Husker sports in brief

Three Nebraska basketball players have been declared scholastically ineligible for the remainder of the season.

The Cornhuskers' leading scorer for the last two seasons, junior guard Marvin Stewart from Chicago, Ill., is expected to play next season, if he clears the scholastic hurdle by this semester or by this summer.

Akron, Ohio, senior Jim Brooks' eligibility expired with his dismissal.

The other scholastic casualty, junior guard Cliff Moller, reputedly the Huskers top defensive player, left school.

Eight Husker Gridders Drafted

All Big Eight Conference defensive middle guard Ken Geddes and tight end Jim McFarland both were selected in the fifth round. Geddes went to the Detroit Lions and McFarland to the St. Louis Cardinals.

Another All Big Eight Husker, defensive back Dana Stephenson, was drafted by the Chicago Bears in the eighth round, and defensive end Mike Wynn went in the same round to the Oakland Raiders.

Offensive end Frank Patrick was selected by the Green Bay Packers in the 10th round, and defensive tackle Bob Liggitt was acquired by the Super Bowl champion Kansas City Chiefs in the 15th round.

Fullback Mike Green was tabbed in the 16th round by the San Diego Chargers, and center Glenn Patterson was obtained in the 17th round by the Dallas Cowboys.

are your contact lenses more work than they're worth?

If you're tired of using two or more separate solutions to take care of your contact lenses, we have the solution. It's Lensine the all-purpose lens solution for complete contact lens care—preparing, cleaning, and soaking. Just a drop or two of Lensine before you insert your contacts coats and lubricates the lens surface making it smoother and non-irritating. Cleaning your contacts with Lensine retards the buildup of foreign deposits on the lenses. Lensine is sterile, self-sanitizing, and antiseptic making it ideal for storage of your lenses between wearing periods. And you get a removable storage case on the bottom of every bottle, a

Lensine exclusive for proper lens hygiene. It has been demonstrated

that improper storage between wearings may result in the growth of bacteria on the lenses. This is a sure cause of eye irritation and could seriously endanger vision.

Bacteria cannot grow in Lensine. Caring for contact lenses can be as convenient as wearing them with Lensine, from the Murine Company, Inc.
