

## NU judging team places first

The University of Nebraska varsity livestock judging team placed first in the intercollegiate livestock judging contest Sept. 15.

The contest was held in conjunction with the National Barrow Show at Austin, Minnesota. Members of the winning team

were Rich Chalupa, Sargent; Ron Hagen, Oconto; Gary Hines, O'Neill; Steve Jarchow, DeWitt; Jack Nemecek, Pawnee City; Steve Rezac, Brainard; and Glenn Selk, Cozad. R. B. Warren, assistant professor of animal science, coached the team.

## Tiwald, Magrath go to President Conference

Two representatives from the University of Nebraska will attend the second annual President to President Conference, scheduled in Washington, D.C. September 25-27.

ASUN President Steve Tiwald will represent University students. C. Peter Magrath, dean of faculties, will attend the conference in place of Joseph Soshnik, president of the Lincoln campuses and outstate activities.

Several members of the President's cabinet including Secretary of State William Rogers, Attorney General Robert Mitchell and Secretary of Defense Melvin Laird will address the conference.

The ASUN president said he hopes President Richard M. Nixon and other national

leaders pay attention to the students' concerns.

"At a conference of this nature it is very important that students are listened to," Tiwald said.

In the same breath, Tiwald said he expects no dramatic changes from the Administration and he foresees "continued polarization" for the country.

## Trapshooters meet Friday

All Collegians interested in a fall trapshoot should attend a meeting at 7 p.m., set for Friday, in the Nebraska Union. The schedule and the date for the event will be discussed. For information call Lynn Webster (434-0288).

## Engineering has new department

The University of Nebraska College of Engineering and Architecture is activating this fall a new Department of Industrial and Management Systems Engineering.

The new department will offer a Bachelor of Science Degree in Industrial Engineering, according to John R. Davis, dean of the College of Engineering and Architecture. It is staffed by "faculty who have considerable industrial and educational experience. All of them hold the doctorate degree," he said.

Dr. Morris H. Schneider, chairman of the new department, explained, "The industrial engineer is not so much interested in the design of machines as in the design of a system in which man and machine can work together to provide an improved product or service."

The new department, located in Richards Hall, now has 65 undergraduates and 35 graduates enrolled.

"We are trying to provide industrial engineers for small and medium-sized industries," Schneider said, "because most Nebraska industries are of this size."

The department has been in the planning stages for the last two and one half years. Kansas and Colorado are the only Big Eight universities without similar departments.

## Calendar

Wednesday, Sept 23
