

## WRH vote will decide new name for dorm

Students living in Women's Residence Hall will vote next Tuesday in a run-off election to rename the dormitory either People's Residence Hall, Neihardt Hall after Nebraska's 91-year-old poet laureate or Ketha Hall, an Indian word meaning great expectations.

As in the first election held last Tuesday, residents have the choice of keeping the name the same, according to WRH Residence Director Georgia Glass.

The three names were top choices of those suggested in a dorm contest to find a more appropriate tag for WRH, since men live in the Centennial College and International House there. Whoever's name is finally chosen will win \$10.

Confusion at the WRH switchboards was one reason the hall government initiated the contest. Callers wanting to talk to a man often hung up when switchboard operators said "Women's Residence Halls," thinking that they had called the wrong place.

She said first the dormitory government had to find out whether they did have the right to change the hall's name. When a new name is chosen, it must pass through the housing director's office, the Student Affairs office, and be approved by the Regents, as all campus building names must be.

## Why wait for tomorrow?

If you think the Seminary is a place of study and meditation, you're right. But there is so much more.

As a Paulist you become involved from the start.

We were founded with the belief that each man has a place. Each man has a job. Sometimes, many jobs. And each contributes his own unique talents and is given the freedom and the support he needs to achieve his goals.

The Paulist is a man on the move. His mission is to people, particularly the people of North America. The issues and problems we face today—injustice, poverty, peace, war—must be the concern of the Church.

Wherever the Paulist student serves the Christian Community—in a parish or an inner city school, a youth center or a campus, or in communications, he is concerned. Involved. Right now.

When you commit yourself to the Paulists, it isn't a someday thing. It's today.

For more information write: Father L. Gerald C. Campbell, Room 102.

## More than you expect... for less than you expected

You've probably had the experience of going off on a long-anticipated vacation trip in a flurry of excitement and anticipation, only to return with a vague sense of disappointment. It just wasn't what you dreamed it would be.

Or, perhaps you've bought a new car that right away developed a glitch in the front end (but only between 50 and 55, of course). That's a very particular sort of disappointment.

We at Stereo Studio do everything possible to prevent your experiencing these disappointments when you buy a stereo system. We have a checkout procedure that helps to prevent the glitches in advance, and we have a service staff to solve them promptly and cheerfully when they do occur. And because so many things these days are at best no better than you expect, we select the equipment we sell to provide in most cases more satisfaction than you might anticipate.

Our \$400 Advent/Marantz/BSR/McDonald/Shure stereo system is an outstanding example. More of our customers than we expected have reported the very special delight of finding that this system sounds better at home than it does on paper or in the store.

The Smaller Advent loudspeakers are a startling speaker bargain, of which highly-respected Stereo Review Magazine said, "Any preconceived ideas you may have about the limitations of sub-compact speaker systems will, we think, be shattered." The Marantz 2010 AM/FM stereo receiver provides sufficient power (over 20 RMS watts of it) to handle the most tortuous musical passages in the average living room, and its sensitive tuner will capture your favorite radio stations with clarity. The BSR/McDonald 510/X automatic turntable with a Shure M-75 cartridge and diamond stylus will treat your records gently and add no unpleasant sounds of its own.

Together, these remarkable components cost just 409.95—a saving of \$39.45 over their usual individual prices. We'd like you to hear for yourself if what we say about this system is true. If you don't agree, then we'll be disappointed.
