

## Extension plans interim classes

Plans for study programs for the 1972-73 school year interim are already underway, according to Earl Green, head of University extension division class programs. He said he had received a good response from faculty interested in sponsoring classes over the interim.

Green said replies included suggestions for trips to London, Athens, Rome and Japan and Korea, as well as the continental U.S. Other classes are planned to be held on campus.

He said none of the proposed courses has been fully approved and the extension division will have more specific information at the beginning of next school year.

## Final exam schedule
