## DO YOU THINK NEBRASKA IS SCREWED UP?

Do you think Nebraska is screwed up? Well you can do something to change it. ASUN Legislative Liaison Committee needs your help on the following projects:

— **To Block the Governor's Tuition increase:** in the name of "tax relief" the Governor wants to increase what we and our parents pay while cutting what we get.

**To get a New Life Science Building:** Either by a grant from revenue sharing money or making sure there is adequate funding in the Budget.

**To Have a Constitutional Amendment Placed Before the People to Establish a Student Regent:** The bill has already been introduced, it's up to us to get it passed.

**To Have Minimum Wage for Students Guaranteed:** Senator Chambers has introduced a bill that establishes our work as valuable as anyone else's.

**To Stop the Cut-off of Funds for Intramurals & Recreation, the Union, Student Health, ASUN, and the Daily Nebraskan:** Believe it or not a student fee bill is back. It would cut-off funds for the programs, but you'd still have to pay for the buildings.

**To Work for the Uniform Residential Landlord and Tenant Act:** How many times have you wanted to tell your landlord where to go, but had no place to send him? This bill would give you a place.

We need your help on any or all of these projects. If you can talk and/or read there's something you can do. Call the ASUN Office at 472-2581 and ask for Ann Henry or Mark Hoeger or come to a regular meeting, Tuesday nights at 9:00 p.m. in the Union (room posted).

## CENTER FOR EDUCATIONAL CHANGE REPORT

The Center for Educational Change is currently working on three projects. A proposed policy allowing no hour exams during the last week of class was accepted by the ASUN Senate in December, but has yet to come before the Faculty Senate. C.E.C. is compiling another proposal for the mechanics and use of faculty evaluations. This proposal also seeks direct student representation in tenure-approving procedures. Finally C.E.C. plans to rewrite and distribute a booklet for incoming freshmen which introduces them to the University of Nebraska.

## ENVIRONMENTAL INFORMATION SERIES

TONIGHT:

Dr. Gary Hergenrader will speak on Eutrophication. (Dr. Hergenrader is probably Nebraska's foremost expert on the subject of eutrophication—the process by which lakes "die".)

Brought to the student sponsored jointly by ASUN's Environmental Task Force & the UPC Talks & Topics Committee.
