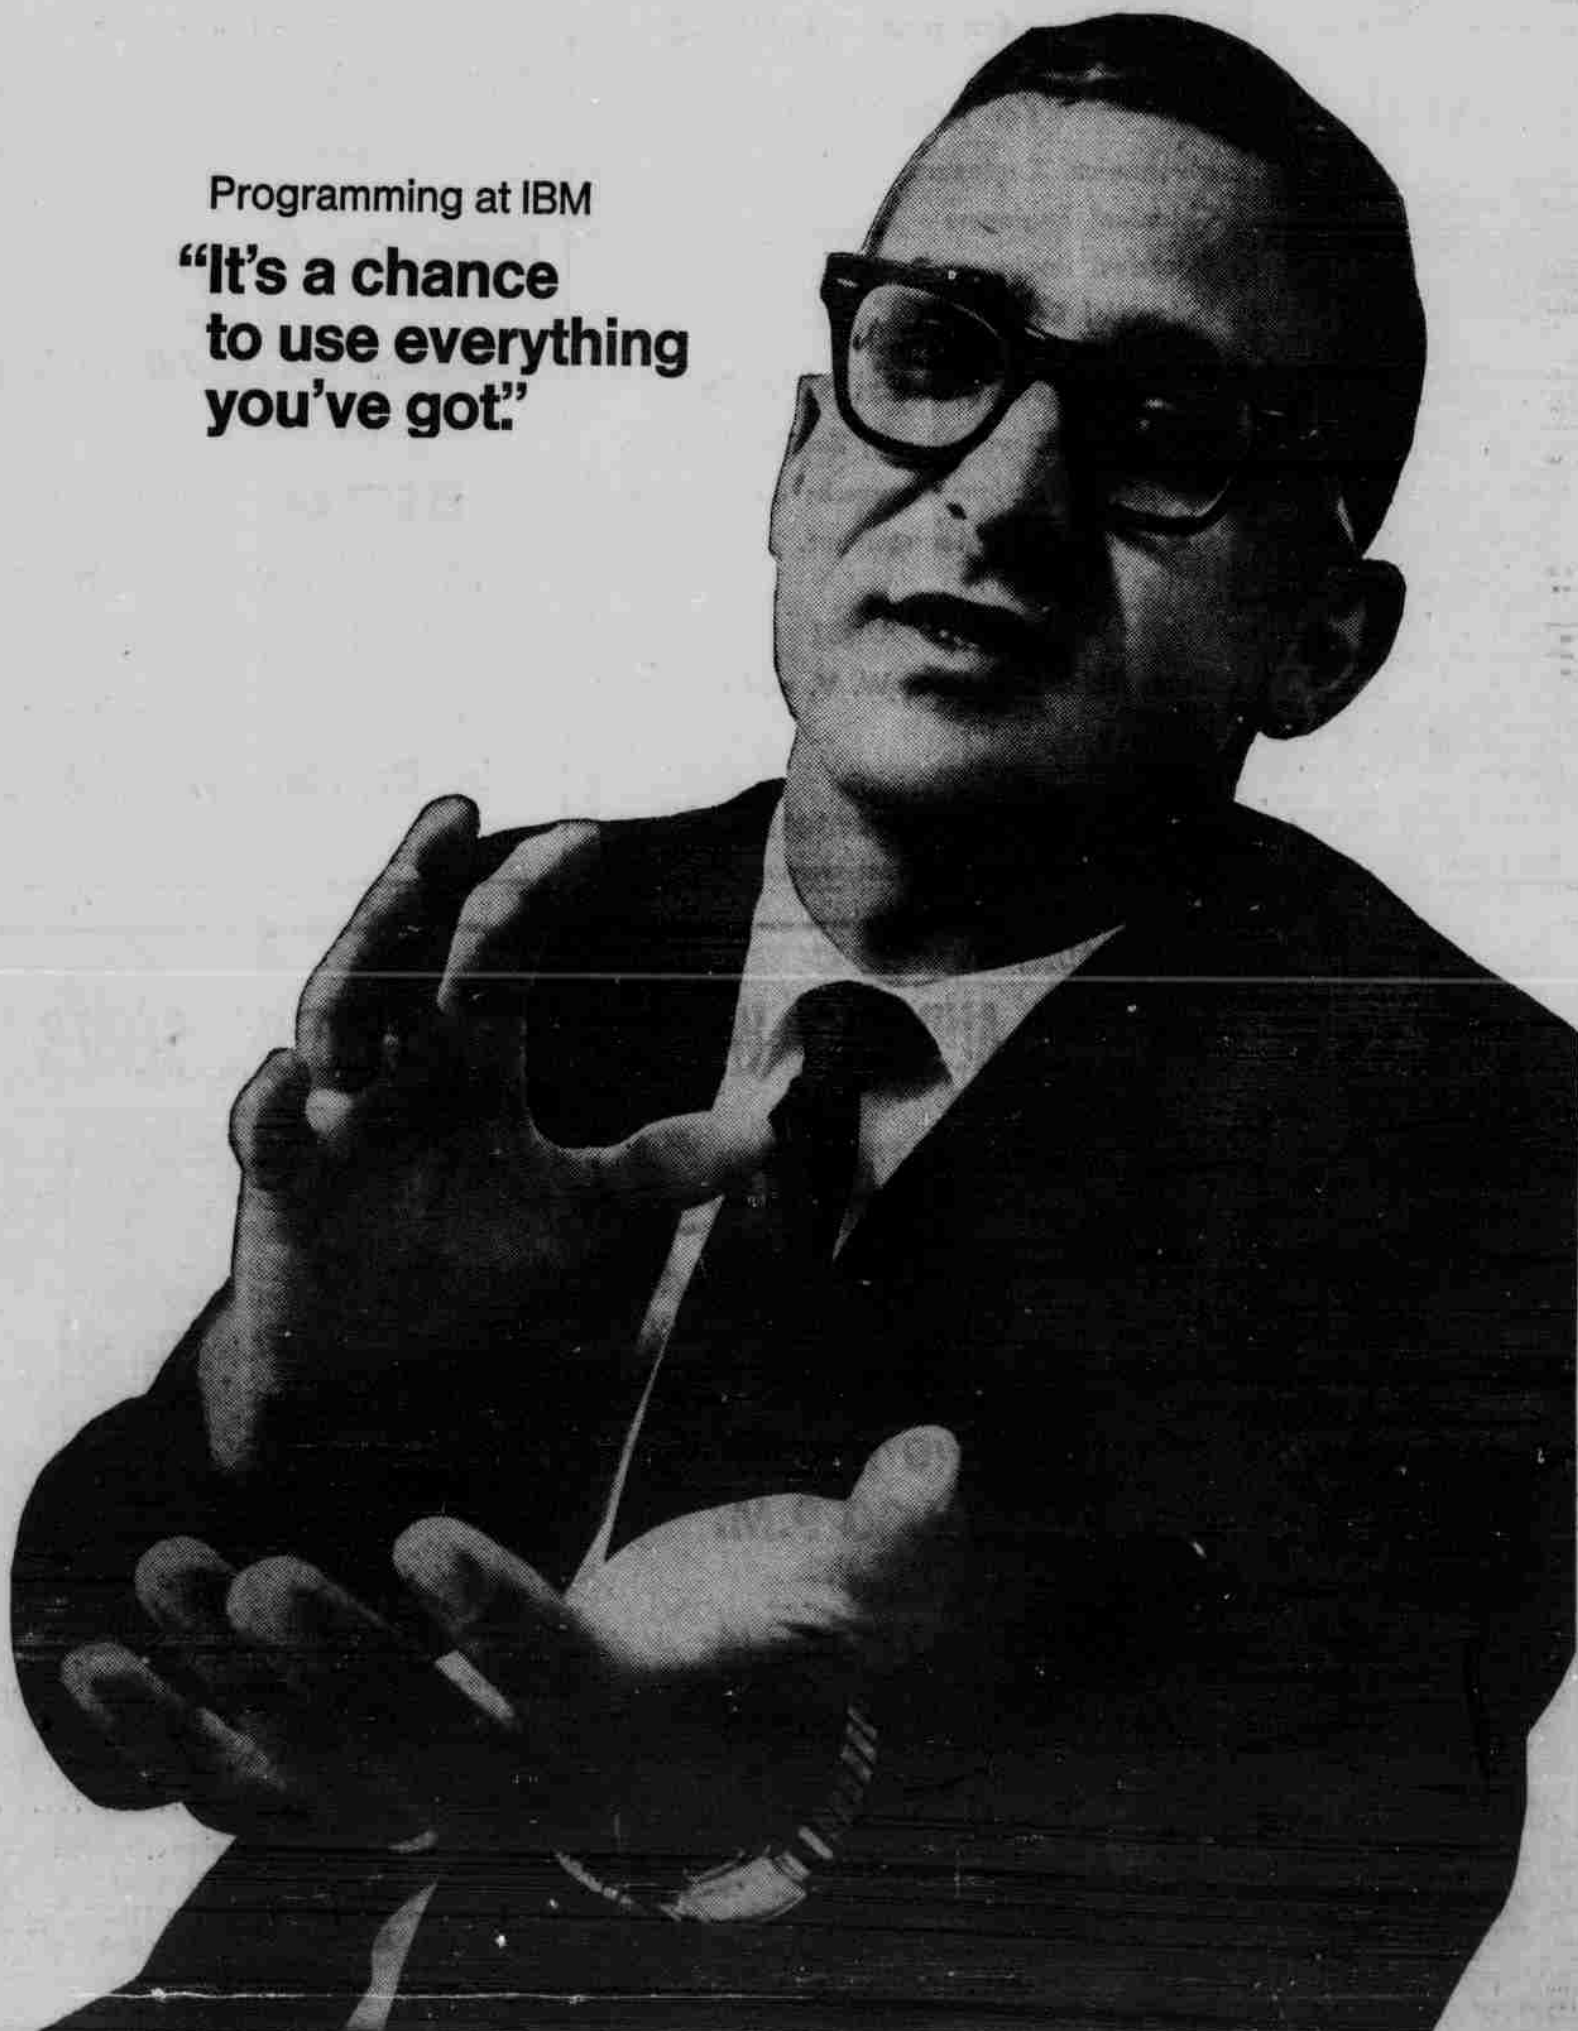

Sign up at your placement office for an interview with IBM. Or send a letter or resume to Irv Pfeiffer, IBM, Dept. C, 100 South Wacker Drive, Chicago, Illinois 60606.
