## Mini-review of 'Blow-Up'

Michelangelo Antonioni's first English language film, **Blow-Up**, is this weekend's Nebraska Union film offering.

You can see David Hemmings and Vanessa Redgrave for 75c, Friday and Saturday, at 7 and 9 p.m. in the Nebraska

Union Small Auditorium; or Sunday at 2 p.m. in the Small Auditorium and 7 p.m. on East Campus.

Not only is it an interesting, well made and confusing movie, it also contains a great scene with the now defunct Yardbirds.

It is worth the 75c just to see Jeff Beck smash his guitar.

## Library ready for lost students

The University map library, located in Burnett Hall, Room 225, has recently been reorganized and consolidated.

The library includes special subject maps on history, geography, geology, economics, political science and cultures. Topographic Sheets of the United States Geological Survey, the Army Map Service, World Aeronautical Charts and S. A. F. Navigation Charts are in stock. Photo-maps of Nebraska are also available.

A map curator will be in the library Monday, Tuesday, Wednesday and Friday mornings and Wednesday and Friday afternoons.
