**ZANE:** how could you do such things to us?????

Your freedom-machine is too precious to take chances with. So why not give it the best care you can? One way is using Standard gasolines.

Standard's Lead-Free Amoco®, the new car gasoline, not only helps cut down on air pollution, but tests prove it can double the life of your muffler and tail pipe compared to fully loaded gasolines. Makes your spark plugs last longer, too.

It's a fact--more drivers in the Midwest care for their cars with Standard gasolines than any other brand. And they keep coming back. Isn't that the truest test of quality?

You've got a lot of money in your car. And it means a lot of personal freedom to you. So take good care of it... with Standard.

**You expect more from Standard and you get it.™**
