MED SCHOOL ADMISSION PROBLEMS?

Euromed may offer RX via overseas training.

For the session starting Fall, 1973, the European Medical Students Placement Service, Inc. will assist qualified American students in gaining admission to recognized overseas medical schools.

And that's just the beginning.

Since the language barrier constitutes the preponderate difficulty in succeeding at a foreign school, the Euromed program also includes an intensive 8-12 week medical and conversational language course, mandatory for all students. Five hours daily, the course is given in the country where the student will attend medical school.

In addition, the European Medical Students Placement Service provides students with an 8-12 week intensive cultural orientation course, with American students now studying medicine in that particular country serving as counselors.

Senior or graduate students currently en-

rolled in an American university are eligible to participate in the Euromed program.

Perhaps most important, the Euromed Program helps the student attain his career goal in the medical profession.

*"I would like to thank you for providing me with the opportunity to fulfill my goal of becoming a doctor . . . I believe that your program holds a great deal of hope for the future . . . in opening doors for many young Americans . . . and in aiding the U.S. in its critical shortage of doctors."**

**from a letter from a Euromed participant*

We have helped place a number of qualified students from the United States in recognized medical schools overseas.

For application and further information phone toll free (800) 645-1234 or write...
