Huskers jump to 8th

Nebraska made believers out of several Southern Californians Saturday night, but the Associated Press sports writers were apparently not included.

USC, ranked third in the nation last week, had to battle back to tie the ninth-ranked Huskers 21-21. But instead of rewarding the Cornhuskers' efforts, this week's AP poll dropped the Trojans to seventh and only advanced Nebraska to the number eight position.

And moving up from eighth won't be an easy task for Nebraska. There is not a sports writer in the state of Nebraska who votes in the weekly poll.

And face it, without any support from home, advancing won't be easy. Take an example to the contrary, Penn State. The big reason the Nittany Lions remain in the top five is with two first-place votes.

Southern California also received two votes for first place this week which helps to explain their national ranking above Nebraska.

What's next for NU

Tying with Southern California, although disappointing to the fans, was still a big victory for the Husker team. The Cornhuskers went to Los Angeles to prove their worth, and came home knowing it.

But what's next for the Huskers? The USC game has been the big food for thought since fall camp opened. But now that one is over.

And now the Cornhuskers must turn their thoughts to

Army and Minnesota, two teams who have not received national recognition, before entering their Big Eight schedule.

Will the Huskers have trouble getting fired up for the next two games? "I don't think we have to worry about that," said NU head coach Bob Devaney. "I think we've now gained enough confidence that the players are really looking forward to the rest of the season."

Huskers survive

It was believed by many that the only teams to benefit from the USC-Nebraska game would be next week's opponents for both teams.

Those who subscribed to that school of thought figured it would be a hard-hitting game with several injuries. They were half right.

It was a hard hitting game. "But when you're out there playing hard all the time, you don't get hurt," explained Husker trainer Paul Schneider. And Nebraska did survive the physical contest with only limited injuries.

Offensive guard Donnie McGhee received a bruised shoulder, quarterback Jerry Tagge rebruised portions of his leg and Guy Ingles suffered from bruised ribs.

"The injuries may slow them down a little during practice this week," explained Husker physio-therapist George Sullivan, "but they should be ready to go by Saturday."

The three worked out in sweat clothes during the first days of practice in preparation for the Army game.
