

Tickets available

Ticket sales in the annual spring football lottery were down 1,500 from last year's total, according to James Pittenger, athletic ticket manager.

He said 9,000 participated in the lottery held during dead week. He said 7,000 of those who participated would have seats in the east stadium, while the other 2,000 would be given end zone seats this fall.

Pittenger said the decrease could have been for a number of reasons. One problem, he said, was that the *Daily Nebraskan* did not publicize the lottery. He also said some students are dissatisfied because football tickets are not transferable.

Pittenger said some students are losing interest in football. He said a trend away from football started on the east and west coasts.

He said he thought a \$2 price increase, which raised the cost to \$14.50, had little effect on students' decision to buy tickets.

Students can pay for tickets now and pick them up when fall classes begin, to insure getting a ticket and a shorter wait in line in the fall, he said.

If regular season ticket renewals are any criteria, there has been no decline in Big Red football fever, he said.

According to Pittenger all available football season tickets were sold in 1972 and less than one-half of one per cent of last year's season ticket holders failed to renew for 1973.

As a result, Pittenger said, no new 1973 football season tickets will be available for public sale and the ticket office will not be accepting new requests for season tickets.

As in the past, a limited number of tickets will be available on a single game basis. Pittenger said this number will vary from game to game depending on the number of tickets purchased by the visiting team, the student sale in the fall and the number allocated to Nebraska when the Huskers are on the road.

The ticket office will begin accepting orders for single game tickets for both home and away games on June 15.

Pittenger has requested that orders be handled by mail rather than in person and noted that telephone orders will not be accepted. He said all orders will be handled in

accordance with the postmark of the order and all orders must be accompanied by payment for the requested tickets, although receipt of the check does not guarantee the fan that his request will be filled. Checks will be returned on all unfilled requests.

With the exception of the Oklahoma game, all tickets will be \$7 per game. Oklahoma tickets are priced at \$7.25 each. Orders for tickets should be accompanied by a separate check for each game and 50 cents should be added to each order to cover cost of handling and postage.

Pittenger said requests for the Missouri game at Columbia on Oct. 13 will be limited to four tickets per customer. He said the Missouri game will be the student migration and a block of tickets will be allocated for students.

"It is our hope," Pittenger said, "that the delayed date for accepting ticket requests will better enable us to advise people ahead of time as to whether they will be receiving tickets."
