Hi Suz-an "S"

"If I could get my hands on my first grade teacher now, I'd break her chalk."

It all began in the first grade. But don't blame your first-grade teacher. It wasn't her fault. It was the system she had to teach.

The old "run, Spot, run" method.

You had to read it out loud. Word by word. And that's the way it was until you became a second grader. Where your teacher asked you to read silently.

But you couldn't do it.

You probably stopped reading out loud. But you still said every word to yourself.

If you're an average reader, you're probably reading that way now.

Which means you read only as fast as you talk. About 250 to 300 words a minute.

And that's not fast enough any more.

Not when the average student has approximately 8 hours of required reading for every day of classes.

And since the amount of time in a day isn't about to increase, your reading speed will have to.

In order to handle it all.

The Evelyn Wood Reading Dynamics course can help.

With training, you'll be able to see groups of words. To read between 1,000 and 3,000 words per minute. Depending on how difficult the material is.

At any rate, we guarantee to at least triple your reading speed, or we'll refund your entire tuition. (98.4% of everyone who takes the course accomplishes this.)

So don't waste time thinking about whom to blame. Come take a free introductory speed reading lesson. We'll increase your reading speed on the spot. It takes about an hour to find out how you can reduce your study time by 50% or more.

And it ought to be worth an hour of your time.

To save thousands.
