

## SPEAKING OF GROWTH..

Hunt Building Corporation increased sales eight times and profitability 300 times since 1967. We became a publicly held construction company, and continued to grow in an industry all too often characterized as still in management dark ages. We intend to...but we need help...help in the areas of personnel and human relations, cost accounting, design and engineering, purchasing and construction management. If you will graduate in December or May, with a degree in Accounting, Civil Engineering, Architectural Engineering or Architecture, see our representative, October 25.

**HUNT BUILDING CORPORATION**

An equal opportunity employer
