Unicameral sets hearing on Indochina resolution

An open hearing chaired by Scottsbluff Sen. Terry Carpenter will be held Wednesday at 1:30 p.m. in the state capitol's East Hearing Room on an "Indochina War Resolution" drafted by Nebraskans for Peace.

The resolution calls on the Unicameral to "urge the President and the Congress to immediately cease the air war, withdraw all U.S. troops from Indochina, end all support for the Thieu dictatorship and turn their attentions to growing socio-economic problems and growing unrest here at home."

In action Tuesday, state senators turned down Neligh Sen. John DeCamp's resolution calling on the U.S. to recognize the newly formed nation Bangladesh. The vote on the resolution was 10-0; however, it required 25 affirmative votes to pass.

Senators voted on final reading Monday to lower the age of majority in Nebraska to 19 years old. Gaining one more vote on final reading than required to be enacted, the bill was sent to the governor on a 26-17 tally.

Assuming the governor signs it, Nebraskans 19 years old could drink alcoholic beverages and hold full adulthood 90 days after the Legislature adjourns.

When you buy one of our stereo systems, we want you to come back...happy.

Electronics Unlimited Stereo Studio has been specializing in stereo components in Lincoln for over ten years. Our customers keep coming back, and we're always glad to see them. Especially when they don't return to complain about a stereo system they bought from us. We don't want that to happen. So, we carefully select the components that represent the best values from all the brands we carry, based upon our own bench tests. The only thing that changes our recommended systems is a change in the manufacturer's prices or quality, or if we find a component that we can objectively prove is a better value. And we stand behind our systems with the solid reputation of the Stereo Studio service department, which does warranty repair work IN LINCOLN on every component we sell.

So, when we recommend our Advent/BSR McDonald/Panasonic system, it's because we know that true value is represented in the regular price of the components.

The small Advent speakers, for example, combine a remarkable range of fidelity with low distortion and minimum coloration of sound in a compact bookshelf size. The sound, in fact, matches that of some speakers almost twice the size and price. (Don't take our word - compare for yourself.)

The Panasonic SA-5500 FM/AM stereo receiver provides 20 watts per channel RMS with less than .7% distortion across the entire audible range (RMS is the most demanding and-least flashy of the various power rating methods). It comes with its own walnut cabinet, at no extra charge.

And the BSR 510/X is a high-quality automatic turntable which includes base, dust cover, and Shure M-74 magnetic cartridge, with such features as damped cue and pause control and synchronous motor.

Purchased separately in our store these components would cost \$448.90. They are an excellent value at that price, but they are an exceptional buy at our system price of \$429.95. You'll enjoy the \$18.95 saving, and we'll look forward to seeing you when you come back again ... happy.
