with complexion problems
Cool it and get Fostex... the great pimple stopper. See yourself smooth and clear. Wash with Fostex and you help remove blackheads, dry up pimples and oil, and fight germs.
For the good look... get Fostex Cake.
Sold in drugstores.
FOSTEX

The war movement dissolves in the spring sunshine to melodious strains of the Farm Security Administration and the pungent odor of sweet-smelling grass and flowers at wonderwul, winsome Pioneer Park Wednesday.

Does it hurt to chill beer twice?

Not that you'd want to. Sometimes it just happens... like after a picnic, or when you bring home a couple of cold 6-paks and forget to put 'em in the refrigerator. Does re-chilling goof up the taste or flatten the flavor?

Relax. You don't have to worry.

A really good beer like **Yes?** Budweiser is just

as good when you chill it twice. We're mighty glad about that. We'd hate to think of all our effort going down the drain

just because the temperature has its ups and downs.

You can understand *why* when you consider all the extra trouble and extra expense that go into brewing Bude. For instance, Budweiser is the *only* beer in America that's Beechwood Aged.

So... it's absolutely okay to chill beer twice.

No? Enough said. (Of course, we have a lot more to say about Budweiser. But we'll keep it on ice for now.)

Budweiser is the King of Beers.

(But you know that.)
