IT FIGURES!!

The Life Insurance industry is based on the rhythm of mathematics. If your interests and educational background have the same basis, you should consider a career as a Life Insurance Professional.

To best use and reward your talents and potential, a Life Insurance Company should be stable, well established, and have a proven record of continuing growth.

Midland National Life, founded in 1906, and growing at better than 20% each year is such a company.

Behind our sales force stands a proud team of Home Office professionals who design and administer our products. If your degree gives you a strong background in mathematics, you may qualify for a spot on the Midland National team. When you do, you can have the challenge of a Big City career in the comfortable environment of a more people-sized town.

Let's exchange information about each other. Call Lyle Hoyme (605) 386-6911 collect, or send your resume to Midland National Life Insurance, 104 S. Maple, Watertown, SD 57201.
