Earth Day Schedule Events at Union

5:15 Sunrise Service — East Campus — Rev. E. H. Byleen
9:20 Welcome to the University—Joseph Soshnik, President, Lincoln campuses.

9:30 Population Control
"People-Food, 1970" James G. Kendrick, Prof. Ag. Econ., NU.
"Is Humanitarianism What It Used To Be?" Richard K. Booher, Assf. Prof. Zoology, NU.

11:30 Sound and Air Pollution
"Noise Pollution" David J. Cook, Assoc. Prof. Engr. Mechan., NU.
"Status of Air Pollution in Lincoln" Lester A. Sanger, Director, Division of Environmental Health and Air Pollution Control Office, Lincoln-Lancaster County Health Department.
"Air Pollution" John L. Weiling, Prof. Plant Path., NU.

12:30 Land Development and Esthetics
"The Rent Check is Overdue" Vincent H. Dreeten, Director, Conservation and Survey Division, State of Nebraska.
"National Park Service, Program for Environmental Education" Paul F. McCrary, Environmental Specialist, Midwest Region, U.S. National Park Service, Omaha.
"Problems of Land Development and Esthetic in Lincoln" Donn J. Smith, Supt. of Parks, Lincoln, Neb.
"Past Uses of the Land" Warren W. Caldwell, Prof. Anthro, NU.

1:30 Legislation
"Federal Pollution Control Legislation" Donald M. Malone, Assoc. Prof. of Law, NU.
"Nebraska Pollution Control Laws" Gary J. Snowden, Legal Counsel, Neb. Pollution Control Council.

3:00-4:30 Environmental Round-Table
Norbert Tiemann, Governor, State of Nebraska Mayor, City of Omaha
Eugene Leahy, Mayor, City of Lincoln
Sam Schwartzkopf, Nebraska State Senator, Chairman Legislative Committee on Natural Resources, Graduate Student in Plant Ecology, Botany Dept., NU.
Maurice Kremer
Frank Kestner, Moderator

5:00 Land and Water Resources
"Rangeland-Managed or Exploited?" Donald F. Burzlaff, Prof. Agron., Range Mgmt., NU.
"Soil Conservation — Who Needs It Now?" James V. Drew, Prof. Agron., Soil Genesis and Classification, NU.
"Water Resources of Nebraska" Donald M. Edwards, Assoc. Prof. Ag. Engr., NU.
"Forest Resources" David F. Van Haverbeke, Research Forester, USDA Forest Service; Asst. Prof. Horticulture and Forestry, NU.

6:00 Wildlife Resources
"Wildlife and the Human Predicament" Phillip Agee, Chief, Research Division, Neb. Game and Parks Commission.

7:00 Pesticide Pollution
"Chemical Contamination" Larry C. Holcomb, Assoc. Prof. Biology, Creighton University, Omaha, Neb.
"Pesticides, Heroes or Villains" Orvin C. Burnside, Prof., Agron.-Weed Sci., NU.
"A Private Citizen's Personal Experience with Herbicides" Duane Eckert, Resident of Lincoln.

8:00 Water Pollution
"Municipal Wastewater Collection and Treatment" Mark J. Hammer, Prof. Civil Engr., NU.
"Water Pollution and It's Control in Nebraska" Ralph N. Langemeier, Supt. Stream Surveillance, Bureau Environ. Health Serv., Neb. Dept. Health.
"National Water Quality Problems" Warren Viessman, Jr., Director, Water Resources Res. Inst. and Prof. of Civil Engr., NU.
"State and National Water Quality Standards" Carl Chloupek, Area Representative, Fed. Water Pollution Control Admin., Lincoln, Neb.

9:00-10:30 Refocus on Nebraska Problems — televised ETV panel discussion

Air Pollution
Water Pollution
Pesticide Pollution
Walter H. Franke, Director, Div. of Air Pollution Control, Neb., State Department of Health.
Leo Hill, Chmn., Northwestern Metal Co., Lincoln.
Mark J. Hammer, Prof., Civil Engr., NU.
Deon D. Astheim, Water Resources Spec., Ag. Extension Service, NU.
Robert E. Roselle, Prof., Entomology, NU.
Paul A. Johnsgard, Prof. Zoology, NU.

10:30 Candlelight Procession from Nebraska Union to State Capitol

Earth Day

Films, speakers and panel discussions are planned for Earth Day April 22 in an attempt to inform University students on pollution and overpopulation problems.

One of the highlights of Earth Day will be a panel discussion on ecology involving Gov. Norbert Tiemann, Mayors Eugene Leahy of Omaha and Sam Schwartzkopf of Lincoln and State Sen. Maurice Kremer of Aurora.

The panel discussion will be broadcasted on NETV, according to Robert Frangenberg, Nebraska representative on the Student Council on Population and Environment (SCOPE).

Activities will begin with a 5:15 a.m. sunrise service on the East Campus and conclude with a 10:30 p.m. candle-light march from the University to the Capitol.

Frangenberg said that films on resources will be shown all day Wednesday in the Nebraska Union.

There are also about 50 speakers scheduled to discuss various aspects of the problems of pollution, according to Frangenberg.

E-Week

E-Week for 1970 at the University of Nebraska will stress the practical applications of engineering to environmental pollution problems, according to the chairmen of the E-Week activities Jim Bosiljerac and John Reo Rosenow.

Student-built displays and speakers who will visit the campus for E-Week plan to show what engineers can and will do in the future.

Exhibits will be on display at a public open house on the City Campus from 7-10 p.m. April 22 and from 2-10 p.m. April 23, according to Rosenow.

Ferguson Hall will be the site of the activities, according to Bosiljerac.

Media Fair

A gigantic transparent balloon filled with numerous small balloons will house exhibits dealing with the preservation of our environment at the University of Nebraska April 22-25.

The balloon, containing the Media Fair projects, will be located in the Sheldon Sculpture Garden on the City Campus.

The Media Fair is being sponsored by the University School of Architecture and the College of Engineering and the Citizens for Environmental Improvement.

Two smaller black balloons will provide an entrance to the display and will also serve as movie screens.

The unique exhibition hall will be 130 ft. x 60 ft.

Air pressure, provided by numerous fans along each side of the huge balloon, will keep the structure inflated, according to University architecture student Doug Scott, who is heading the Environmental Media Fair.
