## MED SCHOOL ADMISSION PROBLEMS?

**Euromed may offer RX via overseas training.**

For the session starting Fall, 1973, the European Medical Students Placement Service, Inc. will assist qualified American students in gaining admission to recognized overseas medical schools.

And that's just the beginning.

Since the language barrier constitutes the preponderate difficulty in succeeding at a foreign school, the Euromed program also includes an intensive 8-12 week medical and conversational language course, mandatory for all students. Five hours daily, the course is given in the country where the student will attend medical school.

In addition, the European Medical Students Placement Service provides students with an 8-12 week intensive cultural orientation course, with American students now studying medicine in that particular country serving as counselors.

Senior or graduate students currently enrolled in an American university are eligible to participate in the Euromed program.

Perhaps most important, the Euromed Program helps the student attain his career goal in the medical profession.

"I would like to thank you for providing me with the opportunity to fulfill my goal of becoming a doctor. . . . I believe that your program holds a great deal of hope for the future. . . . in opening doors for many young Americans. . . . and in aiding the U.S. in its critical shortage of doctors."

We have placed a number of qualified students from New York State in recognized medical schools overseas.

### WR - MYSTERIES OF THE ORGANISM

Directed by Dusan Makavejev also directed Love Affair or the Case of the Missing Switchboard Operator.

"A hilarious, highly erotic political comedy which quite seriously proposes sex as ideological imperative for liberation; a plea for Erotic Socialism."  
"Beneath the film's light-hearted frivolity and marvelous humor lurks a more serious ideological intent: Opposition to all oppressive social systems, East or West, the removal of prurience from sex, a final squaring of accounts by the new radicals with the new reactionary Russian regime."
